An author subject index to selected general interest periodicals of reference value in libraries. This comprehensive approach to gender training in development encompasses work on gender awareness-raising and gender analysis at the individual, community and global level. An important reference source for development agency trainers and academics. The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. Outlines the strength fitness program designed by the team strength coach for the Oakland A's, that meets the specific needs of baseball players This textbook is a readily accessible educational tool for all fellows undertaking subspecialty training in interventional cardiology, while also serving as a refresher to early career interventional cardiologists. The key objective is to equip the reader with an evidence-based expert-led resource focussed primarily on pre-procedural planning, peri-procedural decision-making, and the salient technical aspects of performing safe and effective coronary intervention, the intention being to support the therapeutic decision-making process in the emergency room, coronary care unit or cath lab in order to optimize patient outcome. The Interventional Cardiology Training Manual provides readers with a step-by-step guide to the basic principles underpinning coronary intervention and facilitates rapid access to best practice from the experts, presented in a pragmatic, digestible and concise format. Uniquely, each chapter has been written in a heart center-specific manner, affording the reader an opportunity to learn how individual institutions perform a specific procedure, which algorithms and guidelines they follow and what evidence they draw on to instigate the best possible care for their patients. Designed to help trainers navigate teachers through a complete cycle of 10 training sessions, this dynamic guide is a must for professional staff developers! Preceded by: Skills training manual for treating borderline personality disorder / Marsha M. Linehan. c1993. This change is necessary to continue improvement on the ASR mission. The Active Shooter Response Training Manual provides police personnel with the skills necessary to respond successfully to any active shooter situation. Using established doctrine developed by the U.S. Army, this program is designed to help create, plan, and execute ASR training at the departmental level. The methods and protocols presented are applicable across all federal, state, and local law enforcement agencies. The book begins by describing the ASR operation in the format of an operations order. It categorizes threat levels, provides guidelines for action, describes the mission statement and execution of it, and addresses assets and equipment as well as issues related to command and signal. Next, the book explores: Training principles and their utilization for developing a sound ASR training cycle Movement formations for teams and squads, and the four phases of maneuver: find, fix, finish, and follow-through Close Quarter Battle (CQB), and the principles of surprise, speed, and violence of action Skills that are necessary to become proficient in creating a list of mission tasks critical to the success of the unit Command and control issues and techniques for alleviating them Performance evaluations for each phase of the ASR mission Guidelines on selecting special equipment for the ASR mission A supplemental training video and PowerPoint® presentation enhance the text, providing a multitiered learning experience for police agencies of any size and enabling them to adopt the principles and techniques to their own needs. An article on modern policing by Scott Hyderkhan appeared in Law Officer on April 8, 2013. Includes entries for maps and atlases. Successful athletes combine great skill with explosive power.
