**Opening Doors to a Richer English Curriculum for Ages 10 to 13 (Opening Doors series)** Aug 05 2021 Opening Doors to a Richer English Curriculum for Ages 10 to 13 takes Bob Cox's award-winning 'Opening Doors' series into bold new territories, providing a treasury of techniques and strategies all carefully selected to support the design of a deeper, more creative and more expansive curriculum. Together with Leah Crawford and Verity Jones, Bob has compiled this rich resource to help teachers enhance their learners' engagement with challenging texts and develop their writing skills as budding wordsmiths. It includes 15 ready-to-use units of work covering a range of inspiring poetry and prose from across the literary tradition, complete with vivid illustrations by Victoria Cox. Bob, Leah and Verity's innovative ideas on theory, best practice and how to cultivate a pioneering classroom spirit are all integrated into the lesson suggestions, which have been designed for both the teacher's and the learners' immediate benefit. Together they empower teachers to explore with their learners the scope and depth of literature capable of inspiring high standards and instilling a love of language in its many forms. Furthermore, they help teachers to lay down intricate curricular pathways that will prompt their pupils to better enjoy literature, read and analyse texts with a greater sense of curiosity, and write with more originality. The book includes a great range of texts both as the core of each unit and as link reading, incorporating some contemporary texts to show how past and present co-exist - and how various literary styles can be taught using similar principles, all of which are open to further adaptation. The authors have also suggested key concepts around which the curriculum can be built, with the units providing examples with which you can work. All of the extracts and illustrations you will need in order to begin opening doors in your classroom are downloadable, and the book also includes a helpful glossary of key terms.

[Teaching Middle School Writers](#) Dec 21 2022 "My whole goal with this book was to come at teaching writing from the angle that matters most: students' perspective. They taught me what I needed to know to make this book live up to their passion for writing." Laura Robb Adolescents have robust and rewarding writing lives outside of school that involve journals, emails, text messages, blogs, and an astounding array of genres. Unlike their personal reading lives that teachers frequently tap into, their personal writings typically exist under the curricular radar-that is until now. While grounded in the common schedule constraints and curriculum demands of middle school, Laura Robb's *Teaching Middle School Writers* offers teachers lessons and routines that are uncommonly attuned to adolescents' developmental and social needs. As she taps into the energy and enthusiasm of adolescents' personal writing lives, Laura presents: writing plans that support first drafts strategies for crafting leads that grab and endings that satisfy grammar lessons that address writing conventions editing lessons that have students revise their writing before the teacher reads it guidelines for grading and responding to student work. Straight-from-the-classroom writing samples and videos give teachers the opportunity to see how Laura uses compelling questions and powerful mentor texts to teach writing, support struggling writers, and weave twenty-first century literacies into the writing curriculum. Throughout, teachers learn ways of connecting to students' lives in order to bring out their best writing,

their best self. Watch a video overview.

Building on work with evidence-based analysis in Modules 1 and 2 of Grade 10, students explore topics that have multiple positions and perspectives by gathering and analyzing research based on vetted sources to establish a position of their own. Students first generate a written evidence-based perspective, which will serve as the early foundation of what will ultimately become a written research-based argument paper that synthesizes and articulates several claims with valid reasoning and relevant and sufficient evidence. Students read and analyze sources to surface potential problem-based questions for research, and develop and strengthen their writing by revising and editing.
