The Art and Science of Personal Magnetism Feb 07 2022 The New Thought movement of the turn of the twentieth century combined Christian spirituality with paranormal power in an effort to give practical expression to the forces of the universe. Or so its proponents believed. One of the most influential thinkers of this early New Age philosophy promises here, in this 1913 book, to show the reader how to develop your personality and how to develop a dominating influence through such exercises as: Projecting Nerve Force Mental Radiation The Positive Aura The Magnetic Duel Magnetic Self-Defence The Power of

Controlling Others The roots of today's groundswell for self-help, personal empowerment, and pop spirituality can be explored in this one small, highly entertaining book. Also available from Cosimo Classics: *The Advanced Course in Personal Magnetism*, by Theron Q. Dumont. THERON Q. DUMONT is an alias and pen name of American writer WILLIAM WALKER ATKINSON (1862-1932), editor of the popular magazine *New Thought* from 1901 to 1905, and editor of the journal *Advanced Thought* from 1916 to 1919. He authored dozens of *New Thought* books under numerous pseudonyms, including *Yogi*, some of which are likely still unknown today.

Sales Management. Simplified. Dec 08 2021 Packed with examples and anecdotes, Sales

Management. Simplified. offers a proven formula for prospecting, developing, and closing deals—in your time, on your terms. Why do sales organizations fall short? Every day, expert consultants like Mike Weinberg are called on by companies to find the answer - and it's one that may surprise you. Typically, the issue lies not with the sales team but with how it is being led. Through their attitude and actions, senior executives and sales managers unknowingly undermine performance. Weinberg tells it straight by calling out the problems plaguing sales forces and the costly mistakes made by even the best-intentioned sales managers. The good news is that with the right guidance, results can be transformed. In *Sales Management. Simplified.*, Weinberg teaches managers how to: Implement a simple framework for sales leadership Foster a healthy, high-performance sales culture Conduct productive meetings Put the right people in the right roles Retain top producers and remediate underperformers Point salespeople at the proper targets Blending blunt, practical advice with funny stories from the field, *Sales Management. Simplified.* delivers the tools every sales manager needs to succeed. Managing sales doesn't have to be complicated, and the solution starts with you!

The Alexander Technique Manual May 13 2022 A simple yet profound way of releasing tension throughout the body, the Alexander Technique teaches new ways of sitting, standing

and moving to enable more graceful movements and minimise stress and strain on the muscular system. The Alexander Technique Manual, which is now available in paperback for the first time, features specially commissioned photographs which demonstrate the exercises and includes special sections on sport, pregnancy and the workplace as well as the history behind the technique. Accessible to all, many famous people from John Cleese, George Bernard Shaw, Aldous Huxley and the Queen Mother have spoken highly of the benefits that can be derived from practising it.

Champagne Supernovas Sep 28 2023 A glittering history of fashion in the 1990s, told through the lives of Kate Moss, Marc Jacobs and Alexander McQueen. The 1950s had rock 'n' roll and the 60s had the Beats. In the 70s and 80s, it was punk rock and modern art. But for the 1990s, it was all about fashion and Kate Moss, Marc Jacobs, and Alexander McQueen were the trio of rebel geniuses who made it great. Each had an amazing talent and each had demons that would jeopardize that same talent. Collectively, they represented a "moment" in fashion and pop culture that upended everything that had come before it. In the tradition of pop-cultural histories like *Girls Like Us* and *Easy Riders, Raging Bulls*, Maureen Callahan explores a particular, pivotal time - the moment when the 1980s gave way to the 1990s, the alternative became the mainstream, and Gen X took over the reins of power in the fashion industry - through the lives of three people who would become both fashion icons and cautionary tales of the era. Callahan interviews insiders and reveals

exclusive insights into the biggest dramas surrounding the most celebrated personalities of the decade: why Kate Moss and Johnny Depp broke up, how Marc Jacobs came through the crucible of the AIDS crisis, and what really drove Alexander McQueen to suicide.

Champagne Supernovas is the story of that singular time, as exemplified the lives of the three luminaries who forever changed the way we think about fashion and culture.

The Matcha Cookbook Jul 15 2022 From a simple matcha latte, to ice cream, infused salt, smoothie bowls, tea loaves and homemade beauty recipes, The Matcha Cookbook explores the history, health benefits and 50 delicious recipes using this super healthy ingredient. Baby For Her Teacher (Age Gap Pregnancy Romance) Dec 20 2022 Abandoned on a country road en route to a graduation party, the last person Harper wanted to see, besides

her ex-boyfriend, was her former science teacher. Sloan Allen spent the last two years making her miserable, but accepting a ride with the man she's hated and wanted with equal measure is a slightly better alternative than walking three miles in stilettos. Time spent in the older man's company proves illuminating, as she realizes their attraction is very mutual. But do they both share the same desire for making a baby together? This is a QuikRead and the perfect length to finish during the morning commute or while waiting for an appointment. No cliffhangers! Bonus material includes an excerpt of "Snowbound," also by Kristianna Sawyer. Tags: romantic erotica, student teacher romance, erotic romance, new adult, older man, contemporary women's fiction, short stories

Never Built New York Feb 19 2023 Following on the success of *Never Built Los Angeles* (Metropolis Books, 2013), authors Greg Goldin and Sam Lubell now turn their eye to New York City. New York towers among world capitals, but the city we know might have reached even more stellar heights, or burrowed into more destructive depths, had the ideas pictured in the minds of its greatest dreamers progressed beyond the drawing board and taken form in stone, steel, and glass. What is wonderfully elegant and grand might easily have been ingloriously grandiose; what is blandly unremarkable, equally, might have become delightfully provocative or humanely inspiring. The ambitious schemes gathered here tell the story of a different skyline and a different sidewalk alike. Nearly 200 ambitious proposals spanning 200 years encompass bridges, skyscrapers, master plans, parks, transit schemes, amusements, airports, plans to fill in rivers and extend Manhattan, and much, much more. Included are alternate visions for such landmarks as Central Park, Columbus Circle, Lincoln Center, MoMA, the U.N., Grand Central Station and the World Trade Centre site, among many others sites. Fact-filled and entertaining texts, as well as sketches, renderings, prints, and models drawn from archives all across the New York metropolitan region tell stories of a new New York, one that surely would have changed the way we

inhabit and move through the city.

Wake Up, Woods Jun 13 2022 Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. **Wake Up, Woods** showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of **Wake Up, Woods** will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Mouse Models of Human Blood Cancers Aug 28 2023 In this book, Dr. Li and his author

team plan to emphasize why mouse models are useful in vivo systems for understanding disease mechanisms and developing therapeutic strategies in blood cancers. The authors do not intend to cover all types of blood cancers; instead, they will focus on some major ones such as leukemias and lymphomas. However, the authors will try to cover as much as they can the cancer types and point out that many blood cancers need to be studied in mouse disease models although they are still not available at present. A major focus in the book will be to show what we can or cannot learn from mouse disease models and to also show the critical contributions of mouse models in therapeutic drug development.
