Evaluation of the Department of Veterans Affairs Mental Health Services National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee to Evaluate the Department of Veterans Affairs Mental Health Services, 2018-03-29 Approximately 4 million U S service members took part in the wars in Afghanistan and Iraq Shortly after troops started returning from their deployments some active duty service members and veterans began experiencing mental health problems Given the stressors associated with war it is not surprising that some service members developed such mental health conditions as posttraumatic stress disorder depression and substance use disorder Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health related outcomes in particular suicide at a higher rate than the general population This report provides a comprehensive assessment of the quality capacity and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom Operation Iraqi Freedom Operation New Dawn It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs but also barriers faced by patients in utilizing those services **The Nurse Professional** Deborah Dolan Hunt, 2014-10-24 Print CourseSmart **Clinical Case Studies for the Family Nurse Practitioner** Leslie Neal-Boylan, 2011-11-28 Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing diagnosing and managing cases in family and primary care Composed of more than 70 cases ranging from common to unique the book compiles years of experience from experts in the field It is organized chronologically presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format This includes differential diagnosis and a series of critical thinking questions ideal for self assessment or classroom use *The Future of Nursing* Institute of Medicine, Committee on the Robert Wood Johnson Foundation Initiative on the Future of Nursing, at the Institute of Medicine, 2011-02-08 The Future of Nursing explores how nurses roles responsibilities and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America s increasingly complex health system At more than 3 million in number nurses make up the single largest segment of the health care work force They also spend the greatest amount of time in delivering patient care as a profession Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act ACA enacted this year Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States To ensure its members are well prepared the profession should institute residency

training for nurses increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020 and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles including limits on nurses' scope of practice should be removed so that the health system can reap the full benefit of nurses' training skills and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

Nurse Educator Core Competencies World Health Organization, 2017-06. The World Health Organization has developed these Nurse Educator Core Competencies to enable educators to effectively contribute to the attainment of high-quality education and the production of effective, efficient, and skilled nurses who are able to respond to the health needs of the populations they serve. This will enable the attainment of objectives one and two of the Global Strategy on Human Resources for Health: Workforce 2030 and is also a priority in the updated Global Strategic Directions on Nursing and Midwifery 2016-2020. The aim of this publication is to provide a clear outline of Nurse Educator Core Competencies and performance expectations which can form the basis for developing a competence-based curriculum encompassing the cognitive, affective, and psychomotor skills and behaviors expected of nurse teachers. The competencies are intended to help guide the educational preparation of nurse teachers, ensure educational quality and accountability, and ultimately contribute to improving the provision of nursing care and outcomes of health services. Much effort has gone into the preparation of the Nurse Educator Core Competencies. It is the aim of the World Health Organization that they will facilitate nurse educators to attain increased proficiency in assisting student nurses to acquire all the knowledge, skills, and attitudes necessary to practice nursing effectively in the 21st century.

Fundamentals of Nursing (Book Only). Sue Carter DeLaune, Patricia Kelly Ladner, 2010-02-18. Health Professions Education. Institute of Medicine, Board on Health Care Services, Committee on the Health Professions Education Summit, 2003-07-01. The Institute of Medicine study *Crossing the Quality Chasm* (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. *Health Professions Education: A Bridge to Quality* is the follow-up to that summit held in June 2002 where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those

related to oversight processes the training environment research public reporting and leadership Educators administrators and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system

Communities in Action National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Community-Based Solutions to Promote Health Equity in the United States, 2017-04-27 In the United States some populations suffer from far greater disparities in health than others Those disparities are caused not only by fundamental differences in health status across segments of the population but also because of inequities in factors that impact health status so called determinants of health Only part of an individual's health status depends on his or her behavior and choice community wide problems like poverty unemployment poor education inadequate housing poor public transportation interpersonal violence and decaying neighborhoods also contribute to health inequities as well as the historic and ongoing interplay of structures policies and norms that shape lives When these factors are not optimal in a community it does not mean they are intractable such inequities can be mitigated by social policies that can shape health in powerful ways Communities in Action Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States This report focuses on what communities can do to promote health equity what actions are needed by the many and varied stakeholders that are part of communities or support them as well as the root causes and structural barriers that need to be overcome
