What Do Women Want? Daniel Bergner, 2014-05-13 In *What Do Women Want Adventures in the Science of Female Desire* critically acclaimed journalist Daniel Bergner disseminates the latest scientific research and paints an unprecedented portrait of female lust the triggers the fantasies the mind body connection and disconnection the reasons behind the loss of libido and most revelatory that this loss is not inevitable Bergner asks Are women actually the less monogamous gender Do women really crave intimacy and emotional connection Are women more disposed to sex with strangers and multiple pairings than either science or society have ever let on And is the fairer sex actually more sexually aggressive and anarchic than men While debunking the myths popularized by evolutionary psychology Bergner also looks at the future of female sexuality Pharmaceutical companies are pouring billions of dollars to develop a Viagra for women But will it ever be released Or are we not yet ready for a world in which women can become aroused at the simple popping of a pill Insightful and illuminating *What Do Women Want* is a deeper exploration of Daniel Bergner's provocative New York Times Magazine cover story it will spark dynamic debates and discussions for years to come

SUMMARY - What Do Women Want: Adventures In The Science Of Female Desire By Daniel Bergner Shortcut Edition, 2021-06-26 Our summary is short simple and pragmatic It allows you to have the essential ideas of a big book in less than 30 minutes By reading this summary you will learn to better understand female desire You will also learn why female desire and pleasure have never been the subject of serious research until recently that they are the subject of many unfounded preconceived ideas that monogamy is not so natural for women that even women are often unaware of their own contradictions how to improve one's relationship If male desire is rather well defined and known this is not the case for female desire It is still surrounded by mystery incomprehension and even suspicion and rejection Women have to bear the weight of many historical and social prejudices However these stereotypes are gradually disappearing The neuropsychological discoveries made in recent years open the door to many unsuspected findings For example women's desire is as developed as that of men and left free women are as enterprising as men if not more so Definitely change your view of female sexuality by finally understanding what women want Buy now the summary of this book for the modest price of a cup of coffee

The Women I Think About at Night Mia Kankimäki, 2021-12-07 In this thought provoking blend of history biography women's studies and travelogue Library Journal Mia Kankimäki recounts her enchanting travels in Japan Kenya and Italy while retracing the steps of ten remarkable female pioneers from history What can a forty something childless woman do Bored with her life and feeling stuck Mia Kankimäki leaves her job sells her apartment and decides to travel the world following the paths of the female explorers and artists from history who have long

inspired her She flies to Tanzania and then to Kenya to see where Karen Blixen of Out of Africa fame lived in the 1920s In Japan Mia attempts to cure her depression while researching Yayoi Kusama the contemporary artist who has voluntarily lived in a psychiatric hospital for decades In Italy Mia spends her days looking for the works of forgotten Renaissance women painters of the Uffizi Gallery in Florence and finally finds her heroines in the portraits of Sofonisba Anguissola Lavinia Fontana and Atremisia Gentileschi If these women could make it in the world hundreds of years ago why can't Mia The Women I Think About at Night is an astute entertaining and insightful Publishers Weekly exploration of the lost women adventurers of history who defied expectations in order to see and change the world Want Me Tracy

Clark-Flory, 2021-02-16 A NEW YORK TIMES NEW NOTEWORTHY BOOK A BUSTLE MOST ANTICIPATED BOOK OF 2021 ONE OF PUREWOW'S BOOKS WE CAN'T WAIT TO READ IN FEBRUARY VANITY FAIR'S THE BEST BOOKS TO BUY THIS VALENTINE'S DAY Want Me is complicated fun shocking and heart warming all at once Jessica Valenti New York Times bestselling author of Sex Object Intimate challenging and so very smart Want Me is a gift Rebecca Traister New York Times bestselling author of Good and Mad Tracy Clark Flory grew up wedged between fizzy declarations of girl power and the sexualized mandates of pop culture It was broken glass ceilings and Girls Gone Wild infomercials With a vague aim toward sexual empowerment she set out to become what men wanted or at least understand it In her moving fresh and darkly humorous memoir she shares the thrilling and heartbreaking events that led to discovering conflicting truths about her own desire first as a woman coming of age and then as a veteran journalist covering the sex beat Tracing her experiences on adult film sets at fetish conventions and during an orgasmic meditation retreat to name just a few Clark Flory weaves in statistics and expert voices to reckon with our views on sexual freedom Want Me is about looking for love sex and power as a woman in a culture that is freer than ever yet defined by unprecedented pressures and enduring constraints This is a first hand example of one woman who navigated the mixed messages of sexual expectation only to discover the complexity of her own wants and our collective need to change the limitations of that journey *Adventures in Human Being* Gavin

