Rich Dad's Guide to Becoming Rich...Without Cutting Up Your Credit Cards Robert T. Kiyosaki, Sharon L. Lechter, 2000-11-01 Why cutting up your credit cards won t make you rich A popular TV personality often says Take out your credit cards and cut them into pieces While that is sound advice for people who are not financially responsible it is inadequate advice for anyone who wants to become rich or financially free In other words just cutting up your credit cards will not make you rich What does make you rich is financial education unfortunately a type of education we do not receive in school If a person has a solid financial education they would know that there are two kinds of debt good debt and bad debt A person with a sound financial education would know how to use good debt to make them richer faster much faster than a person who only saves money and has no debt Rich Dad s Guide to Becoming Rich Are you in credit card debt Is job security dead Is your financial security threatened Is a high paying job the answer Is your money working for you Do you have good debt or bad debt We all need more financial education We need to know how to have our money work hard for us so we don t have to spend our lives working for money That is why we need more sophisticated financial education not oversimplified and childish financial tips such as cut up your credit cards or save more money If you are ready to increase your financial education and enjoy your credit cards then this book is for you

Summary of Cash Flow Quadrant Alexander Cooper, 2021-07-20 Summary of Cash Flow Quadrant. You can never have true freedom without financial freedom. Freedom may be free, but it has a price. Preface: What is

Your Life's Goal Finding your path in life is your goal in life Your path is not your profession how much money you make your title or your successes and failures Finding your path means finding out what you were put here on this earth to do What is your life's purpose Why were you given this gift called life And what is the gift you give back to life Most people are programmed early in life to Go to school and get a job School is about finding a job in the E or S quadrant It is not about finding your life's path Trust your intuition heart and have guts Education is a process To develop into a whole human being we need mental physical emotional and spiritual education Traditional schools were primarily about developing students mentally That is why so many students who do well in school do not do well in real life especially in the world of money School programs students to be an employee in the E or S quadrant Traditional education is not the place for a person who wants to be an entrepreneur in the B and I quadrants Become an entrepreneur in education It seems that our paths in life are not found in our minds Our path in life is to find out what is in our hearts The shortcoming of traditional education Millions of people leave school only to be trapped in jobs they do not like They know something is missing in life Many people are also trapped financially earning just enough to survive wanting to earn more but not knowing what to do Without awareness of the other quadrants many people go back to school and look for new professions or pay raises in the E or S quadrant unaware of the world of the B and I quadrants Most addictions are attempts to find happiness in people's souls Many A students get stuck in analysis paralysis studying every little detail but failing to do anything This analysis paralysis is caused by our educational system punishing students for making mistakes If you think about it A students are A students simply because they made the fewest mistakes The problem with that emotional psychosis is that in the real world people who take action are the ones who make the most mistakes and learn from them to win in the game of life The reason so many people fail to achieve success is because they fail to fail enough times One of the reasons so many people cling to job security is because they lack emotional education They let fear stop them Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book **Summary of Rich Dad's Guide to Investing by Robert Kiyosaki** Francis Thomas,2023-08-21 Summary of Rich Dad's Guide to Investing by Robert Kiyosaki Chapter 1 of Rich Dad's Guide to Investing by Robert Kiyosaki is titled The CASHFLOW Quadrant In this chapter Kiyosaki introduces the concept of the CASHFLOW Quadrant which categorizes individuals into four different groups based on their primary source of income and their approach to making money The four quadrants are Employee E Self Employed S Business Owner B and Investor I Kiyosaki emphasizes that understanding which quadrant you primarily operate in and shifting towards the B and I quadrants can significantly impact your financial success Kiyosaki begins by discussing the differences in mindset and values between the quadrants He explains that people in the E and S quadrants tend to prioritize job security a regular paycheck and often trade their time for money On the other hand those in the B and I quadrants focus on creating systems leveraging resources and making money work for them The author explains that people

in the E quadrant work for others trading their time and skills for a fixed salary They often have limited control over their income and financial decisions In the S quadrant individuals are self employed professionals such as doctors or lawyers While they have more control over their income they often work long hours and their income is tied to their personal efforts Moving to the B quadrant Kiyosaki highlights that business owners have systems and people working for them allowing them to generate income even when they are not personally involved in every aspect of the business Business owners are more focused on building and managing their assets Finally in the I quadrant investors generate income from their investments such as stocks real estate or businesses They leverage their money to create wealth and passive income streams To be continued Here is a Preview of What You Will Get A Detailed Introduction A Comprehensive Chapter by Chapter Summary Etc Get a copy of this summary and learn about the book
