Look, I was doing OK. I got through the oil spill on the road that is turning forty. Lost a little control, but I drove into the skid just like the driving instructors tell you to and afterwards things were fine again, no, really, they were better than fine. Kate Reddy had it all: a nice home, two adorable kids, a good husband. Then her kids became teenagers (read: monsters). Richard, her husband, quit his job, taking up bicycling and therapeutic counseling: drinking green potions, dressing head to toe in Lycra, and spending his time—and their money—on his own therapy. Since Richard no

longer sees a regular income as part of the path to enlightenment, it's left to Kate to go back to work. Companies aren't necessarily keen on hiring 49-year-old mothers, so Kate does what she must: knocks a few years off her age, hires a trainer, joins a Women Returners group, and prepares a new resume that has a shot at a literary prize for experimental fiction. When Kate manages to secure a job at the very hedge fund she founded, she finds herself in an impossible juggling act: proving herself (again) at work, dealing with teen drama, and trying to look after increasingly frail parents as the clock keeps ticking toward her 50th birthday. Then, of course, an old flame shows up out of the blue, and Kate finds herself facing off with everyone from Russian mobsters to a literal stallion. Surely it will all work out in the end. After all, how hard can it be? Hilarious and poignant, *How Hard Can It Be?* brings us the new adventures of Kate Reddy, the beleaguered heroine of Allison Pearson's groundbreaking New York Times bestseller *I Don't Know How She Does It*. An ideal introductory text covering all the key skills a criminology student needs to succeed in their degree. Includes topics on finding and using sources such as legislation, thinking critically about criminological theory, referencing and avoiding plagiarism, preparing for exams, planning a research project, and ethical considerations. Returning home to rethink her life, she bonds with her father Jack over discussions about the lives, loves and works of the novelists on their shared reading list a€" Wharton, Joyce, Woolf and Atwood, to name a few. But when their conversations about literature unearth some heartbreaking, deeply buried family secrets surrounding Jacka€(TM)s own childhood a€" growing up Japanese-Canadian in the aftermath of World War II a€" Lesliea€(TM)s world is changed forever. Could discovering the truth about her fathera€(TM)s past hold the key to her finally being happy in love, life and career? "The Reading List" reveals how literature can sometimes help us expose our past, understand our loved ones and point us toward our future. Effective dropout prevention strategies for educators! Excerpt: ... give a considerable portion of their space to serial stories written for young people. Between good "juveniles " and good books for grown persons there is not much essential difference. Anyone who is old enough to make out the words can safely enter the large world of the English and American novel. The chances of encountering the few that are unfit for the young are slight. Ruskin in his essay " Of Queens' Gardens," which treats of the education of girls, says: "Whether novels, or poetry, or history be read, they should be chosen, not for what is out of them but for what is in them. The chance and scattered evil that may here and there haunt, or hide itself in, a powerful book, never does any harm to a noble girl; but the emptiness of an author oppresses her, and his amiable folly degrades her." A novel in our language that has been read and freely talked of for many years is as safe as a church; and there are enough such novels to keep one happily occupied during all the hours one can give to reading fiction to the end of one's days. LIST OF FICTION Supplementary to Chapter IV The following list of novels, tales, and prose dramas is offered to the young reader by way of suggestion and not as a "prescribed" list. Like the other lists in this book it omits many masterpieces that will occur immediately to the mind of the older reader, and it includes some books that are not masterpieces. The notes, or " evaluations" as the librarians call them, are arbitrary, indicating the private opinions of the present Guide; they are sometimes extensive in the case of less important writers and are omitted in the cases of the great masters. The way to use the list is to run over it from time to time until you form a bowing acquaintance with the names...
