Teach math lessons through the creative means of a life storyProvide 36 weeks of instruction based on skill levels rather than grade levelsGuide students by the use of inexpensive manipulatives, including index cards, dried beans, and construction paper! We often tend to compartmentalize when teaching children. In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see and read road signs, read maps, and count miles. So why do we say to children,

"This is math, this is language, this is about science and nature, and this is history"? The most natural and effective means to teach children is through life examples. Content, story, and the ability to show math in real life make a living math book! WHAT IF I CAN'T? "Will elicit plenty of giggles." -- Kirkus Reviews Which way to the flowers? That way. 200 miles. How am I supposed to travel that far?! You fly. Can I take a plane? No. Then I'll never make it! This comical companion to Ross Burach's *The Very Impatient Caterpillar* pays loving homage to every child's struggle to persist through challenges while also delivering a lighthearted lesson on butterfly migration.
