Hobos, Hustlers, and Backsliders Teresa Gowan, 2010 Gowan shows some of the diverse ways that men on the street in San Francisco struggle for survival autonomy and self respect Living for weeks at a time among homeless men working side by side with them as they collected cans bottles and scrap metal helping them set up camp watching and listening as they panhandled and hawked newspapers and accompanying them into soup kitchens jails welfare offices and shelters Gowan immersed herself in their routines their personal stories and their perspectives on life on the streets She observes a wide range of survival techniques from the illicit to the industrious from drug dealing to dumpster diving She also discovered that prevailing discussions about homelessness and its causes homelessness as pathology homelessness as moral failure and

homelessness as systemic failure powerfully affect how homeless people see themselves and their ability to change their situation

Eat Drink Vote Marion Nestle, 2013-09-03 What's wrong with the US food system? Why is half the world starving while the other half battles obesity? Who decides our food issues and why can't we do better with labeling, safety, or school food? These are complex questions that are hard to answer in an engaging way for a broad audience. But everybody eats, and food politics affects us all. Marion Nestle, whom Michael Pollan ranked as the 2nd most powerful foodie in America after Michelle Obama in *Forbes*, has always used cartoons in her public presentations to communicate how politics, shaped by government, corporate marketing, economics, and geography, influences food choice. Cartoons do more than entertain; the best get right to the core of complicated concepts and powerfully convey what might otherwise take pages to explain. In *Eat Drink Vote*, Nestle teams up with The Cartoonist Group syndicate to present more than 250 of her favorite cartoons on issues ranging from dietary advice to genetic engineering to childhood obesity. Using the cartoons as illustration and commentary, she engagingly summarizes some of today's most pressing issues in food politics. While encouraging readers to vote with their forks for healthier diets, this book insists that it's also necessary to vote with your ballot to make it easier for everyone to make healthier dietary choices.

BART Michael C. Healy, 2013-01-01 An insider's indispensable behind-the-scenes history of the transit system of San Francisco and surrounding counties. *Houston Chronicle*. In the first-ever history book about BART, longtime agency spokesman Michael C. Healy gives an insider's account of the rapid transit system's inception, hard-won approval, construction, and operations—warts and all. With a master storyteller's wit and sharp attention to detail, Healy recreates the politically fraught venture to bring a new kind of public transit to the West Coast. What emerges is a sense of the individuals who made and made BART happen. From tales of staying up until 3:00 a.m. with BART pioneers Bill Stokes and Jack Everson to hearing the election results for the rapid transit vote to stories of weathering scandals, strikes, and growing pains, this look behind the scenes of an iconic, seemingly monolithic structure reveals people at their most human and determined to change the status quo. *The Metro: The T, The Tube*. The world's most famous subway systems are known by simple monikers, and San Francisco's BART belongs in that class. Michael C. Healy delivers a tour-de-force telling of its roots, hard-fought approval, and challenging construction that will delight fans of American urban history. *Doug Most*, author of *The Race Underground*, *Boston*, *New York*, and *The Incredible Rivalry That Built America's First Subway*. *Campaign Guide for Congressional Candidates and Committees*, 1982.

The World According to China Elizabeth C. Economy, 2021-10-25 An economic and military superpower with 20 percent of the world's population, China has the wherewithal to transform the international system. Xi Jinping's bold calls for China to lead in the reform of the global governance system suggest that he has just such an ambition. But how does he plan to realize it? And what does it mean for the rest of the world? In this compelling book, Elizabeth Economy reveals China's ambitious new strategy to reclaim the country's past glory and reshape the geostrategic landscape in dramatic new ways. Xi's vision is one of Chinese centrality on the global stage in which the

mainland has realized its sovereignty claims over Hong Kong Taiwan and the South China Sea deepened its global political economic and security reach through its grand scale Belt and Road Initiative and used its leadership in the United Nations and other institutions to align international norms and values particularly around human rights with those of China It is a world radically different from that of today The international community needs to understand and respond to the great risks as well as the potential opportunities of a world rebuilt by China
