Resolving Residential Mortgage Distress Mr.Jochen R. Andritzky,2014-12-17 In housing crises high mortgage debt can feed a vicious circle of falling housing prices and declining consumption and incomes leading to higher mortgage defaults and deeper recessions In such situations resolution policies may need to be adapted to help contain negative feedback loops while minimizing overall loan losses and moral hazard Drawing on recent experiences from Iceland Ireland Spain and the United States this paper discusses how economic trade offs affecting mortgage resolution differ in crises Depending on country circumstances the economic benefits of temporary forbearance and loan modifications for struggling households could outweigh their costs

reforms will be based on the lessons learned from the experiences of overseas jurisdictions such as Canada the U K and the United States *Oversight of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac)* United States.
