*Round About A Great Estate May 01 2021 "Round About a Great Estate" is a collection of essays by Richard Jefferies, an English naturalist and writer known for his evocative descriptions of rural life and the natural world. Originally published in 1880, the book offers a series of observations and reflections on the countryside surrounding Jefferies' home in southern England. In the essays contained within "Round About a Great Estate," Jefferies likely explores various aspects of rural life, from the changing seasons and agricultural practices to the flora and fauna of the English countryside. His prose is likely characterized by its lyrical beauty and keen powers of observation, as he vividly describes the sights, sounds, and sensations of the natural world. Jefferies' writing style is likely imbued with a sense of nostalgia and reverence for the rural way of life, as he celebrates the simplicity and beauty of the countryside in the face of industrialization and urbanization. Through his essays, he likely seeks to capture the timeless essence of rural England and convey the profound connection between humanity and the natural world. "Round About a Great Estate" is likely appreciated not only for its poetic descriptions and insightful observations but also for its celebration of the rural landscape and the enduring spirit of the English countryside. It is likely to appeal to readers with an appreciation for nature writing and a desire to escape the hustle and bustle of modern life in favor of a more tranquil and contemplative existence.*

*Privilege and Property Nov 30 2023 What can and can't be copied is a matter of law, but also of aesthetics, culture, and*

economics. The act of copying, and the creation and transaction of rights relating to it, evokes fundamental notions of communication and censorship, of authorship and ownership - of privilege and property. This volume conceives a new history of copyright law that has its roots in a wide range of norms and practices. The essays reach back to the very material world of craftsmanship and mechanical inventions of Renaissance Italy where, in 1469, the German master printer Johannes of Speyer obtained a five-year exclusive privilege to print in Venice and its dominions. Along the intellectual journey that follows, we encounter John Milton who, in his 1644 Areopagitica speech 'For the Liberty of Unlicensed Printing', accuses the English parliament of having been deceived by the 'fraud of some old patentees and monopolizers in the trade of bookselling' (i.e. the London Stationers' Company). Later revisionary essays investigate the regulation of the printing press in the North American colonies as a provincial and somewhat crude version of European precedents, and how, in the revolutionary France of 1789, the subtle balance that the royal decrees had established between the interests of the author, the bookseller, and the public, was shattered by the abolition of the privilege system. Contributions also address the specific evolution of rights associated with the visual and performing arts. These essays provide essential reading for anybody interested in copyright, intellectual history and current public policy choices in intellectual property. The volume is a companion to the digital archive *Primary Sources on Copyright (1450-1900)*, funded by the UK Arts and Humanities Research Council (AHRC): [www.copyrighthistory.org](http://www.copyrighthistory.org).

*Elgin Marbles. That case study identifies the questions that still dominate the growing international debate about cultural property policy and are explored in subsequent essays: Why do people care about cultural property? Is cultural nationalism a sound organizing principle for dealing with cultural property questions? Or is it a relic of 19th century romanticism, kept alive by the power of Byron's poetry? How can cultural nationalism be rationalized with the idea that works of art and antiquities are 'the cultural heritage of all mankind?' What alternative ways are there of thinking about cultural property policy and law? The author examines in particular the law and policy relating to cultural property export controls and the evolution and development of the 1995 UNIDROIT Convention on the Return of Stolen and Illegally Exported Cultural Property. In the second part of the book the author addresses a number of contemporary art law issues in essays on counterfeit art, the moral rights of artists, the artist's resale right (droit de suite), the litigation over the Mark Rothko estate, and problems of museum trustee negligence, conflict of interests, and misuse of inside information. The author, a Professor of Art Law at Stanford University, is a leading international figure in cultural property and art law circles.*

*The Broken Estate* Jun 06 2024 This book recalls an era when criticism could change the way we look at the world. In the tradition of Matthew Arnold and Edmund Wilson, James Wood reads literature expansively, always pursuing its role and destiny in our lives. In a series of essays about such figures as Melville, Flaubert, Chekhov, Virginia Woolf, and Don DeLillo, Wood relates their fiction to questions of religious and philosophical belief. He suggests that the steady ebb of the sea of faith has much to do with the revolutionary power of the novel, as it has developed over the last two centuries. To read James Wood is to be shocked into both thinking and feeling how great our debt to the novel is.

*In the grand tradition of criticism, Wood's work is both commentary and literature in its own right--fiercely written, polemical, and richly poetic in style. This book marks the debut of a masterly literary voice.*

*Property And Persuasion Feb 02 2024 With socialism largely discredited in recent years, the moral and legal status of private property has become an increasingly important area for discussion in contemporary political and social thought. *Why I Write Apr 23 2023 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series,*

*Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. *An Essay on the Right of Property in Land Feb 19 2023 Property, Substance, and Effect Jun 01 2021 In engaging essays, celebrated anthropologist Marilyn Strathern reflects on the complexities of social life. Property, Substance, and Effect draws on Marilyn Strathern's longstanding interest in the reification of social relations. If the world is shrinking in terms of resources and access to them, it is expanding in terms of new candidates for proprietorship. How new relations are brought into being is among the many questions about property, ownership, and knowledge that these essays bring together. Twenty years have not diminished the interest in the book's opening challenge: if one were inventing a method of enquiry by which to configure the complexity of social life, one might wish to invent something like the anthropologist's ethnographic practice. A wide range of studies deliberately brings into conversation claims people make on one another through relations imagined in the form of body-substance along with the increasing visibility of conceptual or intellectual work as property. Whether one lives in Papua New*

Guinea or Great Britain, categories of knowledge are being dissolved and reformed at a tempo that calls for reflection--and for the kind of lateral reflection afforded through the "ethnographic effect."
