

Two-Way Radio User's Guide

KEM-PK14190-90

MR350/351

For More Information

For further information, you may call Motorola at 1-800-638-5119 (U.S. and Canada), or e-mail us at giants@tdc.adcenter.com or visit us on the Internet at www.motorola.com.

Safety and General Information

Important Information on Safe and Efficient Operation Read This Information Before Using Your Radio.

The information provided in this document supersedes the general safety information in user guides published prior to December 1, 2002.

Transmit and Receive Procedure

Your two-way radio contains a transmitter and a receiver. To control your exposure and ensure compliance with the general population/uncontrolled environment exposure limits, always adhere to the following procedure:

- Transmit no more than 50% of the time.
- To receive calls, release the PTT button.
- To transmit (talk), press the Push to Talk (PTT) button.

Transmitting 50% of the time, or less, is important because the radio generates measurable RF energy exposure only when transmitting (in terms of measuring standards compliance).

Exposure to Radio Frequency Energy

Your Motorola two-way radio complies with the following RF energy exposure standards and guidelines:

- United States Federal Communications Commission, Code of Federal Regulations: 47CFR part 2 sub-part J.
- American National Standards Institute (ANSI)/Institute of Electrical and Electronic Engineers (IEEE) C95. 1-1992.
- Institute of Electrical and Electronics Engineers (IEEE) C95. 1-1999 Edition.
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998.
- Ministry of Health (Canada) Safety Code 6: Limits of Human Exposure to Radiofrequency Electromagnetic Fields in the Frequency Range from 3 KHz to 300 GHz, 1999.
- Australian Communications Authority Radiocommunications (Electromagnetic Radiation—Human Exposure) Standard, 2000.
- ANATEL ANNEX to Resolution No. 303 of July 2, 2002 "Regulation of limitation of exposure to electrical, magnetic and electromagnetic fields in the radio-frequency range between 3 KHz and 300GHz".

to above-stated FCC performance and must ensure full-time exposure to radio frequency electromagnetic energy is within the guidelines set forth in the above standards, always adhere to the following procedures.

Portable Radio Operation and EME Exposure

Antenna Care

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the radio and may violate FCC regulations.

Do NOT hold the antenna when the radio is "IN USE." Holding the antenna affects its effective range.

Body-Worn Operation

To maintain compliance with FCC/Health Canada RF exposure guidelines if you wear a radio on your body when transmitting always place the radio in a Motorola-supplied or approved clip holder, holster, case or body harness for this product. Use of non-Motorola-approved accessories may exceed FCC/Health Canada RF exposure guidelines.

If you do not use one of the Motorola-supplied or approved body-worn accessories and are not using the radio held in the normal use position, **ensure the radio and its antenna are at least 1 inch (2.5 cm) from your body when transmitting.**

Data Operation

If applicable, when using any data features of the radio with or without an accessory cable, **position the radio and its antenna at least one inch (2.5 cm) from the body.**

Approved Accessories

For a list of approved Motorola accessories, visit our Web site at www.motorola.com.

Electromagnetic Interference/Compatibility

Note: Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed or otherwise configured for electromagnetic compatibility. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference; and
2. This device must accept any interference received, including interference that may cause undesired operation.

IC Canada

The term "IC" before the equipment certification number only signifies that the Industry Canada technical specifications were met.

Facilities

To avoid electromagnetic interference and/or compatibility conflicts, turn off your radio in any facility where posted notices instruct you to do so. Hospitals or health care facilities may be using equipment that is sensitive to external RF energy.

Aircraft

When instructed to do so, turn off your radio when onboard an aircraft. Any use of a radio must be in accordance with applicable regulations per airline crew instructions.

Medical Devices – Pacemakers

The Advanced Medical Technology Association recommends that a minimum separation of 8 inches (20 cm) be maintained between a handheld wireless radio and a pacemaker. These recommendations are consistent with the independent research by and recommendations of the U.S. Food and Drug Administration.

People with pacemakers should:

- ALWAYS keep the radio more than 8 inches (20 cm) from their pacemaker when the radio is turned ON.
- Not carry the radio in the breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- Turn the radio OFF immediately if there is any reason to suspect that interference is taking place.

Medical Devices – Hearing Aids

Some digital wireless radios may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

Medical Devices – Other

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.

Safety and General Use While Driving

Check the laws and regulations regarding the use of radios in the area where you drive, and always obey them. If you do use your radio while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

The use of a two-way radio while engaged in activities requiring concentration may cause distraction or otherwise impair your ability to safely participate in such activities. Always use technology safely.

Do not place a portable radio in the area over an air bag or in the air bag deployment area. Air bags inflate with great force. If a portable radio is placed in the air bag deployment area and the air bag inflates, the radio may be propelled with great force and cause serious injury to occupants of the vehicle.

Potentially Explosive Atmospheres

Turn off your radio prior to entering any area with a potentially explosive atmosphere. Only radio types that are especially qualified should be used in such areas as "Intrinsically Safe." Do not remove, install or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

Note: The areas with potentially explosive atmospheres referred to above include fueling areas such as below-decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles (such as grain, dust or metal powder) and any other area where you would normally be advised to turn off your vehicle engine. Areas with potentially explosive atmospheres are often—but not always—posted.

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn off your radio when you are near electrical blasting caps, in a blasting area, or in areas posted "Turn off two-way radios." Obey all signs and instructions.

Operational Cautions

Antennas

Do not use any portable radio that has a damaged antenna. If a damaged antenna comes into contact with your skin, a minor burn can result.

Batteries

All batteries can cause property damage and/or bodily injury such as burns if a conductive material—like jewelry, keys or beaded chains—touch exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse or other container with metal objects.

