History's Greatest Generals Michael Rank,2013-11-04 From the 1 bestselling author of *The Crusades and the Soldiers of the Cross* comes an exciting new book on the greatest minds of military leadership in history Whether it is Hannibal of Carthage marching elephants across the Alps and attacking the heart of Rome Khalid ibn al Walid boasting an undefeated military career and destroying the Persian Empire while subduing the Byzantines or Russian General Alexander Suvurov and his elevation of the bayonet to a work of art that could cut down any European army great military leaders have exerted tremendous influence on society This book will look at the lives of the ten greatest military commanders in history Some conquered the fullest expanse of the known world as did Alexander the Great Still others were master statesmen and capable of translating military victory into long term political gains such as Julius Caesar whose vanquishing of the Gauls and his political opponents laid the groundwork for several centuries of unmatched Roman imperial might It will also look at the tactics they used to bring down stronger armies and befuddle them at every turn whether it is Napoleon who nearly conquered Europe through his deadly manoeuvre *sur les derrieres* and marching unexpectedly away from the enemy's main strength and concentrating on a weak but vital enemy point or Hannibal's double entrapment maneuver which has been the envy of military strategists for the last 2 000 years Whatever their background these rulers show that the right military commander at the right time in history can destroy an empire change civilization and alter the course of world history forever

Shake Hands With the Devil Romeo Dallaire,2009-02-24 On the tenth anniversary of the date that UN peacekeepers landed in Rwanda Random House Canada is proud to publish the unforgettable first hand account of the genocide by the man who led the UN mission Digging deep into shattering memories General Dallaire has written a powerful story of betrayal na vet racism and international politics His message is simple and undeniable Never again When Lt Gen Rom o Dallaire received the call to serve as force commander of the UN intervention in Rwanda in 1993 he thought he was heading off on a modest and straightforward peacekeeping mission Thirteen months later he flew home from Africa broken disillusioned and suicidal having witnessed the slaughter of 800 000 Rwandans in only a hundred days In *Shake Hands with the Devil* he takes the reader with him on a return voyage into the hell of Rwanda vividly recreating the events the international community turned its back on This book is an unsparing eyewitness account of the failure by humanity to stop the genocide despite timely warnings Woven through the story of this disastrous mission is Dallaire's own journey from confident Cold Warrior to devastated UN commander to retired general engaged in a painful struggle to find a measure of peace reconciliation and hope This book is General Dallaire's personal account of his conversion from a man certain of his

worth and secure in his assumptions to a man conscious of his own weaknesses and failures and critical of the institutions he had relied on. It might not sit easily with standard ideas of military leadership but understanding what happened to General Dallaire and his mission to Rwanda is crucial to understanding the moral minefields our peacekeepers are forced to negotiate when we ask them to step into the world's dirty wars. Excerpt from *Shake Hands with the Devil*. My story is not a strictly military account nor a clinical academic study of the breakdown of Rwanda. It is not a simplistic indictment of the many failures of the UN as a force for peace in the world. It is not a story of heroes and villains although such a work could easily be written. This book is a *cri de coeur* for the slaughtered thousands, a tribute to the souls hacked apart by machetes because of their supposed difference from those who sought to hang on to power. This book is the account of a few humans who were entrusted with the role of helping others taste the fruits of peace. Instead we watched as the devil took control of paradise on earth and fed on the blood of the people we were supposed to protect.

Biorights Dipayan Dey, Joyashree Roy, 2022-07-12. This book evaluates local conservation successes of global south in the climate milieu as an empirical evidence of Bio rights of commons at community ecosystem interface for sustainable intensification of nature's goods and services. Bio rights is a right based neo economic conservation paradigm that compensates the opportunity costs incurred in conservation efforts by the marginal communities living near globally important ecosystems and dependent on it for their livelihood through payments from environment services. The book would bring forth the true value of circular economic interventions in socio ecological conservation shaped through sustainable human interactions with nature. This multilevel study of conservation science serves an interdisciplinary academia consistent with conventions on climate change bio diversity and sustainable development to establish links between conservation priorities and development objectives. Herein Bio rights is introduced as a design approach for production linked sustainable development supplemented with case studies from the east.

A History of Environmentalism Marco Armiero, Lise Sedrez, 2014-07-31. Think globally act locally has become a call to environmentalist mobilization proposing a closer connection between global concerns local issues and individual responsibility. *A History of Environmentalism* explores this dialectic relationship with ten contributors from a range of disciplines providing a history of environmentalism which frames global themes and narrates local stories. Each of the chapters in this volume addresses specific struggles in the history of

environmental movements for example over national parks species protection forests waste contamination nuclear energy and expropriation A diverse range of environments and environmental actors are covered including the communities in the Amazonian Forest the antelope in Tibet atomic power plants in Europe and oil and politics in the Niger Delta The chapters demonstrate how these conflicts make visible the intricate connections between local and global the body and the environment and power and nature A History of Environmentalism tells us much about transformations of cultural perceptions and ways of production and consuming as well as ecological and social changes More than offering an exhaustive picture of the entire environmentalist movement A History of Environmentalism highlights the importance of the experience of environmentalism within local communities It offers a worldwide and polyphonic perspective making it key reading for students and scholars of global and environmental history and political ecology **Working Shakespeare Video Library** Cicely Berry, Andrew Wade, Jeremy Irons, 2003-09