Francis, 2015-04-30 Sunday Times bestseller We have a lifetime's association with our bodies but for many of us they remain uncharted territory In *Adventures in Human Being* Gavin Francis leads the reader on a journey through health and illness offering insights on everything from the ribbed surface of the brain to the secret workings of the heart and the womb from the pulse of life at the wrist to the unique engineering of the foot Drawing on his own experiences as a doctor and GP he blends first hand case studies with reflections on the way the body has been imagined and portrayed over the millennia If the body is a foreign country then to practise medicine is to explore new territory Francis leads the reader on an adventure through what it means to be human Both a user's guide to the body and a celebration of its elegance this book will transform the way you think about being alive whether in sickness or in health Published in association with the Wellcome Collection WELLCOME COLLECTION Wellcome Collection is a free museum and library that aims to challenge how we think and feel

Diagnosing Desire Alyson K. Spurgas,2020 Examines how low female desire is produced embedded and lived within neoliberal capitalism Rethinks femininity by investigating sex research that measures the disconnect between subjective and genital female arousal contemporary psychiatric diagnoses for low female desire and new models for understanding women s sexual response **French Women Don't Get Facelifts** Mireille Guiliano,2014-01-16 Mireille shares the secrets and strategies of aging with attitude and joy offering personal anecdotes while divulging French women s most guarded secrets about looking and feeling great With her signature blend of wit no nonsense advice and storytelling flair she addresses everything from lotions and potions to diet style friendship and romance For anyone who has ever spent the equivalent of a mortgage payment on anti aging lotions or procedures dressed inappropriately for their age gained a little too much in the middle or accidentally forgotten how to flirt here is a proactive way to stay looking and feeling great without declaring bankruptcy or resorting to surgery *The Mind and the Moon* Daniel Bergner,2022-05-17 A profound and powerful work of essential reporting The New York Times Book Review An important and intimate interrogation of how we treat mental illness and how we understand ourselves In the early 1960s JFK declared that science would take us to the moon He also declared that science would make the remote reaches of the mind accessible and cure psychiatric illness with breakthrough medications We were walking on the moon within the decade But today psychiatric cures continue to elude us as does the mind itself Why is it that we still don t understand how the mind works What is the difference between the mind and the brain And given all that we still don t know how can we make insightful transformative choices about our psychiatric conditions When Daniel Bergner s younger brother was diagnosed as bipolar and put on a locked ward in the 1980s psychiatry seemed to have achieved what JFK promised a revolution of chemical solutions to treat mental illness Yet as Bergner s brother was deemed a dire risk for suicide and he and his family were told his disorder would be lifelong he found himself taking heavy doses of medications with devastating side effects Now in recounting his brother s journey alongside the gripping illuminating stories of Caroline who is beset by the hallucinations of psychosis and David who is overtaken by depression Bergner examines the evolution of how we treat our psyches He reveals how the pharmaceutical industry has perpetuated our biological view of the mind and our drug based assumptions about treatment despite the shocking price paid by many patients and the problematic evidence of drug efficacy And he takes us into the pioneering labs of today s preeminent neuroscientists sharing their remarkably candid reflections and fascinating new theories of treatment *The Mind and the Moon* raises profound questions about how we understand

ourselves and the essential human divide between our brains and our minds This is a book of thought provoking reframings delving into the science and spirit of our psyches It is about vulnerability and personal dignity the terrifying choices confronted by families and patients and the prospect of alternatives In *The Mind and the Moon* Bergner beautifully explores how to seek a deeper engagement with ourselves and one another and how to find a better path toward caring for our minds

A Natural History of Love Diane Ackerman,2011-06-01 The bestselling author of *A Natural History of the Senses* now explores the allure of adultery the appeal of aphrodisiacs and the cult of the kiss Enchantingly written and stunningly informed this audaciously brilliant romp through the world of romantic love Washington Post Book World is the next best thing to love itself

The Other Side of Desire Daniel Bergner,2009-03-05 Jacob is a man with an overwhelming attraction to female feet The Baroness is a clothing designer and evangelical sadist Roy is a wedding band singer entranced by his step daughter Ron and Laura are simply in love only Laura lost both her legs in a car accident and Ron is beguiled by a beauty many would be blind to How do we deal with desire Our own and the desires of others How do we comprehend desires that are extreme or unacceptable And how do those who have them live with them In *A Map of Desire* Daniel Bergner takes us on a journey into human passion suffered endured and celebrated Desire is a sometimes anarchic sometimes ecstatic sometimes destructive sometimes redeeming and always powerful force Immersing himself in it through the people whose lives he follows and the scientists he spends time with who are trying to understand it slowly he exposes and illuminates layers of our humanity

