Owners Edition - Workshop
Manual covers the following
Mercedes-Benz Vito and V-
Class petrol and diesel
powered vehicles spanning
model years 2000 to 2003. The
petrol model 113 with 130
b.h.p. engine (type 111) and
the three diesel models 108
CDI, 110 CDI and 112 CDI, all
fitted with the latest common
rail 2.2 litre diesel engines.
Depending on the version, the
power units have outputs of 82
b.h.p., 102 b.h.p. and 122
b.h.p. respectively. In Sections
0 and 1 can be found further
details of the various models
and engines dealt with here.
This manual has been written
for the practical owner who
wants to maintain their vehicle
in first-class condition and
carry out the bulk of their own
servicing and repairs.
Comprehensive step-by-step
instructions are provided for
service and overhaul

operations to guide the reader
through what might otherwise
be unfamiliar and complicated
tasks and hundreds of
illustrations are included to
amplify the text. With the aid of
this manual, many aspects of
service, overhaul and repair
are within the scope of an
owner with a reasonable
degree of mechanical aptitude.
Some operations however
demand more skill. Other jobs
require the use of special tools
and in some cases, testing
facilities and techniques that
are not generally available.
Only you can judge whether a
job is within your capabilities.
We do however try to assist the
reader to come to an informed
decision. Whilst every effort
has been made to ensure that
the information provided is
correct, it is obviously not
possible to guarantee complete
freedom from errors or
omissions. Information to be
found in the driver's handbook
is not necessarily duplicated
here and it is not possible
within this volume to cover
every aspect to be found in the
manufacturer's own workshop

manual which is of much greater size and complexity. However, it should be consulted if more detailed information is needed. Always remember that you are responsible for your own safety and that of others when working with you on a vehicle. Take particular care with safety-related systems like the brakes and steering and seek professional advice if in any doubt. Never work under a vehicle unless it is properly supported (a single jack is not enough). Take care with power tools, also regard as potentially harmful fuel, lubricants, solvents and sealers which should always be stored in labelled, sealed containers. Always obtain your spare parts from an officially appointed Mercedes-Benz dealer. With care and common sense, the practical owner can make an excellent job of maintenance and overhaul. The benefits include money saved and the satisfaction of work well done. You will be adding to your knowledge too, knowing more about the vehicle you own will

help you to make logical decisions about what needs to be done, even if it does in some instances have to go into a professional repair shop. The Mercedes-Benz Vito and V-Class vehicles are built with care and precision. With regular care and maintenance they will provide long, reliable and faithful service.
