A comprehensive, chronological overview of American literature in three scholarly and authoritative volumes A Companion to American Literature traces the history and development of American literature from its early origins in Native American oral tradition to 21st century digital literature. This comprehensive three-volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field. Contributors explore a broad range of topics in historical, cultural, political, geographic, and technological contexts, engaging the work of both well-known and non-canonical writers of every period. Volume One is an inclusive and geographically expansive examination of early American literature, applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts. Volume Two covers American literature between 1820 and 1914, focusing on the development of print culture and the literary marketplace, the emergence of various literary movements, and the impact of social and historical events on writers and writings of the period. Spanning the 20th and early 21st centuries, Volume Three studies traditional areas of American literature as well as the literature from previously marginalized groups and contemporary writers often overlooked by scholars. This inclusive and comprehensive study of American literature: Examines the influences of race, ethnicity, gender, class, and disability on American literature Discusses the role of technology in book production and circulation, the rise of literacy, and changing reading practices and literary forms Explores a wide range of writings in multiple genres, including novels, short stories, dramas, and a variety of poetic forms, as well as autobiographies, essays, lectures, diaries, journals, letters, sermons, histories, and graphic narratives. Provides a thematic index that groups chapters by contexts and illustrates their links across different traditional chronological boundaries A Companion to American Literature is a valuable resource for students coming to the subject for the first time or preparing for field examinations, instructors in American literature courses, and scholars with more specialized interests in specific authors, genres, movements, or periods. The Cambridge History of American Literature addresses the spectrum of new and established directions in American writing. An interdisciplinary distillation of American literary history, it weds the voice of traditional criticism with the diversity of interests that characterize contemporary literary studies. Volume 1 covers the colonial and early national periods, discussing authors ranging from Renaissance explorers to the poets and novelists of the new republic. It should prove an indispensable guide for scholars and students in the fields of English and American literatures and American history. A repackaging of the third book in the New York Times best-selling Left Behind series. The Growth of Literature is a key work for all scholars and students of comparative literature, and will also interest those involved with other fields of literary studies as well as sociology, anthropology and related disciplines. The three volumes, hailed as classics when they first appeared between 1932 and 1940, were last reprinted in 1968. Now available for the first time in paperback, they remain the definitive study of their subject. The work contains an examination of comparative literatures in various countries and at various times, with a view to demonstrating what literature (oral and written) consists of at different stages of its growth and what, if any, general principles can be applied to its development under diverse conditions. In the first volume Professor and Mrs Chadwick establish the categories of literature which are used throughout as a means of classification, and discuss the heroic age in Europe, focusing on Classical, Anglo-Saxon and Celtic cultures. In the second volume they deal with Russian oral literature, Yugoslav oral poetry, early Indian literature and early Hebrew literature. Volume III examines the oral literature of the Tatars, of Polynesia, and of Africa, concluding with a general survey which makes use of the categories developed in the first volume. Because all literary communication happens within different kinds of power structures - linguistic, economic, political -, it often results in fascinating forms of hybridity. In the first of four thematic chapters, the papers investigate some of the ways in which discourses can establish modes of thinking, or how discourses are in turn controlled by active linguistic interventions, whether in the context of the patriarchy, war, colonialism, or political factions. The second thematic block is predominantly concerned with hybridity as an aspect of modern cultural identity, and the cultural and linguistic dimensions of domestic life and in society at large. Closely related, a third series of papers focuses on writers and texts analysed from the vantage points of exile and exophony, as well as theoretical contributions to issues of terminology and what it means to talk about transcultural phenomena. Finally, a group of papers sheds light on more overtly violent power structures, mechanisms of exclusion, Totalitarianism, torture, and censorship, but also resistance to these forms of oppression. In addition to these chapters, the volume also collects a number of thematically related group sections from the ICLA congress, preserving their original context. In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the second edition of this volume a considerable number of changes have been made. Henry Fielding's Tragedy of Tragedies has been added, as has a new section of material from eighteenth-century periodicals. A new Contexts section entitled "Transatlantic Currents" includes writings by such figures as Paine, Franklin, and Price, as well as material on the slave trade. The Contexts sections on "Town and Country" and on "Mind and God, Faith and Science" have also been expanded; a variety of writings on the Royal Society and other scientific matters have been added to the latter. Additional chapters from Equiano's Interesting Narrative have been added, and there are new selections by Samuel Johnson (including his "Letter to Lord Chesterfield" and facsimile pages from the Dictionary). Book 3 from Gulliver's Travels has been added; that work now appears in its entirety. There are also additional selections by Pope, Pepys, and Astell. The Castle of Otranto and The Witlings have been moved from the bound book to the website component of the anthology. (Both are available as volumes in the Broadview Editions series, and may be added at a very modest additional cost in a shrink-wrapped