A fascinating history of the political theory of hegemony Few terms are so widely used in the literature of international relations and political science, with so little agreement about their exact meaning, as hegemony. In the first full historical study of its fortunes as a concept, Perry Anderson traces its emergence in Ancient Greece and its rediscovery during the upheavals of 1848-1849 in Germany. He then follows its checkered career in revolutionary Russia, fascist Italy, Cold War America, Gaullist France, Thatcher's Britain, post-colonial India, feudal Japan, Maoist China, eventually arriving at the world of Merkel and May, Bush and Obama. The result is a surprising and fascinating expedition into global intellectual history, ending with reflections on the contemporary political landscape. In the style and format of our alphabet books comes "H is for Horse: An Equestrian Alphabet". From basics such as mucking out the stall and how to judge a horse's qualities to historical facts on the Royal Canadian Mounted Police, Mike Ulmer relays the fun and fundamentals of the world of horses. Lush, detailed paintings by Gijsbert van Frankenhuyzen, whose work "School Library Journal" has described as 'luminous,' capture the beauty and magnificence of these creatures. What do women want? The same thing men were promised in the Declaration of Independence: happiness, or at least the freedom to pursue it. For women, though, pursuing happiness is a complicated endeavor, and if you head out into America and talk to women one-on-one, as Jill Filipovic has done, you'll see that happiness is indelibly shaped by the constraints of gender, the expectations of feminine sacrifice, and the myriad ways that womanhood itself differs along lines of race, class, location, and identity. In *The H-Spot*, Filipovic argues that the main

obstacle standing in-between women and happiness is a rigged system. In this world of unfinished feminism, men have long been able to "have it all" because of free female labor, while the bar of achievement for women has only gotten higher. Never before have women at every economic level had to work so much (whether it's to be an accomplished white-collar employee or just make ends meet). Never before have the standards of feminine perfection been so high. And never before have the requirements for being a "good mother" been so extreme. If our laws and policies made women's happiness and fulfillment a goal in and of itself, Filipovic contends, many of our country's most contentious political issues -- from reproductive rights to equal pay to welfare spending -- would swiftly be resolved. Filipovic argues that it is more important than ever to prioritize women's happiness-and that doing so will make men's lives better, too. Here, she provides an outline for a feminist movement we all need and a blueprint for how policy, laws, and society can deliver on the promise of the pursuit of happiness for all.

H. Beam Piper is one of science fiction's most enigmatic writers. In 1946 Piper appeared seemingly from out of nowhere, already at the top of his form. He published a number of memorable short stories in the premier science fiction magazine of the time, *Astounding Science Fiction*, under legendary editor John W. Campbell. Piper quickly became friends with many of the top writers of the day, including Lester Del Rey, Fletcher Pratt, Robert Heinlein and L. Sprague de Camp. Piper also successfully made the turn from promising short story writer to major novelist, authoring *Four-Day Planet*, *Cosmic Computer*, *Lord Kalvan of Otherwhen* and *Little Fuzzy*, which was nominated for a Hugo award. Even those who counted Piper among their friends knew very little about the man or his life as a railroad yard bull in Altoona, Pennsylvania. This biography illuminates H. Beam Piper, both the writer and the man, and answers lingering questions about his death. Appendices include a number of Piper's personal papers, a complete bibliography of

Piper's works, and an essay on Piper's Terro-Human Future History series. New York Times Bestseller: This account of adopting and raising a vicious bird of prey while grieving a father's death is "a soaring wonder of a book" (The Boston Globe). One of the New York Times Book Review's 100 Best Books of the 21st Century One of Slate's 50 Best Nonfiction Books of the Last 25 Years Time's #1 Nonfiction Book of the Year An instant classic and award-winning sensation, Helen Macdonald's story of adopting and raising one of nature's most vicious predators has soared into the hearts of millions of readers worldwide. Fierce and feral, her goshawk Mabel's temperament mirrors Helen's own state of grief after her father's death, and together raptor and human "discover the pain and beauty of being alive" (People). H Is for Hawk is a genre-defying debut from a unique and transcendent voice. "Her prose glows and burns." —The Wall Street Journal "An elegantly written amalgam of nature writing, personal memoir, literary portrait, and an examination of bereavement." —The Washington Post "Breathtaking . . . Macdonald renders an indelible impression of a raptor's fierce essence—and her

