There is a need for guidelines to aid ride-sharing agencies in Virginia in selecting the most appropriate matching technique. The objective of this research was to develop such guidelines, information on the state of the art of ride-share matching techniques was obtained through a literature review and telephone requests of ride-sharing agencies and selected state departments of transportation. Interviews were conducted with personnel of the eleven ride-sharing agencies operating in Virginia to obtain information for an analysis of their ride-share matching techniques. Factors that identify the threshold point at which a computerized matching technique should be considered in lieu of a manual technique were defined. Guidelines that provide a procedure for selecting a matching technique by comparing the ride-sharing agency's matching needs with the capabilities of a selected group of matching techniques were developed. This text deals with the basics of wildland and forest firefighting. It has been totally revised and is now in full color.

Troubleshooting Centrifugal Pumps and Their Systems, Second Edition, begins by discussing pump characteristics that can be reconfigured to suit changing conditions. Next, it provides guidance on when to withdraw a pump from service for repair and how it should be subsequently treated. It is an ideal resource for those who feel ill-equipped to analyze unsatisfactory pump system behavior, and is also a great reference for pump engineers, pump hydraulic designers, and graduate students who need systemic knowledge on centrifugal pumps and their systems. Presents the basic mechanisms of abrasive wear in centrifugal pumps, including different wear patterns and their causes Discusses performance improvements to help readers meet the new requirements of a pumping system Describes repair and life improvement techniques Includes real-world examples of troubleshooting in centrifugal pumps and systems The romantic dream of downsizing, giving up the rat race, and living life at 4mph on the inland waterways is proving more and more attractive. But for tens of thousands of people it is not just a romantic dream but an actual lifestyle. Tony Jones is one of those people. He has lived aboard

his 50ft narrowboat for over 14 years and in this very practical book he documents what the liveaboard lifestyle is really like, focusing on the practical issues of day to day living for those who want to know what living on a boat actually entails, to see how to manage it for themselves. Topics covered include: · the pros, cons and costs of a residential mooring · power usage and energy consumption (and how it differs from a house) · how to stay warm - the choice of coal, electric, gas or wood heating · boat loos - the pros and cons, and troubleshooting typical problems · entertainment - TV, radio, internet, DVDs · logistical problems - no postal address, GP access, vehicle access or use

This second edition has been comprehensively revised to include updated or new information on costs (moorings, license, insurances etc), license fees for different types of craft, composting toilets and ecological living in general, living aboard in London and other cities (suddenly very popular), postal services, boat stretching, butty boats, and so on, as well as more anecdotes and profile stories about liveaboard life. The aim of this book is to feed people's dreams by showing that every possible problem that could arise when living on a boat has a tried and tested solution. The dream is perfectly possible, and this book is the complete practical guide to achieving it. From the bestselling author of Charlie and the Chocolate Factory and The BFG!
