**The Lampshade** Mar 20 2022 Few growing up in the aftermath of World War II will ever forget the horrifying reports that Nazi concentration camp doctors had removed the skin of prisoners to make common, everyday lampshades. In *The Lampshade*, bestselling journalist Mark Jacobson tells the story of how he came into possession of one of these awful objects, and of his search to establish the origin, and larger meaning, of what can only be described as an icon of terror. Jacobson's mind-bending historical, moral, and philosophical journey into the recent past and his own soul begins in Hurricane Katrina-ravaged New Orleans. It is only months after the storm, with America's most romantic city still in tatters, when Skip Henderson, an old friend of Jacobson's, purchases an item at a rummage sale: a very strange looking and oddly textured lampshade. When he asks what it's made of, the

seller, a man covered with jailhouse tattoos, replies, "That's made from the skin of Jews." The price: \$35. A few days later, Henderson sends the lampshade to Jacobson, saying, "You're the journalist, you find out what it is." The lampshade couldn't possibly be real, could it? But it is. DNA analysis proves it. This revelation sends Jacobson halfway around the world, to Yad Vashem in Jerusalem and to the Buchenwald concentration camp in Germany, where the lampshades were supposedly made on the order of the infamous "Bitch of Buchenwald," Ilse Koch. From the time he grew up in Queens, New York, in the 1950s, Jacobson has heard stories about the human skin lampshade and knew it to be the ultimate symbol of Nazi cruelty. Now he has one of these things in his house with a DNA report to prove it, and almost everything he finds out about it is contradictory, mysterious, shot through with legend and specious information. Through interviews with forensic experts, famous Holocaust scholars (and deniers), Buchenwald survivors and liberators, and New Orleans thieves and cops, Jacobson gradually comes to see the lampshade as a ghostly illuminator of his own existential status as a Jew, and to understand exactly what that means in the context of human responsibility. One question looms as his search goes on: what to do with the lampshade—this unsettling thing that used to be someone? It is a difficult dilemma to be sure, but far from the last one, since once a lampshade of human skin enters your life, it is

very, very hard to forget.

**Learn American Calligraphy** May 14 2024 Take a visual trip around the United States, with stop-offs in many locations and insights on every page, and illuminate the past and future of American calligraphy. For centuries, American calligraphers have accepted the legacy of the classic Roman, Gothic, and Italic calligraphy they inherited from Europe without realizing that there are more alphabet treasures to be found in a larger pool of uniquely American alphabet designs. Wild West, New Deal, Prairie—all were made in America, and they express ideas that reveal national character. These styles come from here and nowhere else. Much like American music, language, fashion, and philosophy, calligraphy has matured, moved on from its origins, and become, in the words of the man who created Spencerian handwriting, "even more American." **Learn American Calligraphy** is the latest book from Margaret Shepherd, author of one of the all-time bestselling books on calligraphy, **Learn Calligraphy**. This new book focuses on American calligraphy, which has its own identity, distinct from the alphabets inherited from Europe. As a lifelong calligrapher, Shepherd surveys the landscape of unique styles and describes how two dozen alphabets originated and what shaped them.

Simple diagrams and exercises help you try out the styles for yourself. Some letters represent a region or a major era of art; some bear witness to social upheaval or culture change; many are accessible to beginners; and a few contradict the established view of American history. *The Encyclopaedia Britannica* Nov 15 2021 *An Introduction to Programming with Java Applets* Mar 12 2024 An Introduction to Programming with Java Applets provides a clear introduction to the art of programming for the one-term course. The text focuses on the essentials and places more detailed information in Advanced Concept sections for those who would like to delve deeper into particular concepts. With numerous practice exercises and an accompanying student-learning Web site, *Introduction to Programming with Java Applets* is the clear choice for your introductory course!

Cutting Class Jun 15 2024 Cutting Class begins with P.B. initials short for PonyBoy, named after the famous book that his mother was once obsessed with. P.B. is very angry, and partly blames this on his father having been in prison for P.B.'s entire life. His mother refuses to talk about why his father is in prison for murder, an act that his father committed when he was 18, the age that P.B. will soon be, so P.B. finds his mother's journals from when she was 15 and begins to read them in hopes that it will help him understand how he ended up a fatherless kid. The journals portray the tragic love story of his unpopular parents in the public school system, where his mother is a loner who talks to no one, and his father is a cute book worm who all the girls fawn over, but who has an angry side that is soon pushed to its limits by the high school football team. P.B. is nothing like his father, he is in fact a star member of his school's football team and quite popular, at least

until he starts pursuing Pixie, the school token "weird girl". Maybe father and son are not that different.

**The Encyclopaedia Britannica** Aug 13 2021

*Channel Surfing the Bible* Apr 01 2023 Two thousand years ago, a simple man walked this planet with a simple message. They called him Jesus. His was a message of radical inclusion in a world he called the Kingdom of God. He spoke in parables grounded in common, everyday experiences, parables about yeast and leavened bread, weeds and mustard seeds, fishing nets and pearls. In the Kingdom of God, everyone was equal and differences made no difference. But the world couldn't handle such an outrageous message. Whoever heard of a world where differences make no difference? Of course, they make a difference. So they dangled him from a cross for all the world to take note. After his death, they honored him with a title, the Christ, and began a whole new religion in his name. But for two thousand years far too many have been dishonoring him by misrepresenting his message. His message of radical inclusion has been twisted and contorted into a message that far too many of his followers use to sanction that which he came to overcome. Instead of eliminating distinctions between insiders and outsiders, pure and impure, clean and unclean, his message has been used to perpetuate sexism, racism, age-ism, homophobia, imperialism, and all the other -isms that stand in the way of radical inclusion. All this has happened so

gradually, literally over centuries if not millennia through crusty old doctrines, dogma, and creeds that very few have even noticed. Christianity has become fat and happy, just like the frog in the Parable of the Boiling Frog. You stick a frog in a vat of boiling water, and it will struggle with all its might to escape an otherwise certain death. But if you stick a frog in a vat of lukewarm water and ever so gradually keep warming it one degree at a time, the frog will grow comfortable in the increasing warmth of its environment until, before he realizes it, he has been boiled. Two thousand years later, it is time to set the record straight; time to return to Jesus simple message through the common, ordinary experiences of today. In the biblical witness, Moses wandered in the wilderness for forty years; Jesus, for forty days. So, too, shall we wander by channel surfing through forty chapters of scripture. From Adam and Eve to Ricky Nelson's Garden Party at Madison Square Garden; from the Book of Job to Eliphaz, Bildad, and Zophar to The Three Stooges; from Matthews and Lukes nativity scenes to Larry, Darryl, and Darryl of The Bob Newhart Show; from the temptation stories and Jesus wandering in the wilderness to American Bandstand, the Temptations, and Dion & the Belmonts The Wanderer; from Pilate and Herod cross-examining Jesus to Judge Wapner and Judge Judy; from atonement theology to Lets Make a Deal, it is time to paint our antiquated parables with a more contemporary brush; in so doing, it is time to turn Jesus simple message

into a profound reality. Onward, radical inclusion! On to the Kingdom of God. In the immortal words of Bart Simpson, Surfs up, dude.
