The book begins by examining key mistakes teachers make in the 'direct realm' - i.e. when interacting face-to-face with students. These first three chapters cover rapport-building, active-engagement and behavior management as it applies in a high-school setting. Following this, the book expansively covers a range of tips, techniques and tools to engage advanced, exam-level learners and to effectively enhance the teaching process via the use of technology. The book concludes with an often overlooked sphere of teaching: how to work effectively with colleagues and parents (very powerful when strategized correctly). Bonus material on the unique challenges of teaching overseas is provided in a plenary chapter. This edition of the book has been exhaustively proofread and indexed, and is of a much-higher quality than can be attributed to the First and Second editions.
