Air Force Enlisted Force Management Aug 28 2023 A fundamental goal of the Air Force personnel system is to ensure that the manpower inventory, by Air Force specialty code and grade, matches requirements. However, there are structural obstacles that impede achieving this goal. To remove one of those obstacles, the authors propose a methodology that would marginally modify grade authorizations within skill levels to make it possible to better achieve manpower targets.

In Defense of the Constitution: Ending America's Occupation Jun 01 2021 This highly controversial book is going to change the political and cultural direction and scene of America in the 21st Century. It will do this by providing Americas Compatriots the tools theyve been searching for to stop Americas Government, Supreme Court Judges, and Politicians from continuing to push this great Republic into the Abyss of a Borderless and lawless nation. By analyzing key words and the US Constitution, this book shows Americas Compatriots how to stop their Government from wresting power from the Republic (a Government who continues to misinterpret and misread key parts of the Constitution). And, unfortunately for the Republic, these misinterpretations are allowing Mexicos (and other foreign nations) criminal citizens and colonizers to invade and occupy US sovereign soil, destroy Americas Western Christian Culture via cultural genocide, and allowing their American born (not-legal) children to claim unlawful citizenship. Unfortunately for Mexicos colonizing invaders and these children, this book proves these lawless colonizers invasion, is not, any kind of immigration, so politicians are breaking Federal law to protect them. Chapter 1: This book tells readers why this book was written; Chapters 2 through 4 are this books heart. It introduces readers to key literary facts, definitions, and analysis of the Constitution, and key sections that prove Americas Government and politicians have betrayed the Republics Citizens. Finally, Chapter 5, and the 3 Appendixes sum up and complete the research. We feel, with these facts, Americans should be ready to save the Country that our Constitutions drafters wrote was blessed and ordained by God. We hope they will be ready to fight these rogue politicians and judges, and to stop the cultural genocide of Americas Western Christian culture, English language, and US sovereignty.