combination package.) In the first two volumes of this work, Paul Ricoeur examined the relations between time and narrative in historical writing, fiction and theories of literature. This final volume, a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2, stands as Ricoeur's most complete and satisfying presentation of his own philosophy. Citing declining coverage of classic English and American literature in today's schools, a "politically incorrect" primer challenges popular misconceptions while introducing the works of such core masters as Shakespeare, Faulkner, and Austen, in a volume that is complemented by a syllabus and a self-study guide. William Sharp (1855-1905) conducted one of the most audacious literary deceptions of his or any time. Sharp was a Scottish poet, novelist, biographer and editor who in 1893 began to write critically and commercially successful books under the name Fiona Macleod. This was far more than just a pseudonym: he corresponded as Macleod, enlisting his sister to provide the handwriting and address, and for more than a decade "Fiona Macleod" duped not only the general public but such literary luminaries as William Butler Yeats and, in America, E. C. Stedman. Sharp wrote "I feel another self within me now more than ever; it is as if I were possessed by a spirit who must speak out". This three-volume collection brings together Sharp's own correspondence - a fascinating trove in its own right, by a Victorian man of letters who was on intimate terms with writers including Dante Gabriel Rossetti, Walter Pater, and George Meredith - and the Fiona Macleod letters, which bring to life Sharp's intriguing "second self". With an introduction and detailed notes by William F. Halloran, this richly rewarding collection offers a wonderful insight into the literary landscape of the time, while also investigating a strange and underappreciated phenomenon of late-nineteenth-century English literature. It is essential for scholars of the period, and it is an illuminating read for anyone interested in authorship and identity. This historic book may have numerous typos and missing text. Excerpt: ... chapter X Later Poets in the expanding, heterogeneous America of the second half of the nineteenth century, poetry lost its clearly defined tendencies and became various and experimental. It did not cease to be provincial; for although no one region dominated as New England had dominated in the first half of the century, the provincial accent was as unmistakable, and the purely national accent as rare, as before. The East, rapidly becoming the so-called "effete East," produced a poetry to which the West was indifferent; the West, still the West of "carnivorous animals of a superior rank," produced a poetry that the cultivated classes of the East regarded as vulgar. In a broad way it may perhaps be said that the poetry of this period was dedicated either to beauty or to "life "; to a revered past, or to the present and the future; to the civilization of Asia and Europe, or to the ideals and manners of America, at least the West of America. The virtue of the poetry of beauty was its fidelity to a noble tradition, its repetition, with a difference, of familiar and justly approved types of beauty; its defect was mechanical repetition, petty embellishment. The virtue of the poetry of "life" was fidelity to experience, vitality of utterance; its defect, crudity, meanness, insensitiveness to fineness of feeling and beauty of expression. Where the poets are many and all are minor it is difficult to make a choice, but on the whole it seems that the outstanding poets of the East were Emily Dickinson, Aldrich, Bayard Taylor, R. H. Stoddard, Stedman, Gilder, and Hovey; and of the West, Bret Harte, Joaquin Miller, Sill, Riley, and Moody.¹ None of these has gained more with time than has Emily 'For the South, see Book iii, Chap. iv. Dickinson. Despite... This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. The period from the 1970s to the present day has produced an extraordinarily rich and diverse body of Caribbean writing that has been widely acclaimed. *Caribbean Literature in Transition, 1970-2020* traces the region's

contemporary writings across the established genres of prose, poetry, fiction and drama into emerging areas of creative non-fiction, memoir and speculative fiction with a particular attention on challenging the narrow canon of Anglophone male writers. It maps shifts and continuities between late twentieth century and early twenty-first century Caribbean literature in terms of innovations in literary form and style, the changing role and place of the writer, and shifts in our understandings of what constitutes the political terrain of the literary and its sites of struggle. Whilst reaching across language divides and multiple diasporas, it shows how contemporary Caribbean Literature has focused its attentions on social complexity and ongoing marginalizations in its continued preoccupations with identity, belonging and freedoms. The Cambridge History of Latin American Literature is by far the most comprehensive work of its kind ever written. Its three volumes cover the whole sweep of Latin American literature (including Brazilian) from pre-Colombian times to the present, and contain chapters on Latin American writing in the USA. Volume 3 is devoted partly to the history of Brazilian literature, from the earliest writing through the colonial period and the Portuguese-language traditions of the nineteenth and twentieth centuries; and partly also to an extensive bibliographical section in which annotated reading lists relating to the chapters in all three volumes of The Cambridge History of Latin American Literature are presented. These bibliographies are a unique feature of the History, further enhancing its immense value as a reference work. Volume 10, dedicated to 'Comedy, Irony, Parody', celebrates the first decade of Comparative Criticism in a light-hearted vein. Michael Silk opens with a wide-ranging essay asserting the primacy of comedy and declaring its independence of tragedy. T. L. S. Sprigge explores philosophers who dared to write on laughter: Schopenhauer and Bergson. Bernard Harrison looks at the twentieth century's favourite comic novel, Tristram Shandy, in the light of Locke's views on 'the particular'. Peter Brand pursues the theatrical arts of disguises, masking, and gender-swapping through Renaissance Europe, from Ariosto to Shakespeare. Jane H. M. Taylor traces the danse macabre in modern 'black humour'. Christine Brooke-Rose, distinguished novelist and critic, reads from and comments on her own witty fictions. Michael Wood describes how Lolita outwitted her seducer.
