Sinner Ted Dekker,2008-09-02 Some say roll with the punches Drift with the tide Nothing can stop the inevitability of change There was a time when 300 Spartans disagreed with such mindless thinking and stood in the gap Now it s time for 3 000 to stand in the gap *Sinner* is the story of Marsuvees Black a force of raw evil who speaks with wicked persuasion that is far more destructive than swords or guns Beware all who stand in his way It s also the story of Billy Rediger and Darcy Lange two unsuspecting survivors of a research project gone bad who discover that they are perhaps the two most powerful souls in the land Listen to them or pay a terrible price And it s the story of Johnny Drake the one who comes out of the desert and leads the 3 000 Follow him and die *Sinner* tells the story of a free land where people who worship as they please and say what they believe are suddenly silenced in the name of tolerance Most will roll with the punches Most will drift with the tide But not all Not the 3 000

M. G. Kock,Peter de Kock,2014 In the first decade of this century the focus of law enforcement agencies has shifted from prosecuting crime to anticipating crime This approach emphasizes the discovery of narratives in crime related data However while narratives are at the mainstay of entertainment law and politics a scientific method by which narratives can be created and subsequently be used to anticipate criminal behavior still has to be established In the creative industry a narrative is generated by a scenario A scenario describes the interactions between the characters and includes information about behavior goals motivations modi operandi and resistances that have to be overcome Furthermore a creative scenario is composed by a limited number of scenario components In this book a new and innovative scenario model is designed by which narratives in data can be detected It introduces the ESC12 the twelve Elementary Scenario Components by which every conceivable narrative can be created Moreover the book introduces the ESC12 scenario model a model that may support law enforcement agencies to effectively anticipate criminal behavior The book s author Peter A M G de Kock graduated as a filmmaker from the Film Academy of the Amsterdam School of the Arts in 1994 and has traveled all over the world as a professional photographer cameraman and film director In 2009 after receiving a Master degree in Criminal Investigation he introduced creative scenarios to anticipate terrorist attacks The operational results of his team were thought provoking and he was invited to demonstrate his method of operation to prominent members of Dutch Parliament and the Ministry of Security and Justice He was then offered the opportunity to pursue the use of scenarios to anticipate crime as an external Ph D student at Tilburg University This book is the result of his study Subject Criminology Policing
