An Outline of United States History (Classic Reprint) W. D. Struble,2016-10-13 Excerpt from An Outline of United States History The old method of teaching history by as signing a certain number of pages in the text book to be memorized is we are glad to be able to say pretty generally a thing of the past having been discarded by all progressive educators The topical method has found favor because it is the method which devel ops the student s individuality and makes it possible for him to compare the views of differ ent authors thus doing away with the diffi culty some teachers experience from diversity of text books It is the best because it teaches the pupil to think and compare as well as to remember facts When carried to its full de velopment the topical method becomes the outline method which combines with the ads vantages possessed by the topical method many which it does not possess About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Methods and Outlines in United States History J. A. Joseph, 2015-06-16 Excerpt from Methods and Outlines in United States History If the present is the fruit of the past there is no more valuable study than history But the value depends so much upon the method of study and the means of presenting it It is impossible to secure a correct comparative value of any study for one teacher will make it of a much more or less value than another But studies do have an inherent value Arithmetic develops the mind in a certain way and has a certain purpose The same is true of geography or history The teacher ought first ask himself why do we study this subject or that one Where does it most naturally apply and how may it be best applied In teaching a subject then I would consider the two parts first value second methods or why first and how second About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
