Home Education Charlotte Mason, Home Education is a groundbreaking exploration into the art of cultivating a rich and vibrant learning environment within the confines of one's home. Mason, a visionary educator, lays out a compelling philosophy that transcends traditional schooling methods, focusing on the holistic development of a child's mind, character, and habits. Through the lens of living books, nature study, and a thoughtful approach to discipline, Mason offers a refreshing perspective that empowers parents to provide an education that is not only intellectually rigorous but also fosters a love for learning. In this timeless work, Mason provides practical insights into the daily rhythms of home education, emphasizing the importance of cultivating an atmosphere of curiosity and wonder. She advocates for the use of living books, engaging and narrative-rich texts that ignite a child's imagination and create a genuine connection to the subjects studied. Additionally, Mason encourages the integration of nature into the learning experience, promoting outdoor exploration and observation as essential elements of a well-rounded education. Home Education serves as a guide for parents seeking an alternative, more personalized approach to education that goes beyond rote memorization and standardized testing. Charlotte Mason's philosophy, outlined with clarity and conviction, resonates with those who aspire to nurture not only academically proficient individuals but also compassionate, well-rounded human beings. This book is a compelling resource for anyone looking to embark on a transformative journey in home-based learning.

Home Education Charlotte Mason, 2013-02-18 Home Education consists of six lectures by Charlotte Mason about the raising and educating of young children up to the age of nine for parents and teachers. She encourages us to spend a lot of time outdoors, immersed in nature, handling natural objects and collecting experiences on which to base the rest of their education. She discusses the use of training in good habits, such as attention, thinking, imagining, remembering, performing tasks with perfect execution, obedience, and truthfulness, to replace undesirable tendencies in children and the adults that they grow into. She details how lessons in various school subjects can be done using her approach. She concludes with remarks about the Will, the Conscience, and the Divine Life in the Child. Charlotte Mason was a late nineteenth-century British educator whose ideas were far ahead of her time. She believed that children are born persons worthy of respect rather than blank slates and that it was better to feed their growing minds with living literature and vital ideas and knowledge rather than dry facts and knowledge filtered and pre-digested by the teacher. Her method of education, still used by some private schools and many homeschooling families, is gentle and flexible, especially with younger children, and includes first-hand exposure to great and noble ideas through books in each school subject, conveying wonder and arousing curiosity, and through reflection upon great art, music, and poetry, nature observation as the primary means of early science teaching, use of manipulatives, and real-life application to understand mathematical concepts, and learning to reason rather than rote memorization and working endless sums, and an emphasis on character and on

cultivating and maintaining good personal habits Schooling is teacher directed not child led but school time should be short enough to allow students free time to play and to pursue their own worthy interests such as handicrafts Traditional Charlotte Mason schooling is firmly based on Christianity although the method is also used successfully by secular families and families of other religions