own—with words that mimic feathers, so impossibly pretty we don't notice their astonishing engineering.” —The New York Times Book Review Named a Best Book of the Year by NPR, O, The Oprah Magazine, Vogue, Vanity Fair, Washington Post, Boston Globe, Chicago Tribune, Seattle Times, San Francisco Chronicle, Miami Herald, St. Louis Post Dispatch, Minneapolis Star Tribune, Library Journal, Publishers Weekly, Kirkus Reviews, Slate, Shelf Awareness, Book Riot Restoring a gifted art photographer to his place in the American canon and, in the process, reshaping and expanding our understanding of early 20th-century American photography Clarence H. White (1871-1925) was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo-Secession. This beautiful publication offers a new appraisal of White's contributions, including his groundbreaking aesthetic experiments, his commitment to the ideals of American socialism, and his embrace of the expanding fields of photographic book and fashion illustration, celebrity portraiture, and advertising. Based on extensive archival research, the book challenges the idea of an abrupt rupture between prewar, soft-focus idealizing photography and postwar “modernism” to paint a more nuanced picture of American culture in the Progressive era. Clarence H. White and His World begins with the artist's early work in Ohio, which shares with the nascent Arts and Crafts movement the advocacy of hand production, closeness to nature, and the simple life. White's involvement with the Photo-Secession and his move to New York in 1906 mark a shift in his production, as it grew to encompass commercial portraiture and an increasing commitment to teaching, which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography. The book also incorporates new formal and scientific analysis of White's work and techniques, a complete exhibition record, and many unpublished illustrations of the moody outdoor scenes and quiet images

of domestic life for which he was revered. 89 Reprint of the original, first published in 1871. The publishing house Anatiposi publishes historical books as reprints. Carson's depth of knowledge about Greek mythology coupled with her poetic sensibility and illustrations is sure to breathe new life into this oft-told story.' Lit Hub H of H Playbook is an explosion of thought, in drawings and language, about a Greek tragedy called Herakles by the 5th-century BC poet Euripides. In myth Herakles is an embodiment of manly violence who returns home after years of making war on enemies and monsters (his famous "Labours of Herakles") to find he cannot adapt himself to a life of peacetime domesticity. He goes berserk and murders his whole family. Suicide is his next idea. Amazingly, this does not happen. Due to the intervention of his friend Theseus, Herakles comes to believe he is not, after all, indelibly stained by his own crimes, nor is his life without value. It remains for the reader to judge this redemptive outcome. "I think there is no such thing as an innocent landscape," said Anselm Kiefer, painter of forests grown tall on bones. A little boy fills his sound box with words beginning with the letter "h." Volume 72, Peptide Solvation and H-bonds, addresses the role of peptide backbone solvation in the energetics of protein folding. Particular attention is focused on modeling and computation. This volume will be of particular interest to biophysicists and structural

biologists. Challenges the longstanding and basic assumptions of structural biology Discusses how to solve the problem of protein structure prediction Addresses the quantitation of the energetics of folding #1 NEW YORK TIMES BESTSELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—"in losing her mother and cooking to bring her back to life, Zauner became herself" (NPR). • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BESTSELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread. An  $H(b)$  space is defined as a collection of analytic functions that are in the image of an operator. The theory of  $H(b)$  spaces bridges two classical subjects, complex analysis and operator theory, which makes it both appealing and demanding. Volume 1 of this comprehensive treatment is devoted to the preliminary subjects

required to understand the foundation of  $H(b)$  spaces, such as Hardy spaces, Fourier analysis, integral representation theorems, Carleson measures, Toeplitz and Hankel operators, various types of shift operators and Clark measures. Volume 2 focuses on the central theory. Both books are accessible to graduate students as well as researchers: each volume contains numerous exercises and hints, and figures are included throughout to illustrate the theory. Together, these two volumes provide everything the reader needs to understand and appreciate this beautiful branch of mathematics. It has been said that *M\*A\*S\*H* was a show set in the 1950s which reflected the shifting values of the 1970s and early 1980s. Hawkeye Pierce, Radar O'Reilly, Trapper John McIntyre, Sherman Potter, Margaret (Hot Lips) Houlihan, B.J. Hunnicutt, Frank Burns, Charles Emerson Winchester, Max Klinger--these and the many other characters who populated the *MASH* 4077 used the Korean War as a backdrop to comment on many of the social issues of their day. Using a unique blend of comedy and drama, the show's first three seasons (1972-1975) focused on the anti-Vietnam War sentiment that consumed much of America. As Vietnam ended, *M\*A\*S\*H* moved on to concentrate on other contemporary issues--the women's movement, the rise of the religious right in American politics, the new narcissism that marked the early 1980s, the heightened awareness of underage or excessive alcohol use, and the increased emphasis on family in American life. How the series presented these issues and its success in doing so are the subjects of this critical study. An episode listing--brief plot outline, casts and credits, air dates, and titles--is also provided.
