A Comprehensive Introduction to Political Thought: Western and Non-Western Traditions familiarizes students with global political theories and perspectives. The book addresses Western and non-Western traditions of political thought, including a traditional emphasis on modern ideology such as liberal democracy. It also includes diverse traditions such as Confucianism in modern China, feminist political thought, and pan-African political thought. This book demonstrates how political theories have emerged from evolving conditions and historical circumstances that continue to influence modern politics. Dedicated chapters explore the ideological principles of conservatism, liberalism, liberal democracy, Marxism, and social democracy. Additional chapters examine the political thought of Buddhism, Hinduism, Taoism, ancient Roman republicanism, feudalism, Indigenous political thought, Machiavelli, modern republicanism, and the range of ideas that have defined the general science of politics. Students read about the origins of ideology, the political ideals of the Enlightenment, the emergence of democratic norms, and utilitarian methods, plus principles that have contributed to the introduction of socialism, populism, modernism, progressivism, postmodernism, and other critical ideas that influence politics today. Developed to provide students with a diverse, expansive overview, A Comprehensive Introduction to Political Thought is an exemplary resource for courses and programs in political science and the overall study of politics, public policy, and government. Studying Politics starts out with a gentle introduction to the subject of politics and political science - especially appealing to those who may not have formally encountered this discipline before - and then maintains an even presentation of the subject, avoiding confusing jargon and continuing to engage the reader throughout. Its conceptual/comparative approach works outward from Canada to other industrialized developed democracies, then to the developing world and finally to the global scene. With Studying Politics, events that once felt like moving targets will settle easily into their broader context, and provide readers with a better understanding of the dynamics that keep our political spectrum fluid and fascinating. This text continues to highlight topical and controversial issues in political science from across the ?four fields? - Political Thought, International Relations, Comparative Politics and Canadian Politics

? including cultural pluralism, women's issues, globalization, political development, terrorism, regime change, and an expanded discussion of Islamic political theory, sharia law, and the Islamic role in world affairs. **WHY POLITICS MATTERS: AN INTRODUCTION TO POLITICAL SCIENCE** is a full-color, accessible introduction to Political Science. Organized evenly around the major divisions within Political Science: Theory, American Government, Comparative Politics, and International Relations, **WHY POLITICS MATTERS** follows a foundational approach to learning and gives students a big picture of the field. The authors approach the subject through a theme of theory and practice and emphasize why politics matters to the reader through current, global examples, encouraging critical thinking, discussion, and participation throughout the text. **WHY POLITICS MATTERS** is the first and only Introduction to Political Science book offering a fully integrated and customizable online reader, **COURSEREADER**, with a full slate of recommended primary source readings compiled by the authors. Each **COURSEREADER** selection is called-out in the text alongside the relevant discussion and is accompanied by critical thinking questions to help students apply the reading to their chapter lesson. You can further customize **COURSEREADER** for your class by choosing from the thousands of documents and videos within our Introduction to Political Science set and even adding your own notes and highlights before publishing your unique online reader for students to access. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Christians are called to be informed about political science as they seek to be ambassadors for Christ in a diverse society. In this introductory textbook, Fred Van Geest presents a balanced Christian perspective on political science, providing a nonpartisan guide to the key concepts, institutions, and policies that shape politics today. Presents a collection of experiments exploring the properties of heat. This student textbook introduces the concept of political theory from various viewpoints, such as justice and the law, government and the state, and equality and human rights. It analyzes the concepts of power, liberty and a series of political principles. This major new textbook will equip students with a complete understanding of contemporary politics, state and society in the United Kingdom today. Key underlying themes include: - the differences between traditional and alternative `sites of power? and what we mean by `political? - the relationships between politics, society and how individuals become and remain engaged with politics - the rapid transformations in contemporary social structures and their impact on social and political life - the role of human agency and its significance to social and political action and movements - contemporary cultural and social dislocations and their impact on some of the major contested areas of political life today. Key features include: - key concepts and issues - key theorists and writers - discussion questions Comprehensive and accessible, *An Introduction to Politics, State & Society* is an essential text for all undergraduate students of politics, the contemporary state, power and political sociology. James W McAuley is Professor of Political Sociology and Irish Studies in the School of Human and Health Sciences at the University of Huddersfield In the third edition of this title, the author offers a broad critical preface to the relationship between politics, the media and democracy in the UK and other contemporary societies. *History of Political Theory: An Introduction* is an engaging introduction to the main figures in the history of Western Political Theory and their most important works. The second volume traces the origin and development of liberal political theory, and so the foundations for contemporary views. *Power and Choice, Thirteenth Edition* is a comparative, conceptual introduction to political science which involves students in the dramatic and interesting variety of politics around the world; students clearly are the audience of this text. The theme of "power and choice," based on a definition of politics as the making of collective choices for a group or state through the use of power, runs through much of the text. The text is organized topically, rather than by county-by-country, and provides in-depth examples at the conclusion of most chapters. Explains the basics of political science *Political Science: An Introduction, 13/e*, provides a comprehensive and jargon-free introduction to the field's basic concepts and themes. It draws examples from the U.S. and other countries to introduce the entire field of political science to new readers. The authors stress how exciting politics can be, balancing practical and theoretical knowledge. *MyPoliSciLab* is an integral part of the Roskin/Cord/Medeiros/Jones program. Activities and videos help readers engage in the material and retain its main points. Readers can watch videos that explore the key topics of politics and participate in simulations that allow them to experience politics firsthand. Assessment in *MyPoliSciLab* helps gauge readers' progress. Note: *MyPoliSciLab* does not come automatically packaged with this text. To purchase *MyPoliSciLab*, please visit: www.mypoliscilab.com