Exercise care when removing NiMH or AA batteries. Do not use sharp or conductive tools to remove either of these batteries.

Battery Charger Safety Instructions:

Save these instructions:

1. Do not expose the charger to rain or snow.
2. Do not operate or disassemble the charger if it has received a sharp blow, or has been dropped or damaged in any way.
3. Never alter the AC cord or plug provided with the unit. If the plug will not fit the outlet, have the proper outlet installed by a qualified electrician. An improper condition can result in a risk of electric shock.
4. To reduce the risk of damage to the cord or plug, pull the plug rather than the cord when disconnecting the charger from the AC receptacle.
5. To reduce the risk of electric shock, unplug the charger from the outlet before attempting any maintenance or cleaning.
6. Use of an attachment not recommended or sold by Motorola may result in a risk of fire, electric shock or personal injury.
7. Make sure the cord is located so it will not be stepped on, tripped over or subjected to damage or stress.
8. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in a risk of a fire and/or electric shock. If an extension cord must be used, make sure that:
 - The pins on the plug of the extension cord are the same number, size and shape as those on the plug of the charger.

Motorola Mr350r User Manual

Frank Sinatra

Motorola Mr350r User Manual

Wild Snow Louis W. Dawson,1997 Presents historical background on ski mountaineering which is climbing a mountain on skis and then skiing down the slopes and offers tips on climbing and skiing specific mountains

Understanding Circumcision George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos,2013-06-29 Every year in the United States and the third world combined 13 3 million boys and 2 million girls are circumcised Whether because of perceived medical cultural or religious necessity most of these parents feel they have no alternative but to allow their children to undergo this surgery Sparking intense debate the circumcision of children is a highly controversial and complex phenomenon that touches a variety of sociological areas such as religious beliefs identity issues medical conceptualizations fear and superstition The contributors to this volume comprise an international panel of experts in the fields of medicine psychology law ethics sociology anthropology history theology and politics In 18 chapters they discuss the history of circumcision document the physical and psychological consequences of circumcision present the latest anatomical discoveries about the male prepuce analyze the role of circumcision in various traditions reveal the medical industry s investment in the practice describe current legislative efforts to protect children from circumcision and outline effective culturally sensitive methods that are being implemented today to safeguard the human rights of at risk children For its insights into this troubling aspect of culture **Understanding Circumcision A Multi Disciplinary Approach to a Multi Dimensional Problem** is a critically important contribution to the growing body of literature on this subject

The Darkroom Cookbook Steve Anchell,2012-09-10 The art of darkroom developing and printing will never go out of style Master darkroom specialist Steve Anchell is back to prove it in this long awaited third edition of his enormously successful **Darkroom Cookbook** Packed with over 200 recipes some common and others rare gems you ll discover something new every time you open this guide whether you re new to the darkroom or have been making your own prints for years In addition to the formulas you ll find tons of useful information on developers push processing where to get darkroom equipment how to set up your own darkroom how to work and play in your darkroom safely and much more This handy guide will become a constant companion for every darkroom enthusiast creating prints at home or in the studio In addition to complete updates throughout to reflect changes in the availability of chemicals and equipment this third edition contains all new information on Reversal processing Enlarged negatives Pyro formulas Plus expanded sections on printing pyro and toning prints Also included for the first time are special technique contributions as well as stunning black and white imagery by Bruce Barnbaum Rod Dresser Jay Dusard Patrick Gainer Richard Garrod Henry Gilpin Gordon Hutchings Sandy King Les McLean Sa d Nuseibeh France Scully Osterman Mark Osterman Tim Rudman Ryuijie John Sexton and John Wimberly Be sure to visit [www darkroomcookbook com](http://www.darkroomcookbook.com) to find useful links an interactive user forum and more Steve Anchell is a photographer and author of **The Variable Contrast Printing Manual** and co author of **The**

Film Developing Cookbook He has been teaching darkroom and photography workshops since 1979 Steve is a member of the Freestyle Advisory Board of Photographic Professionals With its unrivalled collection of photographic formulae and easy to understand explanations of photographic processes The Darkroom Cookbook has long been a favorite with darkroom workers everywhere Now with further additions to its formulary more topics and contributions by renowned darkroom experts this new edition promises to be an indispensable Aladdin's Cave resource to darkroom enthusiasts of all levels Tim Rudman photographer and author The Darkroom Cookbook is an essential compendium of photographic information for anyone interested in high quality darkroom work John Sexton photographer

Prepare Your Family for Survival Linda Loosli, 2015-12-08 A Practical Plan to Prepare Your Family for Real Emergencies Prepare Your Family for Survival is a unique beginner resource and advanced storage guide to get your family totally prepared for the unexpected Linda Loosli of FoodStorageMoms.com is a prepping expert who's spent decades researching emergency preparedness food storage and first aid for families with kids She's compiled her hard earned knowledge into easy to follow storage plans that cover everything from water and food to alternative cooking devices emergency toilets 72 hour kits for every member of the family even babies and pets first aid kits and more You'll learn exactly what you need to store for a family of two three four or five whether you're preparing to survive for three days seven days or a month The book is packed to the brim with information but Linda presents it in an easygoing and practical manner Beginners find step by step plans for getting started frugally while veteran preppers gain tips and advice for advanced preparedness and the top products on the market Prepare Your Family for Survival is a book like no other with preparedness guides and storage methods that are tried and true used by Linda and her family throughout the years It's an unfortunate fact that emergencies power outages and natural disasters happen around the world every year but with Prepare Your Family for Survival you'll be ready when it happens to you
