R&D Decisions Alice Belcher, John Hassard, Stephen Procter, 2002-09-11 R D Decisions Strategy Policy and Innovations explores how research and development decisions affect all of us They are linked inextricably to the performance of firms and of economics as a whole Their importance means that they are of concern to a large number of practitioners policy makers and researchers This book demonstrates the range of issues and perspectives which R D can encompass and at the same time brings out the elements which unite them The papers in this book are organized into three main sections Strategy and Organization explores the importance of R D and of the structures and strategies of individual organizations The emerging core competence paradigm is especially noted Policy and Performance looks at what new thinking on R D more generally implies for government policy and the performance of industries regions and economies Disclosure and the Market examines issues raised by changing regulations on the disclosure of R D expenditure Space Shuttle Technical Conference, Part 1, 1985

**Five Dimensions of Quality** Linda Suskie, 2014-10-13 Meet calls for increased quality and understand accreditation expectations Author Linda Suskie is internationally recognized for her work in higher education assessment and she is a former vice president of a major regional accreditor In Five Dimensions of Quality A Common Sense Guide to Accreditation and Accountability in Higher Education she provides a simple straightforward model for understanding and meeting the calls for increased quality in higher education ever present in today s culture Whether your institution is seeking accreditation or not the five dimensions she outlines will help you to identify ways to improve institutional quality and demonstrate that quality to constituents For those wading through the accreditation process which has become more difficult in recent years due to increasing regulation and pressure for greater accountability Suskie offers expert guidance on understanding the underlying principles of the expectations of accrediting bodies Using the model presented here which is much easier to understand than the sometimes complex resources provided by individual accrediting bodies American colleges and universities can understand what they need to do to earn and maintain their regional accreditation as well as improve overall institutional quality for their students You ll be able to Identify ways to improve institutional quality Demonstrate the quality of your institution to internal and external constituents Avoid wasting time and energy on misguided institutional processes to comply with accreditation requirements By focusing on why colleges and universities should take particular actions rather than only on what those actions should be Five Dimensions of Quality gives them the knowledge and strategies to prepare for a successful review It is an ideal resource for leaders accreditation committee members and everyone on campus

**Growth from Chaos** Michael Pettus, 2003-12-30 We live in a chaotic world Some of the chaos results from poor decision making e g Enron Arthur Andersen WorldCom Yet other aspects of chaos war terrorist attacks etc are beyond a firm s control This book demonstrates that firm growth is more dependent on how a firm develops its resource

base over time Examining actual firm growth in several industries with a focus on trucking the airline industry and the North American railroad industry Pettus shows that a specific resource sequencing leads to higher firm growth than other sequencing patterns This sequencing pattern is similar across transportation industries and the pattern may be applicable to other industries Decisions that firms make with respect to how resources are developed must balance the need for growth in the current time period with the need for growth over the long term Firms can build sustainable growth by developing resources in a specific sequence in essence firms have control over their growth even when confronted with ever changing environmental conditions
