Economic Commission for Latin America and the Caribbean,Deutsche Gesellschaft für Technische Zusammenarbeit,2003 **Handbook of Modern Sensors** Jacob Fraden,2006-04-29 Seven years have passed since the publication of the previous edition of this book During that time sensor technologies have made a remarkable leap forward The sensitivity of the sensors became higher the dimensions became smaller the sensitivity became better and the prices became lower What have not changed are the fundamental principles of the sensor design They are still governed by the laws of Nature Arguably one of the greatest geniuses who ever lived Leonardo Da Vinci had his own peculiar way of praying He was saying Oh Lord thanks for Thou do not violate your own laws It is comforting indeed that the laws of Nature do not change as time goes by it is just our appreciation of them that is being renewed Thus this new edition examines the same good old laws of Nature that are employed in the designs of various sensors This has not changed much since the previous edition Yet the sections that describe the practical designs are revised substantially Recent ideas and developments have been added and less important and nonessential designs were dropped Probably the most dramatic recent progress in the sensor technologies relates to wide use of MEMS and MEOMS micro electro mechanical systems and micro electro opto mechanical systems These are examined in this new edition with greater detail This book is about devices commonly called sensors The invention of a microprocessor has brought highly sophisticated instruments into our everyday lives **The Struggle Against Enforced Disappearance and the 2007 United Nations Convention** Tullio Scovazzi,Gabriella Citroni,2007 Enforced disappearance is one of the most serious human rights violations It constitutes an autonomous offence and a crime under international law on account of its multiple and continuing character It is not a phenomenon of the past nor is it geographically limited to Latin America such scourge is widespread today and on the increase in other continents For more than twenty five years relatives of disappeared people worldwide have insisted on the pressing need for an international legally binding instrument against enforced

disappearances 2006 is the year of the adoption of the International Convention on the Protection of All Persons from Enforced Disappearances which represents the result of several legislative and jurisprudential developments that are duly analyzed in this book The Convention has been opened for signature in February 2007
