The Inside Man Stacey L. Tyler, 2016-12-01 Organizational communication impacts service efficiency and productivity An increase in federal funding to strengthen communication within the airport stakeholders has failed to deliver expected results The purpose of this qualitative case study is to explore whether miscommunication among the TSA agents and airport employees relates to effective implementation of airport security policies The central research question focuses on the degree to which miscommunication between the TSA and airlines regarding prohibited items at security checkpoints impeded the effective execution of federal law regarding carry on luggage on commercial aircraft Using Weick s organizational information theory this study examines the implementation of airport security policy focusing on communication between government and industry organizations A sample of 13 private airline employees and 7 airport employees at a large U S commercial airport participated in the study Data was collected via semi structured interview questions Data was coded and analyzed following an inductive coding strategy According to study results there is very little evidence of miscommunications between government and airline stakeholders regarding policy changes and expectations related to security procedures However miscommunication about the same policy changes to consumers confuses travelers which may explain incidences of prohibited items at the security checkpoints Implications for positive social change related to this study may assist policy makers in clarifying language to better inform travelers about security changes and prohibited items the objective of which will promote safer flying experiences reduce the potential for harm and result in more expedient traveling Transportation Security Administration Oversight United States. Historical Dictionary of the Republic of Cameroon Mark Dike DeLancey, Rebecca Neh Mbuh, Mark W. Delancey, 2010-05-03 Cameroon is a country endowed with a variety of climates and agricultural environments numerous minerals substantial forests and a dynamic population It is a country that should be a leader of Africa Instead we find a country almost paralyzed by corruption and poor management a country with a low life expectancy and serious health problems and a country from which the most talented and highly educated members of the population are emigrating in large numbers Although Cameroon has made economic progress since independence it has not been able to change the dependent nature of its economy The economic situation combined with the dismal record of its political history indicate that prospects for political stability justice and prosperity are dimmer than they have been for most of the country s independent existence The fourth edition of the Historical Dictionary of the Republic of Cameroon has been updated to reflect advances in the study of Cameroon s history as well as to provide coverage of the years since the last edition It relates the turbulent history of Cameroon through a chronology an introductory essay a bibliography and over 600 cross referenced dictionary entries on significant persons events places organizations and other aspects of Cameroon history from the earliest times to the present

Remittance Markets in Africa Sanket Mohapatra, Dilip Ratha, 2011-01-01 Remittances sent by African migrants have become an important source of external finance for countries in the Sub Saharan African region In many African countries these flows are larger than foreign direct investment and portfolio debt and equity flows In some cases they are similar in size to official aid from multilateral and bilateral donors Remittance markets in Africa however remain less developed than other regions The share of informal or unrecorded remittances is among the highest for Sub Saharan African countries Remittance costs tend to be significantly higher in Africa both for sending remittances from outside the region and for within Africa South South remittance corridors At the same time the remittance landscape in Africa is rapidly changing with the introduction of new remittance technologies in particular mobile money transfers and branchless banking This book presents findings of surveys of remittance service providers conducted in eight Sub Saharan African countries and in three key destination countries It looks at issues relating to costs competition innovation and regulation and discusses policy options for leveraging remittances for development in Africa

The Pandemic Century Mark Honigsbaum, 2019-03-09 Like sharks epidemic diseases always lurk just beneath the surface This fast paced history of their effect on mankind prompts questions about the limits of scientific knowledge the dangers of medical hubris and how we should prepare as epidemics become ever more frequent Ever since the 1918 Spanish influenza pandemic scientists have dreamed of preventing catastrophic outbreaks of infectious disease Yet despite a century of medical progress viral and bacterial disasters continue to take us by surprise inciting panic and dominating news cycles From the Spanish flu and the 1924 outbreak of pneumonic plague in Los Angeles to the 1930 parrot fever pandemic and the more

recent SARS Ebola and Zika epidemics the last 100 years have been marked by a succession of unanticipated pandemic alarms Like man eating sharks predatory pathogens are always present in nature waiting to strike when one is seemingly vanquished others appear in its place These pandemics remind us of the limits of scientific knowledge as well as the role that human behaviour and technologies play in the emergence and spread of microbial diseases *Pharmaceuticals, Corporate Crime and Public Health* Graham Dukes,John Braithwaite,J P Moloney,2014-06-27 The pharmaceutical industry exists to serve the community but over the years it has engaged massively in corporate crime with the public footing the bill This readable study by experts in medicine law criminology and public health documents the pr **Historical Dictionary of Somalia** Mohamed Haji Mukhtar,2003-02-25 Despite advances in modern communication and the proliferation of information there remain areas of the world about which little is known One such place is Somalia The informed public is aware of a political meltdown and consequent chaos there but few comprehend the causes of this tragic crisis This new edition covers Somalia s origin history culture and language as well as current economic and political issues The alphabetical arrangement of this Dictionary with a complete chronology list of acronyms and in depth bibliography provide useful information about the country in a convenient format A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East international relations and economics a useful fact filled compendium for government and public libraries NGO s and other special libraries *Globalizing Torture* ,2013 Following the terrorist attacks of September 11 2001 the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects The program was designed to place detainee interrogations beyond the reach of law Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture or by the CIA itself in clandestine black sites using torture techniques This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations It details for the first time the number of known victims and lists the foreign governments that participated in these operations It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit More than 10 years after the 2001 attacks this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and secure accountability for the associated human rights abuses **Crude Existence** Kristin Reed,2009-11-15 After decades of civil war and instability the African country of Angola is experiencing a spectacular economic boom thanks to its most valuable natural resource oil Focusing on the everyday realities of people living in the extraction zones Reed explores the exclusion degradation and violence that are the fruits of petrocapiatalism in Angola Made in Africa Carol Newman,John Page,John Rand,2016-02-23 Why is there so little industry in Africa Over the past forty years industry has moved from the developed to the developing world yet Africa s share of global manufacturing has fallen from about 3 percent

in 1970 to less than 2 percent in 2014 Industry is important to low income countries It is good for economic growth job creation and poverty reduction Made in Africa Learning to Compete in Industry outlines a new strategy to help African industry compete in global markets This book draws on case studies and econometric and qualitative research from Africa and emerging Asia to understand what drives firm level competitiveness in low income countries The results show that while traditional concerns such as infrastructure skills and the regulatory environment are important they alone will not be sufficient for Africa to industrialize The book also addresses how industrialization strategies will need to adapt to the region s growing resource abundance
