Chapter 23 - Current Liabilities

1. Alhambra Company offers three payment plans on its 12-month contracts. Information on the three plans and the number of children enrolled in each plan for September 1, 2005 through August 31, 2006 contract year follows:

Plan	Initial payment per child	Monthly fees per child	Number of children
#1	P500	P0	15
#2	200	30	12
#3		50	<u>9</u>
			<u>36</u>

Alhambra received all initial payments on September 1, 2005, and P3,240 of monthly fees during the period September 1 through December 31, 2005. In its December 31, 2005 balance sheet, what amount should Alhambra report as deferred revenue?

- a. 9,900
- b. 3,300
- c. 6,600
- d. 4,380

$$C = \text{initial payments } (500 \times 15) + 200 \times 12 = 9,900 \times 8/12 = 6,600$$

Abstract , 1926 **Completing College** Vincent Tinto, 2012-04-15 Even as the number of students attending college has more than doubled in the past forty years it is still the case that nearly half of all college students in the United States will not complete their degree within six years It is clear that much remains to be done toward improving student success For more than twenty years Vincent Tinto's pathbreaking book *Leaving College* has been recognized as the definitive resource on student retention in higher education Now with *Completing College* Tinto offers administrators a coherent framework with which to develop and implement programs to promote completion Deftly distilling an enormous amount of research Tinto identifies the essential conditions enabling students to succeed and continue on within institutions Especially during the early years he shows that students thrive in settings that pair high expectations for success with structured academic social and financial support provide frequent feedback and assessments of their performance and promote their active involvement with other students and faculty And while these conditions may be worked on and met at different institutional levels Tinto points to the classroom as the center of student education and life and therefore the primary target for institutional action Improving retention rates continues to be among the most widely studied fields in higher education and *Completing College* carefully synthesizes the latest research and most importantly translates it into practical steps that administrators can take to enhance student success **Robbins and Cotran Review of Pathology E-Book** Edward C. Urban Stormwater Management in the United States National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Reducing Stormwater Discharge Contributions to Water Pollution, 2009-03-17

The rapid conversion of land to urban and suburban areas has profoundly altered how water flows during and following storm events putting higher volumes of water and more pollutants into the nation s rivers lakes and estuaries These changes have degraded water quality and habitat in virtually every urban stream system The Clean Water Act regulatory framework for addressing sewage and industrial wastes is not well suited to the more difficult problem of stormwater discharges This book calls for an entirely new permitting structure that would put authority and accountability for stormwater discharges at the municipal level A number of additional actions such as conserving natural areas reducing hard surface cover e g roads and parking lots and retrofitting urban areas with features that hold and treat stormwater are recommended