"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of:

- Case studies demonstrate how political ideas, concepts and issues manifest in the real world
- 'Focus' boxes encourage students to appreciate alternative viewpoints
- A range of thought provoking photographs challenge students to examine concepts from a different angle
- Suggestions for further reading and weblinks are also provided to help students to further their understanding

Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts. Providing a comprehensive introduction to political philosophy, this book offers a broad-ranging discussion, challenging readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science. "Understanding the Political World" offers a comparative perspective on how politics works at the global, national, group, and individual level. Focusing on how fundamental concepts in political science relate to real political events, this bestselling text surveys political behavior, systems, and processes throughout the world and asks students to evaluate and apply this knowledge. Through an engaging writing style, numerous examples, and the instructive use of visuals, "Understanding the Political World" encourages students to think like political scientists and to critically examine new and enduring political realities and challenges. Teaching and Learning Experience "Personalize Learning: " MyPoliSciLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. "Explore Concepts and Current Events: " Drawing on recent political events from a discussion of the economic crisis in the context of Ireland to the Iraqi people's struggle to create a democracy, this text surveys the discipline of political science and shows how political scientists analyze real-world politics. "Improve Critical Thinking: " Compare, Focus, and Debate boxes encourage students to think comparatively and to develop political arguments. "Engage Students: " A new four-color design and numerous photos offer a current and lively reading experience. "Emphasize Learning Outcomes: " New learning objectives in every chapter focus students on what they need to learn. In MyPoliSciLab, study plans based on the same learning objectives give students follow-up reading, video, and multimedia activities for further practice. "Instructor Support: " An instructor's manual, test bank, and PowerPoint presentation provide more teaching resources. In MyPoliSciLab, ClassPrep collects class presentation resources in one convenient online destination. " Offers an overview of the five paradigms of political explanation; those based on rational choice theory, political psychology, community analysis, Marx and Weber. The book examines what these models reveal about politics and the nature of political explanation. Political Theory: An Introduction is a pioneering political theory textbook that is a step towards making students do and evolve an Indian political theory, that is, theory born out of reflection on and

engagement with Indian social and political practices. It innovatively embeds Indian cases and contexts in the theoretical discussions and involves students in applying theories to current issues. Without oversimplifying concepts, this textbook uses the conversational, context-specific style of a good teacher and recreates the flavour of the classroom inside its covers. Some of its special features are: An outline for each chapter highlighting its main elements, an introductory section discussing the concept, and rationale of chapter organization, cross-referencing of important terms, points for discussion and a detailed reading list. First published in 1953, this seminal introduction to political philosophy is intended for both the student of political theory and for the general reader. After an introduction which explains the nature and purpose of philosophy, Dr Murray provides a critical examination of the principle theories advanced by political philosophers from Plato to Marx, paying special attention to contemporary issues. The book also makes an attempt to define the essential issues of philosophical significance in contemporary politics, with special reference to the conflict between political authority and individual rights, and to show how the different moral assumptions underlying authoritarian and democratic systems of government are ultimately based upon different theories of logic. Political Game Theory is a self-contained introduction to game theory and its applications to political science. The book presents choice theory, social choice theory, static and dynamic games of complete information, static and dynamic games of incomplete information, repeated games, bargaining theory, mechanism design and a mathematical appendix covering, logic, real analysis, calculus and probability theory. The methods employed have many applications in various disciplines including comparative politics, international relations and American politics. Political Game Theory is tailored to students without extensive backgrounds in mathematics, and traditional economics, however there are also many special sections that present technical material that will appeal to more advanced students. A large number of exercises are also provided to practice the skills and techniques discussed. Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and case studies making theory lively, contentious and relevant. This updated third edition comes with significant revisions which reflect the latest questions facing political theory, such as the French burqa controversy, ethnic nationalism and the value of research from sociobiology. Accompanying these debates is a wealth of new and thought-provoking case studies for discussion, including (consensual) sadomasochism, affirmative action and same-sex marriage. A new chapter on difference has also been added to complement those on feminism and multiculturalism. The revised glossary, revamped website for further reading and new streamlined layout make Introduction to Political Theory third edition the perfect accompaniment to undergraduate study. Follows a foundational approach to learning and gives students a picture of the political science field. This book offers an integrated and customizable online reader, Coursereader, with a full slate of recommended primary source readings compiled by the authors. Blending high-interest original writing with select primary sources on political theory, From Concept to Dialogue: An Introduction to Political Theory fosters appreciation for and critical thinking about major political concepts. The text poses thought-provoking questions that guide readers into drawing critical information out of challenging material. Part I introduces students to several concepts that political philosophers assume regarding human nature, knowledge, rationality, and morality. Part II examines different arguments for why government exists, how extensive political authority is, and who should rule. In Part III, students draw upon the knowledge they gained in Parts I and II to consider two main variants of democratic citizenship: liberal citizenship and participatory citizenship. Students are challenged to distinguish between these two models and consider what rights and obligations they have as citizens. The second edition features updated information and concepts throughout to reflect recent developments in politics and society. The book has been reorganized into three parts to better explore the overarching topics of political assumptions, government, and good citizenship. Dialogue boxes at the end of certain chapters engage students in applying concepts to different situations. Designed to help readers become more informed on popular policy debates and to inspire a greater level of civic mindedness, From Concept to Dialogue is an ideal textbook for courses in introductory political science and political philosophy. Politics is hugely complex. Some try to

