Developing and Maintaining Emergency Operations Plans United States. Federal Emergency Management Agency, 2010 Comprehensive Preparedness Guide CPG 101 provides guidelines on developing emergency operations plans EOP It promotes a common understanding of the fundamentals of risk informed planning and decision making to help planners examine a hazard or threat and produce integrated coordinated and synchronized plans The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas This Guide helps planners at all levels of government in their efforts to develop and maintain viable all hazards all threats EOPs Accomplished properly planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis determining required capabilities and establishing a framework for roles and responsibilities It shapes how a community envisions and shares a desired outcome selects effective ways to achieve it and communicates expected results Each jurisdiction s plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain

How Tobacco Smoke Causes Disease United States. Public Health Service. Office of the Surgeon General, 2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke Many Surgeon General s reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies Mechanisms of disease are important because they may provide plausibility which is one of the guideline criteria for assessing evidence on causation This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke This evidence is relevant to understanding how smoking causes disease to identifying those who may be particularly susceptible and to assessing the potential risks of tobacco products
