Learning in the Fast Lane Suzy Pepper Rollins, 2014-04-10 Too often students who fail a grade or a course receive remediation that ends up widening rather than closing achievement gaps. According to veteran classroom teacher and educational consultant Suzy Pepper Rollins, the true answer to supporting struggling students lies in acceleration. In *Learning in the Fast Lane*, she lays out a plan of action that teachers can use to immediately move underperforming students in the right direction and differentiate instruction for all learners, even those who excel academically. This essential guide identifies eight high-impact, research-based instructional approaches that will help you: Make standards and learning goals explicit to students; Increase students' vocabulary, a key to their academic success; Build students' motivation and self-efficacy so that they become active, optimistic participants in class; Provide rich, timely feedback that enables students to improve when it counts; Address skill and knowledge gaps within the context of new learning. Students deserve no less than the most effective strategies available. These hands-on, ready-to-implement practices will enable you to provide all students with compelling, rigorous, and engaging learning experiences.

The Advanced Reading-writing Connection John Langan, 2014 The Advanced Reading Writing Connection will help you become a more effective reader and writer. You will learn in a nutshell that good readers 1 recognize a main point and 2 recognize the support for that point and that good writers 1 make a point and 2 support the point.

It reveals the importance of story, emotion, memory, context, and routine in building knowledge and creating lasting learning experiences.
