Ethnicity, Identity and Public Policy David Bromell,2008 Should government adopt multiculturalism as public policy What is the role of the state in managing diversity Are all cultures of equal value And is ethnicity the difference that most matters In *Ethnicity Identity and Public Policy* David Bromell evaluates theory developed in other national contexts against challenges for public policy arising from ethno cultural diversity in New Zealand He concludes that this is a time to refine and complicate our thinking and that the task of developing normative theory in relation to diversity and public life is still a work in progress In Bromell s view New Zealand should endorse neither multiculturalism nor biculturalism as official public policy Instead he advocates safeguarding individual rights which all share equally and a restrained role for the state in managing diversity He argues that reducing inequalities ought to be a higher priority than recognising identities Overall Bromell urges the cultivation of citizen participation in deliberative democracy and seeks to inform and stimulate debate about big ideas and difficult questions for public policy This is a challenge for hearts as well as minds
