You Have to Stop This Oct 23 2021 Do you want to finally, conclusively, and at (very) long last, learn the Secret? Are you REALLY sure? Because now's your chance to escape... No? You're staying put? Have you any idea of what lies between these perilous pages? (How could you? ... except perhaps if you were to smell that faint aroma of musty mummy, or catch a glance of the deviously despicable Lord Pharaoh). Well, if you really want to learn the Secret I suppose you'll HAVE to read this. But you won't like it. The fifth and final fantastical adventure in the 'Secret' series in which Cass, Max-Ernest and Yo-Yoji are accused of stealing a very-valuable-and-not-to-be-touched ancient Egyptian mummy from the local museum. They are determined to clear their names, but after getting accidentally trapped in a crate with a mummified cat, the three youngest members of the Terces society unwittingly find themselves on their way to the great pyramids of...Las Vegas. Amongst the dusty corridors of the Cairo Hotel and mysterious hieroglyphs of the Nile Nail Salon, Cass draws ever closer to uncovering the Secret...

Chocolate Touch Feb 19 2024 When John Midas acquires a magical gift, everything his lips touch turns into chocolate.

It's Not Me It's Him Aug 13 2023 Want to laugh? Want to cry? Want to laugh and cry? Get ready for Derek L. Davis' new book! It's got laughter, gut-busting laughter, and want-to-laugh-in-the-library-and-get-thrown-out laughter. Derek covers many different topics in one book. In fact, he had over 1000 pages at one point, but people started complaining. Take a read of this book and die of laughter!* *This author cannot be sued for any wrongful death associated with reading this book.

Mobile Telecommunications in a High-Speed World Sep 21 2021 Mobile Telecommunications in a High Speed World tells the story of 3G and higher-speed mobile communication technologies. Over ten years have passed since the first third-generation (3G) licences were awarded following debates about the merits of auctions versus 'beauty contests' then, nothing much happened. More licences were issued, a few roll-outs commenced and everyone began to think it had all been a horribly expensive mistake. That may still turn out to be the case, but in the meantime there have been massive developments in terms of the number of licences and launches worldwide, in the range of services that can be accessed, in the range of devices that can be used to access them, in operator strategies etc. Even the technology has improved considerably with 4G now under discussion. Much of this story has been chronicled, largely on the Internet, but the information is in tens of thousands of bits and pieces and a large part of it is either misleading or just plain wrong. Here, Peter Curwen and Jason Whalley introduce the outcomes of research that has involved the compilation of a unique database which details

every licence and launch worldwide involving 3G. The authors discuss the structure of the industry and the strategic behaviour of operators, as well as the social consequences of the spread of 3G. They examine the role of new entry upon competition, and present analysis of the main operators involved, the development of handsets and especially smartphones. A number of country case studies are included. This comprehensive and up-to-date volume includes a number of country studies and is written by two of the world's foremost researchers on this industry. Mobile Telecommunications in a High Speed World will serve the needs of students, academics and those involved, or contemplating involvement, with the telecoms industry. Why pay thousands of dollars to consultancies to separate the wheat from the chaff with respect to 3G when you can read this book.

Differentiating for Success Dec 25 2021 Coming in June 2016! Creating differentiated instruction is an essential yet time-consuming component of effective teaching. Since students learn at different paces and in different ways, some students may be able to apply a targeted comprehension skill in cognitively complex ways immediately after being taught the skill while other students may need additional scaffolding in order to grasp it. All students, regardless of their skill level, benefit from activities that are at their just right level not too difficult or too easy. In this book, Nancy Witherell and Mary McMackin share easy-to-follow lesson plans that address key reading skills for students in grades 3 to 5. A set of three, tiered, differentiated follow-up activities accompanies each lesson. Fiction and nonfiction mentor texts are included.

The Cheney Cookbook Aug 01 2022 This concludes my cook book, which I have written with much love. I attribute my love of cooking to my Grandmother Mielke to whom I dedicate this book. As a little girl, I spent a lot of time with her on the farm. I would churn butter, stir the milk that would be sitting in a tank of cold water, to make it cool faster and help her make her delicious pumpkin pies. She would tell me how to make the filling as she made the crust. I was literally her shadow. She was a patient and loving grandmother and my goal is to be as good a grandmother to my grandchildren as she was to me.

