***the civil rights movements such as Ella Baker, who helped found the Student Non-Violent Coordinating Committee, Fannie Lou Hamer, a sharecropper who took on segregation in the Democratic party (and won), and Septima Clark, who created a network of "Citizenship Schools" to teach poor Black men and women to read and write and help them to register to vote. We learn of Black women's activism in the Black Panther Party where they fought the police, as well as the entrenched male leadership, and the Southern Christian Leadership Conference, where the behind-the-scenes work of women kept the organization afloat when it was under siege. It also includes first-person testimonials from the women who made headlines with their courageous resistance to segregation—Rosa Parks, Charlayne Hunter-Gault, and Dorothy Height. This collection represents the coming of age of African-American women's history and presents new stories that point the way to future study. Anthropology is usually associated with the study of society, but the anthropologist must also understand people as individuals. This highly original study demonstrates how methods of social analysis can be applied to the individual, while remaining entirely distinct from psychology and other perspectives on the person. Contributors draw on approaches from material culture to create fascinating portraits of individuals, offering analytical insights that convey ethnographic encounters with often extraordinary people from Turkey, Spain and Britain to***

***Albania, Cuba, Jamaica, Mali, Serbia and Trinidad. Exploring relationships to places and spaces such as social networking sites, to persons such as parents, to ethical concerns such as fairness and to concepts such as the ideology of struggle, Anthropology and the Individual shows how the study of the individual can provide insights into society without losing a sense of the particularity of the person. Transformative learning involves experiencing a deep, structural shift in the basic premises of thought, feelings, and actions. It is a shift of consciousness that dramatically and permanently alters our way of being in the world. Such a shift involves our understanding of ourselves and our self-locations; our relationships with other humans and with the natural world; our understanding of relations of power in interlocking structures of class, race and gender; our body awarenesses; our visions of alternative approaches to living; and our sense of possibilities for social justice and peace and personal joy. The editors of this collection make several challenges to the existing field of transformative learning - the first is to theoreticians, who have attempted to describe the nature of transformative learning without regard to the content of transformative learning. The editors argue that transformative learning theory cannot be constructed in a content-neutral or context-free way. Their second challenge, which assumes the importance content for transformative learning, is to educators as practitioners. The editors argue that transformative learning requires new educational practices consistent with the content. Arts-based research and arts-based teaching/learning practices are one example of such new educational practices. Education for the soul, or spiritual practices such as meditation or modified martial arts or indigenous peoples' forms of teaching/learning, is another***

Many of these conflicts are fought not only in politics but also in the courts, as activists attempt to hold corporate and state actors liable for human rights violations. Overall, after a thorough review process, there were 31 full papers selected from a total of 60 submissions. This work documents the importance of the civil rights movement and its lasting impression on American society and culture. This revealing volume looks at the struggle for individual rights from the social historian's perspective, providing a fresh context for gauging the impact of the civil rights movement on everyday life across the full spectrum of American society.***

***From the landmark Brown v. Board of Education case to protests against the Vietnam War to the fight for black power, Civil Rights Movement: People and Perspectives looks at events that set the stage for guaranteeing America's promise to all Americans. In eight chapters, some of the country's leading social historians analyze the most recent investigations into the civil rights era's historical context and pivotal moments. Readers will gain a richer understanding of a movement that expanded well beyond its initial focus (the treatment of African Americans in the South) to include other Americans in regions across the nation. New in the Little People, Big Dreams series, discover the incredible life of Rosa Parks, 'The Mother of the Freedom Movement', in this inspiring story. In this true story of an inspiring civil rights activist, Rosa Parks grew up during segregation in Alabama, but she was taught to respect herself and stand up for her rights. In 1955, Rosa refused to give up her seat to a white man on a segregated bus, sparking the Montgomery Bus Boycott. Her decision had a huge impact on civil rights, eventually leading to the end of segregation on public transport. With stylish and quirky illustrations and extra facts at the back, this empowering series celebrates the important life stories of wonderful women of the world. From designers and artists to scientists, all of them went on to achieve incredible things, yet all of them began life as a little child with a dream. These books make the lives of these role models accessible for children, providing a powerful message to inspire the next generation of outstanding people who will change the world! "Teachers will welcome [this treatment of]...a simple, clear biography of Rosa Parks...The male narrator reads clearly and unemotionally, presenting the facts as Adler reports them...A good addition to collections." -***

