life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector Vast wealth and power are accumulated in ominous new behavioral futures markets where predictions about our behavior are bought and sold and the production of goods and services is subordinated to a new means of behavioral modification The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture a Big Other operating in the interests of surveillance capital Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight Zuboff s comprehensive and moving analysis lays bare the threats to twenty first century society a controlled hive of total connection that seduces with promises of total certainty for maximum profit at the expense of democracy freedom and our human future With little resistance from law or society surveillance capitalism is on the verge of dominating the social order and shaping the digital future if we let it
