Developing countries in the East Asia Pacific region will see stable economic growth this year, bolstered by a recovery in high-income economies and the market's modest response so far to the Federal Reserve's tapering of its quantitative easing, according to the East Asia Pacific Economic Update. Developing East Asia will grow by 7.1 percent this year, largely unchanged from 2013, the report says. As a result, East Asia remains the fastest growing region in the world, despite a slowdown from the average growth rate of 8.0 percent from 2009 to 2013. In China, growth will ease slightly, to 7.6 percent this year from 7.7 percent in 2013. Excluding China, the developing countries in the region will grow by 5.0 percent, slightly down from 5.2 percent last year. This book constitutes the proceedings of the 23rd European Symposium on Programming, ESOP 2014, which took place in Grenoble, France, in April 2014, as part of the European Joint Conferences on Theory and Practice of Software, ETAPS 2014. The 27 papers presented in this volume were carefully reviewed and selected from 109 submissions. In addition, the book contains two invited talks. The contributions are organized in topical sections named: type systems; verified compilation; program verification; semantics; concurrency; linear types; network and process calculi; and program analysis. The Survey of Income and Program Participation (SIPP) is a national, longitudinal household survey conducted by the Census Bureau. SIPP serves as a tool to evaluate the effectiveness of government-sponsored social programs and to analyze the impacts of actual or proposed modifications to those programs. SIPP was designed to fill a need for data that would give policy makers and researchers a much

better grasp of how effectively government programs were reaching their target populations, how participation in different programs overlapped, and to what extent and under what circumstances people transitioned into and out of these programs. SIPP was also designed to answer questions about the short-term dynamics of employment, living arrangements, and economic well-being. The Census Bureau has reengineered SIPPâ€™fielding the initial redesigned survey in 2014. This report evaluates the new design compared with the old design. It compares key estimates across the two designs, evaluates the content of the redesigned SIPP and the impact of the new design on respondent burden, and considers content changes for future improvement of SIPP.

An Introductory text on Java using the freely downloadable JDK (Java Development Kit). The easiest technical book you'll ever read. Open it up and see for yourself. NASA's Science Mission Directorate (SMD) is engaged in the final stages of a comprehensive, agency-wide effort to develop a new strategic plan at a time when its budget is under considerable stress. SMD's Science Plan serves to provide more detail on its four traditional science disciplines - astronomy and astrophysics, solar and space physics (also called heliophysics), planetary science, and Earth remote sensing and related activities - than is possible in the agency-wide Strategic Plan. Review of the Draft 2014 Science Mission Directorate Science Plan comments on the responsiveness of SMD's Science Plan to the National Research Council's guidance on key science issues and opportunities in recent NRC decadal reports. This study focuses on attention to interdisciplinary aspects and overall scientific balance; identification and exposition of important opportunities for partnerships as well as education and public outreach; and integration of technology development with the science program. The report provides detailed findings and recommendations relating to the draft Science Plan. Completely updated by a Business and Management workshop leader to accurately match the new 2014 syllabus, this new edition includes a special focus on the new concept-based learning requirement. Every topic is comprehensively covered, plus full assessment support drives high achievement and TOK links ensure learning aligns to the IB philosophy. The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Including considerations of sustainability in universities' activities has long since become mainstream. However, there is still much to be done with regard to the full integration of sustainability thinking into science and engineering curricula. Among the problems that hinder progress in this field, the lack of sound information on how to actually implement it is prominent. Created in order to address this need, this book presents a wealth of information on innovative approaches, methods and tools that may be helpful in translating sustainability principles into practice. The 2013-2014 annual report highlights the establishment and first activities of the Gulf Research Program, an independent, science-based program founded in 2013. Through grants, fellowships, and other activities, the Gulf Research Program seeks to enhance oil system safety and the protection of human health and the environment in the Gulf of Mexico and other regions along the U.S. outer continental shelf with offshore oil and gas operations. This report reviews some of the Gulf Research Program's key accomplishments and demonstrates how what was learned throughout the planning process shaped the Program's foundation - from its strategic vision to the initial funding opportunities. The Gulf Research Program will build on this foundation while evolving to meet new challenges during its 30-year duration, 2013-2043. Each year, the Gulf Research Program will produce an annual report to summarize how funds were used. These reports will review accomplishments, highlight activities, and, over time, assess metrics to determine how the Gulf Research Program is progressing in accomplishing its goals. The 2013-2014 annual report is the first report in this series.
