African Fractals Ron Eglash,1999 Fractals are characterized by the repetition of similar patterns at ever diminishing scales Fractal geometry has emerged as one of the most exciting frontiers on the border between mathematics and information technology and can be seen in many of the swirling patterns produced by computer graphics It has become a new tool for modeling in biology geology and other natural sciences Anthropologists have observed that the patterns produced in different cultures can be characterized by specific design themes In Europe and America we often see cities laid

out in a grid pattern of straight streets and right angle corners In contrast traditional African settlements tend to use fractal structures circles of circles of circular dwellings rectangular walls enclosing ever smaller rectangles and streets in which broad avenues branch down to tiny footpaths with striking geometric repetition These indigenous fractals are not limited to architecture their recursive patterns echo throughout many disparate African designs and knowledge systems Drawing on interviews with African designers artists and scientists Ron Eglash investigates fractals in African architecture traditional hairstyling textiles sculpture painting carving metalwork religion games practical craft quantitative techniques and symbolic systems He also examines the political and social implications of the existence of African fractal geometry His book makes a unique contribution to the study of mathematics African culture anthropology and computer simulations Seriously Cheating Editors of True Story and True Confessio,2019-05-27 Everyone cheats these days well maybe we just hear about it more now and what happens when they re caught All have their different excuses for cheating maybe it s boredom it could be revenge or just plain low self esteem however many times it s used as the reason to end a relationship This collection of stories is worth the reading for its insights on cheaters and how their experience changed their lives forever Stories include 9 Reasons Why I Cheat Serial Cheater Cheating Ruined Our Lives After He Cheats Cheating How I Stopped My Husband My Husband s a Cheater His Cheating Saved Our Marriage And more Excerpt She pulled me to her and gave me a deep kiss She d taken me by surprise so it was hard for me to break away from her Even more surprising was the fact that I wasn t sure if I wanted to She kissed my face and neck then sat me on the bed where she gave me a private dance Not only was Terri a fantastic kisser she gave one heck of a lap dance I closed my eyes and imagined that Brenda was giving me the thrill of a lifetime Before I knew it my body betrayed me **Numerical Methods for Engineers** Santosh Gupta,2012-09 Numerical techniques required for all engineering disciplines explained Necessary amount of elementary material included Difficult concepts explained with solved examples Some equations solved by different techniques for wider exposure An extensive set of graded problems with hints included Women of Owu Femi Osofisan,2006 This is an African retelling of Euripides an unnervingly topical story of a people and a beloved city destroyed by the brutality of war The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike and subsequently toured the UK **France-Afrique** Jean de Grandsaigne,1979