reduce its complexity by examining it through an ideological worldview, a one-size-fits-all prescriptive formula or a quantitative examination of as many 'facts' as possible. Yet politics cannot be adequately handled as if it were made of cells and particles: ideological views are oversimplifying and sometimes dangerous. Politics is not simply a moral matter, nor political philosophy a subdivision of moral philosophy. This book is devised as a basic conceptual lexicon for all those who want to understand what politics is, how it works and how it changes or fails to change. Key concepts such as power, conflict, legitimacy and order are clearly defined and their interplay in the state, interstate and global level explored. Principles such as liberty, equality, justice and solidarity are discussed in the context of the political choices confronting us. This compact and systematic introduction to the categories needed to grasp the fundamentals of politics will appeal to readers who want to gain a firmer grasp on the workings of politics, as well as to scholars and students of philosophy, political science and history. The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies. This book introduces readers to the concepts of political philosophy. It starts by explaining why the subject is important and how it tackles basic ethical questions such as 'how should we live together in society?' It looks at political authority, the reasons why we need politics at all, the limitations of politics, and whether there are areas of life that shouldn't be governed by politics. It explores the connections between political authority and justice, a constant theme in political philosophy, and the ways in which social justice can be used to regulate rather than destroy a market economy. David Miller discusses why nations are the natural units of government and whether the rise of multiculturalism and transnational co-operation will change this: will we ever see the formation of a world government? ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. This book is intended as an introduction to political psychology or political behavior. This book will appeal to both psychology and political science majors with authors from each discipline. This revised edition examines a fairly wide range of issues on political theory, identified at the beginning of the new millennium. Elaborating the nature and significance of political theory, the book delves into the concept of ideology, nature and different views on politics and approaches to the study of politics. It is designed to cater to the needs of various Indian universities and competitive examinations including the Civil Services examination. This work emphasizes the ethical, empirical, and prudential concerns of politics in a way that links chapters and effectively jump-starts student awareness. It aims to get students to question their assumptions and explore the impact of politics on citizens' daily lives. For Introduction to Political Science courses. Exceptionally up-to-date and rich in cross-national examples, Political Science offers an unbiased and thorough introduction to the basic concepts and theories of political science. With a critical look at the major theories, it exposes students to many ways of thinking, and challenges them to think critically. Emphasizing both U.S. and comparative politics provides students with a solid foundation for connecting their studies of what is happening in the world around them. For courses in Introduction to Political Science. Explore the Fundamentals of Political Science Political Science: An Introduction shows students how the fundamental tenets of political science have helped important leaders make critical decisions for centuries. The authors present a balance of theoretical abstractions and applied reasoning to help students understand how to make calm, rational choices when it comes to political manipulation. This edition asks students to explore the controversial topic of exported democracy, and whether certain countries are ready and equipped to apply our form of government. By examining issues such as the Iraq war and the difficulty of adapting our own democracy in the U.S., the text prompts students to form their own opinions about democracy and political science. Geared toward those learning about the topic for the first time, the authors encourage students to consider different paradigms, viewpoints, and theories when developing their own political views.