Dessert Person Nov 04 2022 NEW YORK TIMES BESTSELLER • In her first cookbook, Bon App é tit and YouTube star of the show Gourmet Makes offers wisdom, problem-solving strategies, and more than 100 meticulously tested, creative, and inspiring recipes. IACP AWARD WINNER • NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY The New York Times Book Review • Bon App é tit • NPR • The Atlanta Journal-Constitution • Salon • Epicurious “There are no ‘just cooks’ out there, only bakers who haven't yet been converted. I am a dessert person, and we are all dessert people.”—Claire Saffitz Claire Saffitz is a baking hero for a new generation. In Dessert Person, fans will find Claire's signature spin on sweet and savory recipes like Babkallah (a babka-Challah mashup), Apple and Concord Grape Crumble Pie, Strawberry-Cornmeal Layer Cake, Crispy Mushroom Galette, and Malted Forever Brownies. She outlines the problems and solutions for each recipe—like what to do if your pie dough for Sour Cherry Pie cracks (patch it with dough or a quiche flour paste!)—as well as practical do's and don'ts, skill level, prep and bake time, step-by-step photography, and foundational know-how. With her trademark warmth and superpower ability to explain anything baking related, Claire is ready to make everyone a dessert person.

Touch Screen Theory Jun 11 2023 Technology companies claim to connect people through touchscreens, but by conflating physical contact with emotional sentiments, they displace the

constructed aspects of devices and women and other oppressed individuals' critiques of how such technologies function. Technology companies and device designers correlate touchscreens and online sites with physical contact and emotional sentiments, promising unmediated experiences in which the screen falls away in favor of visceral materiality and connections. While touchscreens are key elements of most people's everyday lives, critical frameworks for understanding the embodied experiences of using them are wanting. In Touch Screen Theory, Michele White focuses on the relation between physically touching and emotionally feeling to recenter the bodies and identities that are empowered, produced, and displaced by these digital technologies and settings. Drawing on detailed cases and humanities methods, White shows how and why gender, race, and sexuality should be further analyzed in relation to touchscreen use and design. White delves into such details as how women are informed that their bodies and fingernails are not a fit for iPhones, how cellphone surfaces are correlated with skin and understood as erotic, the ways social networks use heart buttons and icons to seem to physically and emotionally connect with individuals, how online references to feminine and queer feelings are resisted by many men, and how women producers of autonomous sensory meridian response (ASMR) videos use tactile strategies and touch screens to emotionally bond with viewers. Proposing critical methods for studying touchscreens and digital engagement, Touch Screen Theory expands a variety of research areas, including digital and internet cultures, hardware, interfaces, media and screens, and popular culture.

Public Relations in Asia Pacific Jan 26 2022 Public Relations in Asia Pacific reflects the growing professionalism in the practice of public relations in the world's fastest expanding economy. It is a carefully drawn road map, both strategically and tactically, for all manner of entities, for profit and not-for-profit on how to establish and maintain effective relationships with their numerous stakeholders. Particularly insightful are the many examples of public relations in action within the Asia Pacific region. It's a "must" read for those interested in public relations careers and those new to the profession; and it's a first-rate refresher for the established professional. –Harold Burson, Founding Chairman, Burson-Marsteller Worldwide Mary Devereux and Anne Peirson-Smith have combined their considerable talents and experience

to produce a bible of how public relations is—and should be—practiced in the Asia Pacific. One of its many virtues is that it debunks the myth that PR is just one long lunch hosted by caricature Svengalis and Spin Doctors. Rather, it sets the profession in a cultural context that will be valuable to those starting at PR 101, professionals and corporate executives who want to know how truth can be well told (with all due credit to McCann Erickson). –Kerry McGlynn, Special Adviser, Corporate Communication Department, Cathay Pacific Airways

As greater social pluralism, stakeholder influence and internet driven consumer sophistication and empowerment grow relentlessly across nearly all Asian societies, Public Relations in Asia Pacific is a timely guide to the critical role of good public relations. Clear, helpful and with a wealth of good examples of how best practice PR in action can make real and tangible contributions to governments, businesses, NGOs as well as to ordinary people, this is essential reading for anyone concerned with how to communicate well in the world's fastest growing economic region. –Tim Sutton, Chairman Asia Pacific, Weber Shandwick

In an increasingly globalized world, public relations practices and strategies become critical for organizations to communicate effectively to their diverse audiences worldwide. This book is therefore an extremely timely and relevant contribution to PR students and practitioners in the Asia-Pacific region as it provides not only a comprehensive overview of the essential concepts and skills of public relations but also specific case studies which illustrate tactical uses of public relations across a wide range of issues and countries. In my opinion, this book fills a major gap in the understanding of public relations concepts and practices and will constitute a fundamental resource for all those who aspire to excel within the field. –Dr. Indrajit Banerjee, Secretary-General, Asian Media Information and Communication Centre (AMIC)