Being Wrong Kathryn Schulz,2011-01-04 To err is human Yet

most of us go through life assuming and sometimes insisting that we are right about nearly everything from the origins of the universe to how to load the dishwasher In Being Wrong journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken Drawing on thinkers as varied as Augustine Darwin Freud Gertrude Stein Alan Greenspan and Groucho Marx she shows that error is both a given and a gift one that can transform our worldviews our relationships and ourselves

The Mass Ornament Siegfried Kracauer,1995 The Mass Ornament today remains a refreshing tribute to popular culture and its impressively interdisciplinary writings continue to shed light not only on Kracauer s later work but also on the ideas of the Frankfurt School the genealogy of film theory and cultural studies Weimar cultural politics and not least the exigencies of intellectual exile

Doing Harm Maya Dusenbery,2018-03-06 Editor of the award winning site Feministing com Maya Dusenbery brings together scientific and sociological research interviews with doctors and researchers and personal stories from women across the country to provide the first comprehensive accessible look at how sexism in medicine harms women today In Doing Harm Dusenbery explores the deep systemic problems that underlie women s experiences of feeling dismissed by the medical system Women have been discharged from the emergency room mid heart attack with a prescription for anti anxiety meds while others with autoimmune diseases have been labeled chronic complainers for years before being properly diagnosed Women with endometriosis have been told they are just overreacting to normal menstrual cramps while still others have contested illnesses like chronic fatigue syndrome and fibromyalgia that dogged by psychosomatic suspicions have yet to be fully accepted as real diseases by the whole of the profession An eye opening read for patients and health care providers alike Doing Harm shows how women suffer because the medical community knows relatively less about their diseases and bodies and too often doesn t trust their reports of their symptoms The research community has neglected conditions that disproportionately affect women and paid little attention to biological differences between the sexes in everything from drug metabolism to the disease factors even the symptoms of a heart attack Meanwhile a long history of viewing women as especially prone to hysteria reverberates to the present day leaving women battling against a stereotype that they re hypochondriacs whose ailments are likely to be all in their heads Offering a clear eyed explanation of the root causes of this insidious and entrenched bias and laying out its sometimes catastrophic consequences Doing Harm is a rallying wake up call that will change the way we look at health care for women

Imperial Hearst Ferdinand Lundberg,2017-12-18 Hearst s journalistic ethics were probably never more clearly exposed than during the national election campaign of 1936 It is true that eighty per cent of the newspapers in the United States spread slanders and calumnies against the President But the Hearst organs pulled all the stops and thundered vilification with all the resources at their command The President was portrayed as a lunatic a wastrel a rascal a cartoonist s version of a frothing Communist Picture and text described him and his advisers as dangerously radical malicious and altogether feeble minded The Hearst press did not hesitate to attribute the source of Roosevelt s social legislation to Moscow Nor did

consistency deter Hearst from charging plagiarism from Hitler and Mussolini His newspapers shouted denunciation and abuse Sound familiar This work is the only complete exposition of the financial political and social results of the career of William Randolph Hearst

In the Land of Magic Soldiers Daniel Bergner, 2004-10 An Los Angeles Times Best Book 2003 In Sierra Leone rampaging soldiers have made a custom of hacking off the hands of their victims then letting them live as the ultimate emblem of terror The country is so desperate that forty years after independence its people long to be recolonized In this book the acclaimed author of novelist and journalist follows a set of Western would be saviors and a set of Sierra Leoneans who take us into a land of beauty horror resilience and redemption From mercenaries to missionaries child soldiers to parent fugitives Bergner tells this racially charged story with sensitivity and precision creating an unforgettable work of literary reportage

The Logic of Violence in Civil War Stathis N. Kalyvas, 2006-05-01 By analytically decoupling war and violence this book explores the causes and dynamics of violence in civil war Against the prevailing view that such violence is an instance of impenetrable madness the book demonstrates that there is logic to it and that it has much less to do with collective emotions ideologies and cultures than currently believed Kalyvas specifies a novel theory of selective violence it is jointly produced by political actors seeking information and individual civilians trying to avoid the worst but also grabbing what opportunities their predicament affords them Violence he finds is never a simple reflection of the optimal strategy of its users its profoundly interactive character defeats simple maximization logics while producing surprising outcomes such as relative nonviolence in the frontlines of civil
