'International Financial Reporting' delivers a focused, user-friendly introduction to international financial reporting and how to implement the IASB standards for undergraduate students. With more than 140 countries in the world now using international financial reporting standards (IFRSr Standards), knowledge of the standards issued by the International Accounting Standards Board (IASBr) is vital to students' success in financial accounting. Melville's International Financial Reporting employs a practical, applied approach in exploring and explaining the key international standards. With a focus on how to implement the standards, this text delivers a focused, user-friendly introduction to international financial reporting. Renowned for clear and concise language, this seventh edition brings the book completely up-to-date with international standards issued as of 1 January 2019. Whether students become accountants or managers, business owners or bankers, it is important that they understand the nature of financial reporting and how the decisions made by managers affect corporations. Financial Accounting will provide students with a succinct, interactive and coherent introduction to basic financial accounting concepts combined with a strong focus on the use of financial accounting information. KEY TOPICS: The Financial

Statements; Recording Business Transactions; Accrual Accounting and the Financial Statements; Cash and Receivables; Inventory and Cost of Goods Sold; Property, Plant, and Equipment, and Intangible Assets; Investments and the Time Value of Money; Liabilities; Shareholders' Equity; The Statement of Cash Flows; Financial Statement Analysis MARKET: For students in Introduction to Financial Accounting courses seeking a practical and engaging learning experience. Financial Accounting is the ideal introductory book to anyone with little prior knowledge or new to this subject area. Its clear writing style and unique international focus builds on the success of the previous editions. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary and real world examples from Europe, US and beyond. 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow What's new! Updated to be fully compliant with International Financial Reporting Standards (IFRS) New coverage on ethics and corporate social accounting, creative accounting and groups as reporting entities Expanded discussion of revenue recognition and Islamic accounting and finance Numerous examples taken from European Union (EU) and the wider European Economic Area (EEA), showing the rules and practices of particular European countries or companies New end-of-chapter practice questions with guided solutions The text is ideal for undergraduates and MBA students worldwide, taking a first course in financial accounting. England. Christopher Nobes is Professor of Accounting at Royal Holloway, University of London, England. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee. Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting. Weygandt helps corporate managers see the relevance of accounting in their everyday lives. Challenging accounting concepts are introduced with examples that are familiar to them, which helps build motivation to learn the material. Accounting issues are also placed within the context of marketing, management, IT, and finance. The new Do It! feature reinforces the basics by providing quick-hitting examples of brief exercises. The chapters also incorporate the All About You (AAY) feature as well as the Accounting Across the Organization (AAO) boxes that highlight the impact of accounting concepts. With these features, corporate managers will learn the concepts and understand how to effectively apply them. 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow 'A hugely enjoyable and

informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol Financial Accounting is the ideal book for anyone with little prior knowledge or who is new to this subject area. The book retains the clear writing style and unique international focus which led to the success of previous editions. This approach enables the teaching of financial accounting in a way that is not country-specific. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary real-life examples from around the world. What's new! Fully updated to reflect the extensive changes that have occurred in the three years since writing the fifth edition; Expanded discussion of accounting by SMEs and partnerships (Chapter 4); New discussion on capital maintenance (Chapter 8); Added material on integrated reporting and sustainability (Chapter 6); Expanded discussion of revenue recognition, including reference to IFRS 15 (Chapter 8). The text is ideal for undergraduates and MBA students worldwide taking a first course in financial accounting. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee. This 7th edition retains all of the classic features that have contributed to the book's success: clarity of expression, the focus on the accounting equation, student activities and real-life commentaries running through each chapter, and the inclusion of the Safe and Sure Annual Report as an example of a listed company. WileyPLUS sold separately from text. Kimmel Financial Accounting, 7th Edition provides just the right amount of information students need to come to class prepared, while powerful visuals and Interactive Tutorials make complex

accounting concepts possible to absorb quickly. Starting with the big picture of financial statements first, Paul Kimmel shows students why financial accounting is important to their everyday lives, business majors, and future careers. This best-selling financial accounting text is known for the most relevant and easy to understand examples, while teaching students the accounting cycle through the lens of one consistent story of Sierra Corp, an outdoor adventure company. Financial Accounting 7th edition continues the strong reputation established by this leading Australian text as the most comprehensive book for students studying introductory accounting in undergraduate or postgraduate programs. The new edition is ideal for accounting and non-accounting majors alike, illustrating the applications of accounting and its role in business decision making. Accordingly, information on the accounting process and the regulatory environment has been thoroughly updated in line with recent changes to AIFRS and the Framework as per developments with the International Accounting Standards Board. A new, four colour design provides students with a more reader-friendly text, enhancing their understanding of concepts and their experience of the text. The text builds on the thorough and reliable explanation of the accounting process through the addition of new 'Link to business' chapter vignettes that apply the principles to practice. Previous editions were renowned for the number of exercises and problems, and the new edition builds upon this superior teaching feature. The end-of-chapter activities will encourage student confidence in using accounting through the development of skills in decision-making, critical thinking, ethical thinking, analysis and communication. This highly acclaimed text, now in its seventh edition, is designed as a first-level course in MBA and professional programmes.
