Daphne C. Wiggins,2006-03 Enter most African American congregations and you are likely to see the century old pattern of a predominantly female audience led by a male pastor How do we explain the dedication of African American women to the church particularly when the church s regard for women has been questioned Following in the footsteps of Evelyn Brooks Higginbotham s pathbreaking work Righteous Discontent Daphne Wiggins takes a contemporary look at the religiosity of black women Her ethnographic work explores what is behind black women s intense loyalty to the church bringing to the fore the voices of the female membership of black churches as few have done Wiggins illuminates the spiritual sustenance the church provides black women uncovers their critical assessment of the church s ministry and interprets the consequences of their limited collective activism Wiggins paints a vivid portrait of what lived religion is like in black women s lives today **Storytelling: Global Reflections on Narrative** Tracy Ann Hayes,Theresa Edlmann,Laurinda

Brown,2019-05-15 This book focuses on storytelling and human life by exploring the possibilities of narrative approaches across numerous disciplines and in diverse contexts stories are humanity s oldest way of making meaning of our past present and future *Doing Oral History* Donald A. Ritchie,2015 *Doing Oral History* is considered the premier guidebook to oral history used by professional oral historians public historians archivists and genealogists as a core text in college courses and throughout the public history community The recent development of digital audio and video recording technology has continued to alter the practice of oral history making it even easier to produce and disseminate quality recordings At the same time digital technology has complicated the preservation of the recordings past and present This basic manual offers detailed advice for setting up an oral history project conducting interviews and using oral history for research making video recordings preserving oral history collections in archives and libraries and teaching and presenting oral history **ISE Essentials of Life-Span Development** John W. Santrock,2021-03-02 *Sound Writing* Shelley Trower,2023 For all its orality oral history has a long standing closely entwined relationship with writing *Sound Writing* considers the interplay between sound recordings and written literature looking back to antiquity while focusing on the nineteenth to the twenty first centuries It also refers to a dream of sound writing itself enabling voices to reach readers directly cutting out the need for authorial mediation Oral histories are nevertheless actively mediated often turned into and received as written texts There can be value in transforming spoken oral histories in print or on screen not least in order to make them readable for wider audiences Indeed such re creations can be worthy and wonderful works of scholarship and art and this book explores a wide range of different forms and media like the polyphonic novel and hyperlinked websites which can most effectively convey speakers narratives on their own terms but there is also always the danger of speakers voices being distorted or lost in the process of mediation This book examines how oral histories are co created by speakers by authors and also by readers It considers how oral history can inform our understandings of authorship and reading to reconceive and query their potential as creative multiple collective and activist Finally it reflects on the role of authorship in the academy

Ethnography as a Pastoral Practice Mary Clark Moschella,2023-02-28 *Ethnography* is a way to tap the deep undercurrents in a community through a process of gathering analyzing and sharing data Fully revised and updated for this second edition *Ethnography as a Pastoral Practice* has quickly become the go to textbook for those in or training for ministry who want to discover how they can use ethnography to help them hear the stories of those to whom they minister Setting forth the case for ethnography s ability to galvanize aspirations and heal communal hurt this book presents the helpful pastoral practice of ethnography in a clear step by step manner and includes many compelling case studies of transformational leadership *Ethnography as a Pastoral Practice* invites us to open our eyes ears and hearts to those in our congregations

High Rise Stories Audrey Petty,2013-09-15 In the gripping first person accounts of *High Rise Stories* former residents of Chicago s iconic public housing projects describe life in the now demolished high rises These stories of

