The Lola T70 was developed in 1965 for sports car racing - Lola built the chassis, which were typically powered by large American V8 engines, predominantly Chevrolets and Fords. The T70 was prolific throughout the mid- to late-1960s, and over 100 examples were built in three versions - both open-topped and coupé models. The first successes for the T70 were in the US, and in 1966, the T70 dominated the Can-Am championship, winning five of the six races in the series - with John Surtees becoming champion in a Chevrolet-powered example. In 1968, T70s finished 1 - 2 in

the Daytona 24 Hours, and the T70 was highly successful in the domestic UK and European championships, winning regularly. Today, Lola T70s are regular competitors on the historic racing scene, and examples are highly sought after by collectors. This Lola T70 Owner's Workshop Manual looks at the design, evolution, anatomy and operation of the T70. To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative, yet mature, thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X (Naval Correspondents). In 1948, under a major overhaul affecting almost every enlisted rating, the journalist (JO) rating was established. MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the JO 3 & 2 training manual (TRAMAN). In our democratic society, government depends on the consent of the governed. This important principle means that, in the long run, the United States government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade - personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics - the people at your ship or station, Navy people in general and the people of the United States as a whole. Bill Hartack won the Kentucky Derby five times, and seemed to hate every moment. "If only Bill could have gotten along with people the way he got along with horses," a trainer said. His impoverished upbringing didn't help: his mother was killed in an automobile accident; the family home burned down; his father was murdered by a girlfriend; and he was estranged from his sisters for most of his life. Larry King, his friend, said it was just as well Hartack never married, because it wouldn't have lasted. Hartack was one of racing's most accomplished jockeys. But he was an inveterate grouch and gave the press a hard time. At 26, he was inducted into the Hall of Fame. Whenever the media tried to bury him, he would win another Derby. At the end of his life, he was found alone in a cabin in the Texas hinterlands. Drawn from dozens of interviews and conversations with family members, friends and

enemies, this book provides a full account of Hartack's turbulent life. Success in any yacht race depends to a large degree on the ability of the crew to perform any boat-handling manoeuvre faultlessly and speedily. The position of every crew member, from bowman to helmsman, is examined and the area of responsibility for each clearly laid out. Desirable physical and mental attributes are discussed along with practical advice on improvements to technique.
