[Buddhism and Bioethics](#) May 13 2024 Buddhism and Bioethics discusses contemporary issues in medical ethics from a Buddhist perspective. The issues examined include abortion, embryo research, and euthanasia. Drawing on ancient and modern sources, the book shows how Buddhist ethical principles can be applied consistently to a range of bioethical problems. It is suggested that moral judgements can be objective and that there can be a 'Buddhist view' on ethical issues.

[Biomedicine as Culture](#) Feb 10 2024 This volume offers interdisciplinary perspectives on contemporary biomedicine as a cultural practice. It brings together leading scholars from cultural anthropology, sociology, history, and science studies to conduct a critical dialogue on the culture of biomedical practice, discussing its epistemic, material, and social implications. The essays look at ways new biomedical knowledge is constructed within hospitals and academic settings and how knowledge changes perceptions, material arrangements, and social relations, not only within clinical and scientific communities, but especially once it is diffused into a broader cultural context.

[Sikhs, We are Not Hindus](#) Apr 12 2024 Polemic against the view advanced by the Arya Samaj and others that the Sikhs are Hindus and not a separate religious entity.
