A History of Early Modern Southeast Asia, 1400-1830 Barbara Watson Andaya, Leonard Y. Andaya, 2015-02-19 Written by two experienced teachers with a long history of research, this textbook provides students with a detailed overview of developments in early modern Southeast Asia when the region became tightly integrated into the world economy because of international demand for its unique forest and sea products. Proceeding chronologically, each chapter covers a specific time frame in which Southeast Asia is located in a global context. A discussion of general features that distinguish the period under discussion is followed by a detailed account of the various sub-regions. Students will be shown the ways in which local societies adapted to new religious and political ideas and responded to far-reaching economic changes. Particular attention is given to lesser-known societies that inhabited the seas, the forests, and the uplands, and to the role of the geographical environment in shaping the region's history. The authoritative yet accessible narrative features maps, illustrations, and timelines to support student learning. A major contribution to the field, this text is essential reading for students and specialists in Asian studies and early modern world history.

The "Global" and the "Local" in Early Modern and Modern East Asia Benjamin A. Elman, Chao-Hui Jenny Liu, 2017-01-09 *The Global and the Local in Early Modern and Modern East Asia* presents a unique set of historical perspectives by scholars from two important universities in the East Asian region: The University of Tokyo, Tsinghua University, and Fudan University, along with East Asian Studies scholars from Princeton University. Two of the essays address the international leanings in the histories of their respective departments at Tsinghua and Fudan. The rest of the essays showcase how such thinking about the global and local histories has borne fruit as the scholars of the three institutions contributed essays arguing about the philosophies, methodologies, and/or perspectives of global history and how it relates to local stories. Authors include Benjamin Elman, Haneda Masashi, and Ge Zhaoguang.

A History of East Asia Charles Holcombe, 2011 This book traces the story of East Asia from the dawn of history to the present.

East Asia Hugh Dyson Walker, 2012-11 Histories of East Asia traditionally emphasize China and Japan and neglect Korea and Vietnam Essentially 20th century East Asia is re written into the past as though China and Japan was always the core of East Asian development This is not at all how East Asia developed Chinese prehistoric cultures became historic in the 18th century B C Japan was not part of East Asia for over 2300 more years By studying periods of Chinese unity and disunity and their effects on China s neighbors Korea and Vietnam a distinct culture zone East Asia gradually emerged and slowly included Japan The main elements of East Asia cultural social political philosophical religious and linguistic were derived from China but the others were not minor replicas of China Each was unique its people ethnically distinct from China and each other its native language and linguistic blend with Chinese also unique Korea and Vietnam resisted Chinese colonization but adopted and adapted advance Chinese elements to their own needs Emerging later Japan underwent wholesale adoption of Tang China s advances replicated in the 19th century when Japan was the first East Asian country to modernize Spanning some thirty eight centuries from the 18th century B C to 2012 A D this diversity with common elements derived from China is a major theme of this work It is often overlooked by those who prefer general views based on surface impressions to more complex realities The former often lead to mistakes the latter become the basis for more sound understanding After all these four countries and people share the eastern end of the Eurasian continent yet each country s geographic situation is also unique As the twenty first century continues to unfold this new approach to East Asia should help to produce clearer and more accurate understanding of this important world region
