The Multiple Worlds of Pynchon's Mason & Dixon Elizabeth Jane Wall Hinds, 2009 New essays examining the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past Thomas Pynchon's 1997 novel *Mason Dixon* went further using the same style wit and erudition to re create an 18th century when America was being formed as both place and idea Pynchon's focus on the creation of the Mason Dixon Line and the governmental and scientific entities responsible for it makes a clearer statement than any of his previous novels about the slavery and imperialism at the heart of the Enlightenment as he levels a dark and hilarious critique at this America This volume of new essays studies the interface between 18th and 20th century culture both in Pynchon's novel and in the historical past It offers fresh thinking about Pynchon's work as the contributors take up the linkages between the 18th and 20th centuries in studies that are as concerned with culture as with the literary text itself Contributors Mitchum Huehls Brian Thill Colin Clarke Pedro Garcia Caro Dennis Lensing Justin M Scott Coe Ian Copestake Frank Palmeri Elizabeth Jane Wall Hinds is Professor and Chair of the English Department at SUNY Brockport

America Again Stephen Colbert, 2012-10-02 Book store nation in the history of mankind there has never been a greater country than America You could say we're the 1st nation at being the best at greatness But as perfect as America is in every single way America is broken And we can't exchange it because we're 236 years past the 30 day return window Look around we don't make anything anymore we've mortgaged our future to China and the Apologist in Chief goes on world tours just to bow before foreign leaders Worse than the L.A. Four Seasons Hotel doesn't even have a dedicated phone button for the Spa You have to dial an extension Where did we lose our way It's high time we restored America to the greatness it never lost Luckily *America Again* will singlebookedly pull this country back from the brink It features everything from chapters to page numbers to fonts Covering subjects ranging from healthcare I shudder to think where we'd be without the wide variety of prescription drugs to treat our maladies such as think shuddering to the economy Life is giving us lemons and we're shipping them to the Chinese to make our lemon flavored leadonade to food Feel free to deep fry this book it's a rich source of fiber Stephen gives America the dose of truth it needs to get back on track

You Can't Say That! David E. Bernstein, 2003-10-25 In a misguided attempt to eradicate every vestige of discrimination in our society activists and courts are using antidiscrimination laws to erode civil liberties such as free speech the free exercise of religion and freedom of association Civil rights laws today are being applied in ways that threaten free speech on campus and in the workplace the right of local community activists to speak out against government policies the rights of private associations such as the Boy Scouts to determine their membership policies and even the rights of individuals to choose their roommates

The American Political Tradition and the Men who Made it Richard Hofstadter, 1973 Originally published New York Knopf 1948

Democracy in America (Complete) Alexis de Tocqueville, 2020-09-28 Amongst the novel objects that attracted my attention during my stay in the United States nothing struck me more forcibly than the general equality of conditions I readily discovered the prodigious influence which this primary fact exercises on the whole course of society by giving a certain direction to public opinion and a certain tenor to the laws by imparting new maxims to the governing powers and peculiar habits to the governed I speedily perceived that the influence of this fact extends far beyond the political character and the laws of the country and that it has no less empire over civil society than over the Government it creates opinions engenders sentiments suggests the ordinary practices of life and modifies whatever it does not produce The more I advanced in the study of American society the more I perceived that the equality of conditions is the fundamental fact from which all others seem to be derived and the central point at which all my observations constantly terminated I then turned my thoughts to our own hemisphere where I imagined that I discerned something analogous to the spectacle which the New World presented to me I observed that the equality of conditions is daily progressing towards those extreme limits which it seems to have reached in the United States and that the democracy which governs the American communities appears to be rapidly rising into power in Europe I hence conceived the idea of the book which is now before the reader It is evident to all alike that a great democratic revolution is going on amongst us but there are two opinions as to its nature and consequences To some it appears to be a novel accident which as such may still be checked to others it seems irresistible because it is the most uniform the most ancient and the most permanent tendency which is to be found in history Let us recollect the situation of France seven hundred years ago when the territory was divided amongst a small number of families who were the owners of the soil and the rulers of the inhabitants the right of governing descended with the family inheritance from generation to generation force was the only means by which man could act on man and landed property was the sole source of power Soon however the political power of the clergy was founded and began to exert itself the clergy opened its ranks to all classes to the poor and the rich the villein and the lord equality penetrated into the Government through the Church and the being who as a serf must have vegetated in perpetual bondage took his place as a priest in the midst of nobles and not infrequently above the heads of kings The different relations of men became more complicated and more numerous as society gradually became more stable and more civilized Thence the want of civil laws was felt and the order of legal functionaries soon rose from the obscurity of the tribunals and their dusty chambers to appear at the court of the monarch by the side of the feudal barons in their ermine and their mail Whilst the kings were ruining themselves by their great enterprises and the nobles exhausting their resources by private wars the lower orders were enriching themselves by commerce The influence of money began to be perceptible in State affairs The transactions of business opened a new road to power and the financier rose to a station of political influence in which he was at once flattered and despised Gradually the spread of mental acquirements and the increasing taste for literature and art opened chances of success to talent science became a means of government intelligence led to social power and the man of letters took a part in the affairs of the State The value attached to the privileges of birth decreased in the exact proportion in which new paths were struck out to advancement In the eleventh century nobility was beyond all price in the thirteenth it might be purchased it was conferred for the first time in 1270 and equality was thus introduced into the Government by the aristocracy itself

Inequality of Opportunity Juan Gabriel Rodríguez, 2011-10-12 Eight papers, both theoretical and applied, on the concept of equality of opportunity, which says that a society should guarantee its members equal access to advantage regardless of their circumstances while holding them responsible for turning that access into actual advantage by the application of effort.

The Lines Between Us Lawrence Lanahan, 2019-05-21 A masterful narrative with echoes of *Evicted* and *The Color of Law* that brings to life the structures, policies, and beliefs that divide us. Mark Lange and Nicole Smith have never met, but if they make the moves they are contemplating, Mark, a white suburbanite from West Baltimore, and Nicole, a Black woman from a poor city neighborhood to a prosperous suburb, it will defy the way the Baltimore region has been programmed for a century. It is one region but separate worlds. And it was designed to be that way. In this deeply reported, revelatory story, duPont Award-winning journalist Lawrence Lanahan chronicles how the region became so highly segregated and why its fault lines persist today. Mark and Nicole personify the enormous disparities in access to safe housing, educational opportunities, and decent jobs. As they eventually pack up their lives and change places, bold advocates and activists in the courts and in the streets struggle to figure out what it will take to save our cities and communities. Put money into poor, segregated neighborhoods. Make it possible for families to move into areas with more opportunity. *The Lines Between Us* is a riveting narrative that compels reflection on America's entrenched inequality and on where the rubber meets the road, not in the abstract but in our own backyards. Taking readers from church sermons to community meetings to public hearings to protests to the Supreme Court to the death of Freddie Gray, Lanahan deftly exposes the intricacy of Baltimore's hypersegregation through the stories of ordinary people living it, shaping it, and fighting it day in and day out. This eye-opening account of how a city creates its Black and white places, its rich and poor spaces, reveals that these problems are not intractable but they are designed to endure until each of us, despite living in separate worlds, understands we have something at stake.
