Bien Dit! Holt Rinehart and Winston, 2007-04-30 *Bien Dit!*, 2008 *Bien Dit! 3* John DeMado, Séverine Champeny, Marie Ponterio, Robert Ponterio, 2013 *Hotel Trópico* Jerry Dávila, 2010-08-03 In the wake of African decolonization Brazil attempted to forge connections with newly independent countries In the early 1960s it launched an effort to establish diplomatic ties with Africa in the 1970s it undertook trade campaigns to open African markets to Brazilian technology *Hotel Trópico* reveals the perceptions particularly regarding race of the diplomats and intellectuals who traveled to Africa on Brazil's behalf Jerry Dávila analyzes how their actions were shaped by ideas of Brazil as an emerging world power ready to expand its sphere of influence of Africa as the natural place to assert that influence given its historical slave trade ties to Brazil and of twentieth century Brazil as a racial democracy a uniquely harmonious mix of races and cultures While the experiences of Brazilian policymakers and diplomats in Africa reflected the logic of racial democracy they also exposed ruptures in this interpretation of Brazilian identity Did Brazil share a lusotropical identity with Portugal and its African colonies so that it was bound to support Portuguese colonialism at the expense of Brazil's ties with African nations Or was Brazil a country of Africans of every color compelled to support decolonization in its role as a natural leader in the South Atlantic Drawing on interviews with retired Brazilian diplomats and intellectuals Dávila shows the Brazilian belief in racial democracy to be about not only race but also Portuguese ethnicity **Is That a Fish in Your Ear?** David Bellos, 2011-10-11 A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages and always have The Ancient Greeks took no notice of anything unless it was said in Greek the Romans made everyone speak Latin and in India people learned their neighbors languages as did many ordinary Europeans in times past Christopher Columbus knew Italian Portuguese and Castilian Spanish as well as the classical languages But today we all use translation to cope with the diversity of languages Without translation there would be no world news not much of a reading list in any subject at college no repair manuals for cars or planes we wouldn't even be able to put together flat pack furniture *Is That a Fish in Your Ear* ranges across the whole of human experience from foreign films to philosophy to show why translation is at the heart of what we do and who we are Among many other things David Bellos asks What's the difference between translating unprepared natural speech and translating *Madame Bovary* How do you translate a joke What's the difference between a native tongue and a learned one Can you translate between any pair of languages or only between some What really goes on when world leaders speak at the UN Can machines ever replace human translators and if not why But the biggest question Bellos asks is this How do we ever really know that we've understood what anybody else says in our own language or in another Surprising witty and written with great *joie de vivre* this book is all about how we comprehend other people and shows us how ultimately translation is another name for the human condition *Russian Stage One--Live from*

Globalizing Race Dorian Bell, 2018-04-15 *Globalizing Race* explores how intersections between French antisemitism and imperialism shaped the development of European racial thought Ranging from the African misadventures of the antisemitic Marquis de Mor s to the Parisian novels and newspapers of late nineteenth century professional antisemites Dorian Bell argues that France s colonial expansion helped antisemitism take its modern racializing form and that conversely antisemitism influenced the elaboration of the imperial project itself *Globalizing Race* radiates from France to place authors like Guy de Maupassant and mile Zola into sustained relation with thinkers from across the ideological spectrum including Hannah Arendt Friedrich Nietzsche Frantz Fanon Karl Marx Max Horkheimer and Theodor Adorno Engaging with what has been called the spatial turn in social theory the book offers new tools for thinking about how racisms interact across space and time Among these is what Bell calls racial scalarity *Race* Bell argues did not just become globalized when European racism and antisemitism accompanied imperial penetration into the farthest reaches of the world Rather race became most thoroughly global as a method for constructing and negotiating the different scales national global etc necessary for the development of imperial capitalism As France Europe and the world confront a rising tide of Islamophobia *Globalizing Race* also brings into fascinating focus how present day French responses to Muslim antisemitism hark back to older problematic modes of representing the European colonial periphery The Violence of Modernity Debarati Sanyal, 2020-03-03 *The Violence of Modernity* turns to Charles Baudelaire one of the most canonical figures of literary modernism in order to reclaim an aesthetic legacy for ethical inquiry and historical critique Works of modern literature are commonly theorized as symptomatic responses to the trauma of history In a climate that tends to privilege crisis over critique Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential Examining Baudelaire s poems afresh she shifts the focus of critical attention toward an account of modernism as an active engagement with violence specifically the violence of history in nineteenth century France Sanyal analyzes a literary current that uses the traditional hallmarks of modernism irony intertextuality self reflexivity and formalism to challenge the historical violence of modernity Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history and thereby to challenge the melancholy tenor of our contemporary wound culture In a series of provocative readings Sanyal presents Baudelaire s poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity counterviolence and critique The book develops a new account of Baudelaire s significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art s sake and from his more recent incarnation as the poet of trauma Following her extended analysis of Baudelaire s poetry Sanyal in later chapters considers a number of authors influenced by his strategies including Rachilde Virginie Despentes Albert Camus and Jean Paul Sartre to examine the

relevance of their interventions for our current climate of trauma and terror The result is a study that underscores how Baudelaire s legacy continues to energize literary engagements with the violence of modernity

Monarchy Transformed Robert von Friedeburg,John Morrill,2017-08-17 Until the 1960s it was widely assumed that in Western Europe the New Monarchy propelled kingdoms and principalities onto a modern nation state trajectory John I of Portugal 1358 1433 Charles VII 1403 1461 and Louis XI 1423 1483 of France Henry VII and Henry VIII of England 1457 1509 1509 1553 Isabella of Castile 1474 1504 and Ferdinand of Aragon 1479 1516 were by improving royal administration by bringing more continuity to communication with their estates and by introducing more regular taxation all seen to have served that goal In this view princes were assigned to the role of developing and implementing the sinews of state as a sovereign entity characterized by the coherence of its territorial borders and its central administration and government They shed medieval traditions of counsel and instead enforced relations of obedience toward the emerging state Provided by publisher