Civil rights activist Septima Poinsette Clark (1898-1987) developed a citizenship education program that enabled tens of thousands of African Americans to register to vote and to link the power of the ballot to concrete strategies for individual and communal empowerment. Clark, who began her own teaching career in 1916, grounded her approach in the philosophy and practice of southern black activist educators in the decades leading up to the 1950s and 1960s, and then trained a committed cadre of grassroots black women to lead this literacy revolution in community stores, beauty shops, and churches throughout the South. In this engaging biography, Katherine Charron tells the story of Clark, from her coming of age in the South Carolina lowcountry to her activism with the Southern Christian Leadership Conference in the movement's heyday. The enhanced electronic version of the book draws from archives, libraries, and the author's personal collection and includes nearly 100 letters, documents, photographs, newspaper articles, and interview excerpts, embedding each in the text where it will be most meaningful. Featuring more than 60 audio clips (more than 2.5 hours total) from oral history interviews with 15 individuals, including Clark herself, the enhanced e-book redefines the idea of the "talking book." ***ages 12 and up, the award-winning biography that examines Rosa Parks's life and 60 years of radical activism and brings the civil rights movement in the North and South to life The basis for the documentary of the same name executive produced by award-winning journalist Soledad O'Brien, now streaming on Peacock. The documentary is the recipient of the 2022 Television Academy Honors Award. A Chicago Public Library's "Best of the Best Books of 2021" Selection . A Kirkus Reviews "Best YA Biography and Memoir of 2021" Selection Rosa Parks is one of the most well-known Americans today, but much of what is known and taught about her is incomplete, distorted, and just plain wrong. Adapted for young people from the NAACP Image Award-winning The Rebellious Life of Mrs. Rosa Parks, Jeanne Theoharis and Brandy Colbert shatter the myths that Parks was meek, accidental, tired, or middle class. They reveal a lifelong freedom fighter whose activism began two decades before her historic stand that sparked the Montgomery bus boycott and continued for 40 years after. Readers will understand what it was like to be Parks, from standing up to white supremacist bullies as a young person to meeting her husband, Raymond, who showed her the possibility of collective activism, to her years of frustrated struggle before the boycott, to the decade of suffering that followed for her family after her bus arrest. The book follows Parks to Detroit, after her family was forced to leave Montgomery, Alabama, where she spent the second half of her life and reveals her activism alongside a growing Black Power movement and beyond. Because Rosa Parks was active for 60 years, in the North as well as the South, her story provides a broader and more accurate view of the Black freedom struggle across the twentieth century. Theoharis and***

***Colbert show young people how the national fable of Parks and the civil rights movement—celebrated in schools during Black History Month—has warped what we know about Parks and stripped away the power and substance of the movement. The Rebellious Life of Mrs. Rosa Parks illustrates how the movement radically sought to expose and eradicate racism in jobs, housing, schools, and public services, as well as police brutality and the over-incarceration of Black people—and how Rosa Parks was a key player throughout. Rosa Parks placed her greatest hope in young people—in their vision, resolve, and boldness to take the struggle forward. As a young adult, she discovered Black history, and it sustained her across her life. The Rebellious Life of Mrs. Rosa Parks will help do that for a new generation. Evaluates the ways in which the story of Rosa Parks and the Montgomery bus boycott is misrepresented to children. As a New Deal Democrat, she worked to abolish the poll tax and establish a federal antilynching law. She rarely hesitated to appear in integrated settings, and years before the 1955 Montgomery Bus Boycott, she was regularly confronting bus drivers over their mistreatment of black riders. Morgan's letters had consequences: she and the newspapers that published them were vilified and threatened. Although the trustees of the Montgomery Public Library, where Morgan worked, resisted pressure to fire her, a cross was burned in her yard, and friends, neighbors, former students, and colleagues shunned her.
