**A Piece of Blue Sky** Jon Atack,1990 Atack exposes Hubbard s bizarre imagination and behavior tracing the creation of Scientology in the years following World War II to perhaps its final schism following Hubbard s death in 1986 A shocking book that reveals all the abuses falsehoods paranoia and greed of

Hubbard and his pseudo military Scientologist henchmen *FINAL BLACKOUT* L. RON HUBBARD, 2022-01-01 When *FINAL BLACKOUT* was written there was still a Maginot Line Dunkirk was just another French coastal town and the Battle of Britain the Bulge Saipan Iwo V2s and Nagasaki were things unknown and far ahead in history While it concerns these things its action will not take place for many years yet to come and it is therefore still a story of the future though some of the future it embraced about one fifth has already transpired When published in magazine form before the war it created a little skirmish of its own and I am told as time has gone by and some of it has unreeled interest in it has if anything increased So far its career has been most adventurous as a story The battle of *FINAL BLACKOUT* has included loud wails from the Communists who said it was pro fascist while at least one fascist has held it to be pro Communist Its premises have been called wild and unfounded on the one hand while poems some of them very good have been written about or dedicated to the Lieutenant Meetings have been held to nominate it to greatness while others have been called to hang the author in effigy and it is a matter of record that the last at least was successfully accomplished The British would not hear of its being published there at the time it appeared in America though Boston I am told remained neutral for there is nothing but innocent slaughter in it and no sign of rape There are those who insist that it is all very bad and those who claim for it the status of immortality And while it probably is not the worst tale ever written I cannot bring myself to believe that *FINAL BLACKOUT* as so many polls and such insist is one of the ten greatest stories ever published Back in those mild days when Pearl Harbor was a place you toured while vacationing at Waikiki and when every drawing room had its business man who wondered disinterestedly whether or not it was not possible to do business with Hitler the anti *FINAL BLACKOUT*ISTS many of whom I fear were Communists were particularly irked by some of the premises of the tale Russia was obviously a peace loving nation with no more thought than America of entering the war England was a fine going concern without a thought beyond a contemptuous aside for the Socialist who of course could never come to power One must understand this to see why *FINAL BLACKOUT* slashed about and wounded people True enough some of its premises were far off the mark It supposed for instance that the politicians of the great countries particularly the United States would push rather than hinder the entrance of the whole world into the war In fact it supposed for its author was very young that politicians were entirely incompetent and would not prevent for one instant the bloodiest conflict the country had ever known Further for the author was no critic it supposed that the general staffs of most great nations were composed of stupid bunglers who would be looking up their friends on the selection board when they should be looking to their posts and that the general world wide strategy of war would go off in a manner utterly unadroit to the sacrifice of efficiency It surmised that if general staffs went right on bungling along military organization would cease to exist and it further and more to the point advanced the thought that the junior combat officer the noncom and primarily the enlisted men would have to prosecute the war These it believed would finally be boiled down by staff stupidity to a handful of unkillables who would thereafter shift for themselves *FINAL*

BLACKOUT declared rather summarily and very harshly for the author was inexperienced in international affairs that the anarchy of nations was an unhealthy arrangement maintained by the greed of a few for the privileges of a few and that the common people which is to say those uncommon people who wish only to be let go about their affairs of getting enough to eat and begetting their next generation would be knocked flat silly and completely out of existence by these brand new defensive weapons which would of course be turned only against soldiers Bombs atomics germs and in short science it maintained were being used unhealthily and that soon enough a person here and there who was no party to the front line sortie was liable to get injured or dusty it also spoke of populations being affected boomerang fashion by weapons devised for own governments to use Certainly all this was heresy enough in that quiet world of 1939 and since that time it is only fair to state the author has served here and there and has gained enough experience to see the error of his judgment There have been two or three stories modeled on FINAL BLACKOUT I am flattered It is just a story And as the past few years have fortunately proven it cannot possibly happen
