The Government of Canada issues licences for the sale and service of alcohol in Ontario - Answer False, The Alcohol and Gaming Commission of Ontario (AGCO), which is an arm's length agency of the Ontario Government, issues licences for the sale and service of alcohol in Ontario. The AGCO can also suspend or revoke a licence.

The minimum age for someone to serve or sell alcohol in Ontario is 18. - Answer True

The minimum age for someone to serve or sell alcohol in Ontario is 18. He or she must also be Smart Serve certified.

You could be held civilly and/or criminally liable if you serve too much alcohol to a customer. - Answer True, The Liquor Licence Act (LLA) is legislation that outlines the laws and regulations affecting the sale and service of alcohol in Ontario. This includes ensuring that you never serve a customer to the point of intoxication. Not complying with the laws and regulations, could result in you being held civilly and/or criminally liable.

After an intoxicated customer has left your establishment, you are no longer liable for him or her. - Answer False, Your liability does not end when the customer leaves. If you have served a customer to the point of intoxication, you are liable for them until they are sober again.

Drinking coffee will help a person who is intoxicated sober up faster. - Answer False, Drinking coffee, water or eating food will not help someone sober up faster. Once alcohol has been absorbed by the body and moves into the bloodstream, only time will help.

An 8 ounce glass of beer is equal to an 8 ounce glass of wine. - Answer False, There are big differences in the alcohol content found in beer, wine, and spirits. This program will introduce a benchmark called a "Standard Drink" to help you estimate the amount of alcohol each customer has consumed.

You can refuse the sale of alcohol to any customer even if they produce a valid I.D. - Answer True, It is your legal obligation to refuse the sale of alcohol to anyone if you have reason to believe he/she is intoxicated and/or you suspect they may be purchasing alcohol for an underage person.

A customer can show identification without a photo to prove they are age 19 or older. -

Motivation is key to substance use behavior change Counselors can support clients movement toward positive changes in their substance use by identifying and enhancing motivation that already exists Motivational approaches are based on the principles of person centered counseling Counselors use of empathy not authority and power is key to enhancing clients motivation to change Clients are experts in their own recovery from SUDs Counselors should engage them in collaborative partnerships Ambivalence about change is normal Resistance to change is an expression of ambivalence about change not a client trait or characteristic Confrontational approaches increase client resistance and discord in the counseling relationship Motivational approaches explore ambivalence in a nonjudgmental and compassionate way

Communities in Action National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Community-Based Solutions to Promote Health Equity in the United States,2017-04-27

In the United States some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population but also because of inequities in factors that impact health status so called determinants of health. Only part of an individual's health status depends on his or her behavior and choice. Community wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community it does not mean they are intractable; such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them as well as the root causes and structural barriers that need to be overcome.

How Learning Works Susan A. Ambrose, Michael W. Bridges, Michele DiPietro, Marsha C. Lovett, Marie K. Norman, 2010-04-16 Praise for How Learning Works: How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning. Barbara Gross Davis, assistant vice chancellor for educational development, University of California Berkeley and author Tools for Teaching. This book is a must read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas and I discovered new ways of thinking about teaching. Eugenia T. Paulus, professor of chemistry, North Hennepin Community College and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education. Thank you, Carnegie Mellon, for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues. Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching. As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory based on research evidence relevant to college teaching and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching and they graciously share it with you in this organized and readable book. From the Foreword by Richard E. Mayer, professor of psychology, University of California Santa Barbara, coauthor eLearning and the Science of Instruction, and author Multimedia Learning.

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards-based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity-based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research-based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike

Biochar for Environmental Management Dr. Johannes Lehmann, Stephen Joseph, 2009 Biochar is the carbon-rich product when biomass

such as wood manure or crop residues is heated in a closed container with little or no available air It can be used to improve agriculture and the environment in several ways and its stability in soil and superior nutrient retention properties make it an ideal soil amendment to increase crop yields In addition to this biochar sequestration in combination with sustainable biomass production can be carbon negative and therefore used to actively remove carbon dioxide from the atmosphere with major implications for mitigation of climate change Biochar production can also be combined with bioenergy production through the use of the gases that are given off in the pyrolysis process This book is the first to synthesize the expanding research literature on this topic The book s interdisciplinary approach which covers engineering environmental sciences agricultural sciences economics and policy is a vital tool at this stage of biochar technology development This comprehensive overview of current knowledge will be of interest to advanced students researchers and professionals in a wide range of disciplines Provided by publisher [Reflective Practice in Nursing](#) Lioba Howatson-Jones,2016-02-27 Would you like to develop some strategies to manage knowledge deficits near misses and mistakes in practice Are you looking to improve your reflective writing for your portfolio essays or assignments Reflective practice enables us to make sense of and learn from the experiences we have each day and if nurtured properly can provide skills that will you come to rely on throughout your nursing career Using clear language and insightful examples scenarios and case studies the third edition of this popular and bestselling book shows you what reflection is why it is so important and how you can use it to improve your nursing practice Key features Clear and straightforward introduction to reflection directly written for nursing students and new nurses Full of activities designed to build confidence when using reflective practice Each chapter is linked to relevant NMC Standards and Essential Skills Clusters *Wong's Essentials of Pediatric Nursing - Text and Study Guide Package* Marilyn J. Democracy and Education John Dewey,1916 *Renewal of Life by Transmission* The most notable distinction between living and inanimate things is that the former maintain themselves by renewal A stone when struck resists If its resistance is greater than the force of the blow struck it remains outwardly unchanged Otherwise it is shattered into smaller bits Never does the stone attempt to react in such a way that it may maintain itself against the blow much less so as to render the blow a contributing factor to its own continued action While the living thing may easily be crushed by superior force it none the less tries to turn the energies which act upon it into means of its own further existence If it cannot do so it does not just split into smaller pieces at least in the higher forms of life but loses its identity as a living thing As long as it endures it struggles to use surrounding energies in its own behalf It uses light air moisture and the material of soil To say that it uses them is to say that it turns them into means of its own conservation As long as it is growing the energy it expends in thus turning the environment to account is more than compensated for by the return it gets it grows Understanding the word control in this sense it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up Life is a self renewing process through action upon the environment
