Bernstein, 2003-10-25 In a misguided attempt to eradicate every vestige of discrimination in our society activists and courts are using antidiscrimination laws to erode civil liberties such as free speech the free exercise of religion and freedom of association Civil rights laws today are being applied in ways that threaten free speech on campus and in the workplace the right of local community activists to speak out against government policies the rights of private associations such as the Boy Scouts to determine their membership policies and even the rights of individuals to choose their roommates **Our Kids** Robert D. the New World environment As he unravels the tangled origins of our bittersweet culture Mr Kammen makes us see that unresolved contradictions in the American experience have functioned as the prime characteristic of our national style Puritanical and hedonistic idealistic and materialistic peace loving and war mongering isolationist and interventionist consensus minded and conflict prone these opposing strands go back to the roots of our history He pursues them down through the seventeenth and eighteenth centuries from the traumas of colonization and settlement through the tensions of the American Revolution making clear both the relevance of this early experience to nineteenth and twentieth century realities and the way in which America dualisms have endured and accumulated to produced such dilemmas as today s poverty amidst abundance and legitimized lawlessness Far from being a study in social pathology *People of Paradox* is a depiction of a complex society and an explanation of its development a bold interpretation that gives an entirely new perspective to the American ethos
