**Slavery and the American West** Michael A. Morrison,2000-11-15 Tracing the sectionalization of American politics in the 1840s and 1850s Michael Morrison offers a comprehensive study of how slavery and territorial expansion intersected as causes of the Civil War Specifically he argues that the common heritage of the American Revolution bound Americans together until disputes over the extension of slavery into the territories led northerners and southerners to increasingly divergent understandings of the Revolution s legacy Manifest Destiny promised the literal enlargement of freedom through the extension of American institutions all the way to the Pacific At each step from John Tyler s attempt to annex Texas in 1844 to the Kansas Nebraska Act to the opening shots of the Civil War the issue of slavery had to be confronted Morrison shows that the Revolution was the common prism through which northerners and southerners viewed these events and that the factor that ultimately made consensus impossible was slavery itself By 1861 no nationally accepted solution to the dilemma of slavery in the territories had emerged no political party existed as a national entity and politicians from both North and South had come to believe that those on the other side had subverted the American political tradition

**The Significance of the Frontier in American History** Frederick Jackson Turner,2014-02-13 2014 Reprint of 1894 Edition Full facsimile of the original edition The Frontier Thesis or Turner Thesis is the argument advanced by historian Frederick Jackson Turner in 1894 that American democracy was formed by the American Frontier He stressed the process the moving frontier line and the impact it had on pioneers going through the process He also stressed consequences of a ostensibly limitless frontier and that American democracy and egalitarianism were the principle results In Turner s thesis the American frontier established liberty by releasing Americans from European mindsets and eroding old dysfunctional customs The frontier had no need for standing armies established churches aristocrats or nobles nor for landed gentry who controlled most of the land and charged heavy rents Frontier land was free for the taking Turner first announced his thesis in a paper

entitled The Significance of the Frontier in American History delivered to the American Historical Association in 1893 in Chicago He won very wide acclaim among historians and intellectuals Turner s emphasis on the importance of the frontier in shaping American character influenced the interpretation found in thousands of scholarly histories By the time Turner died in 1932 60% of the leading history departments in the U S were teaching courses in frontier history along Turnerian lines
