**The Anatomy of Achievement Gaps** Dec 05 2022 Through the lens of interdisciplinary and systems perspectives, *The Anatomy of Achievement Gaps* offers an expert critical analysis of the underachievement problems plaguing the American education system today. By providing a blueprint to meet these challenges, Jaekyung Lee both evaluates and informs American educational policies with a new model of achievement for preschool through

college-aged students.

**America's Children** Aug 21 2021 The Interagency Forum on Child and Family Stat. develops priorities for collecting data on children and youth, improve the reporting and dissem. of info. on the status of children to the policy community and the general public, and produce more complete data on children at the State and local levels. This report presents key indicators grouped in seven sections: family and social environ., economic circumstances, health care, physical environ. and safety, behavior, education, and health. It incorporates several modifications: a regular indicator on adolescent depression has been added; and a special feature, Children with Special Health Care Needs, has been included. Extensive charts, tables and graphs. A print on demand report.

**Growing Up Suburban** Jul 12 2023 The prosperous, comfortable, and homogeneous American suburb is a relatively recent institution in American history. Edward Wynne was one of the first to take a serious look at the quality of suburban childhood, where, he contends, we have ignored the developments affecting the largest pool of children and parents in America. This provocative volume argues that the total environment of the suburban youth—the school, the community, the family, and the workplace—is in need of drastic reform. Wynne advances a forthright argument for the preservation of traditional moral values and criticizes excessive individualism in fragmented modern society. Focusing on the schools and extending his discussion to the larger community, he pleads for more attention to such goals as honesty, persistence, patriotism, and loyalty. Post-industrial suburban environments, Wynne argues, do not provide the diversity of experience children must have to become successful adults. Strong community ties to the schools are basic to Wynne's thesis. Within the schools, he recommends changes in grading systems, student responsibilities and assignments, selection and training of teachers and administrators, structuring and evaluation of programs, and the socioeconomic and age mix of pupils. A feeling of cooperation and unity within the school itself is a major goal. Wynne also suggests steps for moving toward more heterogeneous, close-knit communities, where citizens have greater local control. For example, community members could restrict movement into the community and should aim for a mix of blue- and white-collar residents. Wynne's arguments clearly run counter to fashion and are sure to provoke a high level of debate among educators of differing philosophic persuasions. Civil libertarians, feminists, civil rights advocates, and others are bound to make spirited replies to many of Wynne's contentions. *Growing Up Suburban* will be of interest to educators, public school administrators,

parents, and suburban dwellers.

**South African Social Attitudes** Jul 20 2021 A country's attitudinal profile is as much a part of its social reality as are its demographic make-up, its culture and its distinctive social patterns. It helps to provide a nuanced picture of a country's circumstances, its continuities and changes, its democratic health, and how it feels to live there. It also helps to measure the country's progress towards the achievement of its economic, social and political goals, based on the measurement of both 'objective' and 'subjective' realities. *South African Social Attitudes: Changing Times, Diverse Voices* is a new series aimed at providing an analysis of attitudes and values towards a wide range of social and political issues relevant to life in contemporary South African society. As the series develops, we hope that readers will be able to draw meaningful comparisons with the findings of previous years and thus develop a richer picture and deeper appreciation of changing South African social values. This, the first volume in the series, presents the public's responses during extensive nation-wide interviews conducted by the HSRC in late 2003. The findings are analysed in three

thematic sections: the first provides an in-depth examination of race, class and politics; the second gives a critical assessment of the public's perceptions of poverty, inequality and service delivery, and the last explores societal values such as partner violence and moral attitudes. *South African Social Attitudes* is essential reading for anyone seeking a guide to contemporary social or political issues and debates. It should prove an indispensable tool not only for government policy-makers, social scientists and students, but also for general readers wishing to gain a better understanding of their fellow citizens and themselves.

**Drugs & Society** Jun 11 2023 5 Stars! from Doody's Book Reviews! (of the 13th Edition) "This edition continues to raise the bar for books on drug use and abuse. The presentation of the material is straightforward and comprehensive, but not off putting or complicated." As a long-standing, reliable resource *Drugs & Society, Fourteenth Edition* continues to captivate and inform students by taking a multidisciplinary approach to the impact of drug use and abuse on the lives of average individuals. The authors have integrated their expertise in the fields of drug abuse, pharmacology, and sociology with their extensive experiences in research, treatment, drug policy making, and drug

policy implementation to create an edition that speaks directly to students on the medical, emotional, and social damage drug use can cause.

**The Legacy of a Troubled Past** Mar 08 2023 Since the advent of democracy in 1994, South Africa has been engaged in an unprecedented exercise of national soul-searching, torn between the need to lay to rest centuries of racial conflict and the desire to come to terms with its traumatic history. This book asks whether the country has begun to turn the corner on the legacy of collective hurt. To do so it ranges in scope across 350 years of South African history, encompassing the struggle against the apartheid regime, the downfall of white supremacy, the Truth and Reconciliation Commission and the first 25 years of democracy, up to more recent movements, such as #RhodesMustFall, or the inquests into the 2012 Marikana massacre, that point to the persistence of traumatic memory in contemporary society. The authors assembled here set out to analyse the representation of such memory, how it has been woven into narratives, recorded, preserved and questioned, and how issues of individual and collective responsibility have been grafted onto it through the visual arts, literature, political discourse and public action. In focusing on memory along with its derived forms of memorialization, collective memory, nostalgia, or post-memory, our contributors pose a fundamental question: is South Africa finally coming to the end of the post-apartheid transition period? Do the decades of memory work on racial violence and repression examined here hold out hope for the nation to make peace with its past?

novice drivers continue to be six to nine times more likely to die in a crash than they are when they are just a few years older. The World Health Organization reports that road traffic injuries are the leading cause of death globally among 15 to 19 year olds. In light of these crash statistics, understanding the teen driver problem remains of paramount public health importance around the world. *The Handbook of Teen and Novice Drivers: Research, Practice, Policy, and Directions* provides critical knowledge for a broad range of potential readers, including students, teachers, researchers in academics, industry and the federal government, public policy makers at all levels, insurance companies and automobile manufacturers, driving instructors, and parents and their teens.