community displacement and poverty in the wake of gentrification give voice to those who have long been ignored but whose hopes and struggles exist firmly at the heart of our national identity *The Power of Meaning* Emily Esfahani Smith, 2017-01-10 In a culture obsessed with happiness this wise stirring book points the way toward a richer more satisfying life Too many of us believe that the search for meaning is an esoteric pursuit that you have to travel to a distant monastery or page through dusty volumes to discover life's secrets The truth is there are untapped sources of meaning all around us right here right now To explore how we can craft lives of meaning Emily Esfahani Smith synthesizes a kaleidoscopic array of sources from psychologists sociologists philosophers and neuroscientists to figures in literature and history such as George Eliot Viktor Frankl Aristotle and the Buddha Drawing on this research Smith shows us how cultivating connections to others identifying and working toward a purpose telling stories about our place in the world and seeking out mystery can immeasurably deepen our lives To bring what she calls the four pillars of meaning to life Smith visits a tight knit fishing village in the Chesapeake Bay stargazes in West Texas attends a dinner where young people gather to share their experiences of profound loss and more She also introduces us to compelling seekers of meaning from the drug kingpin who finds his purpose in helping people get fit to the artist who draws on her Hindu upbringing to create arresting photographs And she explores how we might begin to build a culture that leaves space for introspection and awe cultivates a sense of community and imbues our lives with meaning Inspiring and story driven *The Power of Meaning* will strike a profound chord in anyone seeking a life that matters *Grieving with Your Whole Heart* Editors at SkyLight Paths, 2015-07-30 This soulful companion for grief offers wisdom and creative spiritual practices from across faith traditions for walking with sorrow and honoring loss Whether you need to grieve in words or silence in solitude or in company with others this compassionate guide will help you find wholeness and a renewed vision of yourself and the world **Conversation—The Sacred Art** Diane M. Millis, PhD, 2013-02-01 Cultivate the potential for deeper connection in every conversation To think of conversation as a sacred art challenges us to imagine all the conversations in which we participate from the acquaintance we run into at Target to the dialogue for which we've spent weeks in preparation as a potentially sacred conversation from the Introduction We often find ourselves distracted and overwhelmed by a constant stream of information and demand for connectivity Now more than ever we need to develop our capacity for greater presence in our daily lives and relationships One of the best ways to do this is by improving the quality of our conversations Dr Diane Millis offers us inspirational stories insights and spiritual practices from many faith traditions to increase our awareness of the deep natural holiness waiting to be unlocked in our everyday encounters This resource is a catalyst for anyone who would like to enrich seemingly ordinary conversations as well as for leaders in educational ministry and corporate settings who want to increase their capacity to listen deeply Become more self-aware and attentive to others Learn how to move beyond conventional topics to exploring purpose meaning and values in conversation *Neighborhood Church* Krin Van Tatenhove, Rob Mueller, 2019-02-01 How can we embody the

values of love grace and justice As faith communities how can our collective embodiment of these values shine even brighter The answers to these questions must always unfold right here right now exactly where God has planted us Neighborhood Churchacts as a resource to inspire churches to become a vibrant and engaging community partner with the families and neighborhoods living around them The need for transformation is acute Congregational decline continues across all mainline denominations The abandonment of the church by the millennial generation is ubiquitous no denomination is escaping it This is in part a consequence of disconnection from our communities Van Tatenhove and Mueller believe that parish by parish we can reverse this trend They dare to have an audacious hope for local congregations not only as signs of Gods kingdom but as life giving institutions that anchor their neighborhoods Drawing on their combined sixty years of parish experience wisdom from Asset Based Community Development and compelling case stories Van Tatenhove and Mueller do more than just call us to incarnational ministry They give practical essential tools that lead to communal conversion develop the DNA of listening spur fruitful partnerships promote integrated space and sustain long term visions They believe these tools will spark true revival and unleash the power of incarnational ministry Advanced Reporting Miles Maguire,2014-07-25 News gathering is a large complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic best learned through trial and error Advanced Reporting takes the opposite approach focusing on reporting as a process of triangulation based on three essential activities analyzing documents making observations and conducting interviews In this readable book veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross check and authenticate facts to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding This book will help to prepare students for a profession marked by increasing complexity and competition To succeed in this environment journalists must learn to make the most of digital media to intensify the impact of their work At the same time reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism but also collaborate in its creation Discussion questions and exercises help students put theory into practice **Transforming Our Image, Building Our Brand** Valerie J. Gross,2012-11-08 This book describes a groundbreaking concept that enables public libraries and librarians to become indispensable by following a Three Pillars educational approach and by replacing traditional terms with powerful intuitive value enhanced terminology that everyone understands While there is no question that what librarians and library professionals do is critically important the ways in which these roles and responsibilities are described can mean the difference between being valued as essential to the community or considered optional Something as simple as a choice of words can determine what is valued and consequently what gets funded and what gets canceled Transforming Our Image Building Our Brand The Education Advantage examines how the Three Pillars approach harnesses the power of language to enhance respect generate increased perceived value and garner funding The power stems from positioning all that library

professionals do under three easy to remember pillars and replacing typical library terms and phrases with bold value enhanced terminology that commands value language that people outside of the field can immediately understand This book is essential reading for public library staff members at all levels of the organization especially those in leadership roles and its root concepts are applicable for all other library types as well
