Relieving Pain in America Institute of Medicine, Board on Health Sciences Policy, Committee on Advancing Pain Research, Care, and Education, 2011-10-26 Chronic pain costs the nation up to 635 billion each year in medical treatment and lost productivity The 2010 Patient Protection and Affordable Care Act required the Department of Health and Human Services HHS to enlist the Institute of Medicine IOM in examining pain as a public health problem In this report the IOM offers a blueprint for action in transforming prevention care education and research with the goal of providing relief for people with pain in America To reach the vast multitude of people with various types of pain the nation must adopt a population level prevention and management strategy The IOM recommends that HHS develop a comprehensive plan with specific goals actions and timeframes Better data are needed to help shape efforts especially on the groups of people currently underdiagnosed and undertreated and the IOM encourages federal and state agencies and private organizations to accelerate the collection of data on pain incidence prevalence and treatments Because pain varies from patient to patient healthcare providers should increasingly aim at tailoring pain care to each person's experience and self management of pain should be promoted In addition because there are major gaps in knowledge about pain across health care and society alike the IOM recommends that federal agencies and other stakeholders redesign education programs to bridge these gaps Pain is a major driver for visits to physicians a major reason for taking medications a major cause of disability and a key factor in quality of life and productivity Given the burden of pain in human lives dollars and social consequences relieving pain should be a national priority

The 71F Advantage National Defense University Press, 2010-09 Includes a foreword by Major General David A Rubenstein From the editor 71F or 71 Foxtrot is the AOC area of concentration code assigned by the U S Army to the specialty of Research Psychology Qualifying as an Army research psychologist requires first of all a Ph D from a research not clinical intensive graduate psychology program Due to their advanced education research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain In terms of numbers the 71F AOC is a small one with only 25 to 30 officers serving in any given year However the 71F impact is much bigger than this small cadre suggests Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding preserving and enhancing the health well being morale and performance of Soldiers and military families As is clear throughout the pages of this book they do this in many ways and in many areas but always with a scientific approach This is the 71F advantage applying the science of psychology to understand the human dimension and developing programs policies and products to benefit the person in military operations This book grew out of the April 2008 biennial conference of U S Army Research Psychologists held in Bethesda Maryland This meeting was to be my last as Consultant to the Surgeon General for Research Psychology and I thought it would be a good idea to publish proceedings which had not been done before As Consultant I'd often wished for such a document to help explain to people what it is that

Army Research Psychologists do for a living In addition to our core group of 71Fs at the Bethesda 2008 meeting we had several brand new members and a number of distinguished retirees the grey beards of the 71F clan Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels with no sign of easing and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health well being and performance of Soldiers and their families

Seaburn, 2013-03-09 A family orientation in health care can provide a wider understanding of illness and a broader range of solutions than the classic biomedical model This volume thus offers practical guidance for the physician who would like to take greater advantage of this resource The result is a readable guide structured around step by step protocols that are vividly illustrated with case studies drawn from the authors extensive experience at the University of Rochester School of Medicine

Diagnostic Interviewing Michel Hersen, 2012-12-06 Over the years in our teaching of diagnostic interviewing to graduate students in clinical psychology psychology interns medical students and psychiatric residents we have searched for appropriate reading materials that encompass theoretical rationale clinical description and the pragmatics of how to However surprising as it may seem there is no one work that includes the theoretical the clinical and the practical under one cover This being the case we thought it would be useful to us in our pedagogic efforts if we could put together such a text And it is to this end that we developed the outline for our multiauthored text and presented it to Plenum Press for their review We felt then as we do now that the material in this book simply does not represent the cat being skinned in yet another way We sincerely believe that our students really do need this one and it is to them that we dedicate Diagnostic Interviewing Our book is divided into three parts In the first part General Issues basic interviewing strategies and the mental status examination are covered The bulk of the book Parts II and III is devoted to examination of diagnostic interviewing for the major psychiatric disorders and for special populations
