Roberts Revival Manual

Manual of Classical Literature Johann Joachim Eschenburg, 1843 Hittin' the Prayer Bones Anderson Blanton, 2015-07-29 In this work Anderson Blanton illuminates how prayer faith and healing are intertwined with technologies of sound reproduction and material culture in the charismatic Christian worship of southern Appalachia From the radios used to broadcast prayer to the curative faith cloths circulated through the postal system material objects known as spirit matter have become essential since the 1940s Blanton argues to the Pentecostal community s understanding and performances of faith Hittin the Prayer Bones draws on Blanton s extensive site visits with church congregations radio preachers and their listeners inside and outside the broadcasting studios and more than thirty years of recorded charismatic worship made available to him by a small Christian radio station In documenting the transformation and consecration of everyday objects through performances of communal worship healing prayer and chanted preaching Blanton frames his ethnographic research in the historiography of faith healing and prayer as well as theoretical models of materiality and transcendence At the same time his work affectingly conveys the feelings of horror healing and humor that are unleashed in practitioners as they experience in their own words the sacred healing presence of the Holy Ghost Manual of Classical Literature. From the German, with Additions by N. W. Fiske. Third Edition Johann Joachim ESCHENBURG, 1844 Radio Fields Lucas Bessire, Daniel Fisher, 2012-11-19 Radio is the most widespread electronic medium in the world today As a form of technology that is both durable and relatively cheap radio remains central to the everyday lives of billions of people around the globe It is used as a call for prayer in Argentina and Appalachia to organize political protest in Mexico and Libya and for wartime communication in Iraq and Afghanistan In urban centers it is played constantly in shopping malls waiting rooms and classrooms Yet despite its omnipresence it remains the media form least studied by anthropologists Radio Fields employs ethnographic methods to reveal the diverse domains in which radio is imagined deployed and understood Drawing on research from six continents the volume demonstrates how the particular capacities and practices of radio provide singular insight into diverse social worlds ranging from aboriginal Australia to urban Zambia Together the contributors address how radio creates distinct possibilities for rethinking such fundamental concepts as culture communication community and collective agency **The Revival of 1857-58** Kathryn Teresa Long, 1998-07-02 This book provides a fresh in depth examination of the Revival of 1857 58 a widespread religious awakening most famous for urban prayer meetings in major metropolitan centers across the United States Often mentioned in religious history texts and articles but overshadowed by scholarly attention to the first and second Great Awakenings the revival has lacked a critical book length analysis This study will help to fill this gap and to place the event within the context of Protestant revival traditions in America The Revival of 1857 58 was a multifaceted religious movement that Long suggests may have been the closest thing to a truly national

revival in American history The awakening marked the coming together of formalist and populist evangelical groups particularly in urban areas and helped to create the beginnings of a transdenominational religious identity among middle class American evangelicals Long explores the revival from various angles emphasizing the importance of historiography and examining the way Calvinist clergy and the editors of the daily press canonized particular versions of the revival story most notably its role in the history of great awakenings and its character as a masculine businessmen s revival She gives attention to grassroots perspectives on the awakening and also pursues wider social and cultural questions including whether the revival actually affected evangelical involvement in social reform The book combines insights from contemporary scholarship concerning revivals women s history and nineteenth century mass print with extensive primary source research The result is a clearly written study that blends careful description with nuanced analysis

Great Awakenings David Horn,Gordon L. Isaac,2022-05-03 This book is an engaging look at spiritual awakenings that have happened in the church throughout history It examines how these extraordinary movements of God translate into the larger cultural analysis of today Spiritual awakenings have refreshed the people of God from the very origins of the church What about these past movements can be instructive for the church today Can we expect God s awakening presence in our day These questions brought about the Surprising Work of God Conference in the fall of 2015 in which speakers traced awakening movements from the Old and New Testaments to the present day Great Awakenings represents the culmination of this conference as the collected works of notable speakers Chapters address questions about spiritual awakenings through historical theological and sociological lenses They look at the events that precipitated these awakenings evaluating whether their causes were purely religious or otherwise and finally suggest what about the awakenings is normative for the church today
